There's just one last obligation she has to see through before she takes Adem and moves on. She might return home to Miran or sell her services elsewhere, but wherever it is, it'll be far away. Baroness Christine Halett has a plan to recapture her stolen lands. It'll be risky, but that's never stopped her before and she won't let it this time either. With Mia, Liam, Harald and Aaron, she knows it can be done. The only thing that matters to her is the mission. Losses are to be expected. Neither of them know that Chester Buckley has clawed his way back to health. He's made a pact with an ancient creature of power with only one goal on its mind: Revenge. It doesn't care about anything else and neither does Buckley. Christine and Mia will pay...

This 1991 study deals with a specific set of institutions in nineteenth-century Athens. Relying on matrimonial contracts, travellers' accounts, memoirs and popular literature, the authors show how distinctive forms of marriage, kinship and property transmission evolved in Athens in the nineteenth century. These forms then became a feature of wider Greek society which continued into the twentieth century. Greece was the first post-colonial modern nation state in Europe whose national identity was created largely by peasants who had migrated to the city. As Athenian society became less agrarian, a new mercantile group superseded and incorporated previous elites and went on to dominate and control the new resources of the nation state. Such groups developed their own, more mobile, systems of property transmission, mostly in response to external pressures of a political and economic character. This is a persuasive piece of detective work which has advanced our knowledge of modern Greece. It is a model for scholarship on the development of family and other 'intimate' ideologies where nation states encroach upon local consciousness.

Eleven-year-old Vasya Andrejevich Gergiev was abandoned by his mother and left at a Polish orphanage. Tomek Markovic adopts the boy and the two move to Prague. But Markovic is not what he seems. He is a pedophile and part of an organization that supplies children to wealthy clients in Europe. Vasya undergoes the horrendous transformation of becoming a child prostitute, suffering abuse from clients and Markovic himself. Yuri Seminkov, an undercover police officer, infiltrates the organization, acting as an accountant. Seminkov arranges the purchase and sale of the children while obtaining evidence to dismantle the prostitution ring and put its monsters behind bars. Witness to - and powerless to stop - the children's training sessions, Seminkov arranges to have Vasya stay in his room. Pretending to have the same sick appetites as the men he works for, Seminkov is able to offer the boy small respites from his living hell. Vasya approaches a man in the streets of Prague, as he's trained to do. Philip Page, a reputable businessman decides to take the boy back to his hotel and to his wife, Jennifer, in order to provide a means of escape for Vasya. The couple smuggle Vasya out of Prague, but Markovic is not about to give up his prized possession easily. As Philip and Jennifer attempt to give Vasya a normal life, his captors will track their every move. As this cat and mouse game plays itself out, everyone will discover a dark secret that threatens to destroy them all. Morgan Bruce is an author, musician and educator.

Betrayal in the City, first published in 1976 and 1977, was Kenya's national entry to the Second World Black and African Festival of Arts and Culture in Lagos, Nigeria. The play is an incisive, thought-provoking examination of the problems of independence and freedom in post-colonial African states, where a sizeable number of people feel that their future is either blank or bleak. In the words of Mosese, one of the characters: "It was better while we waited. Now we have nothing to look forward to. We have killed our past and are busy killing our future."--Page 4 of cover.

Trust is a key differentiator for high-performing organizations. It makes bold initiatives possible, difficult transitions easier, and everyday workflow more effective. Yet trust can be hard to build and sustain because most people aren't aware of the subtle and unintentional ways they test and break trust in their workplace relationships every day. In this updated edition of their award-winning book, Dennis and Michelle Reina show how anyone at any level-not just those at the top-can take action and change his or her behavior to create, build, and sustain trust in the workplace. Christians from diverse cultural, religious, and political contexts have been studying the Gospel of John for almost two thousand years. In this insightful reflection on the Fourth Gospel, Rev Yohanna Katanacho invites us to encounter the text anew, this time from the perspective of a twenty-first century Palestinian Christian. Challenging the claim that Christ belongs to a particular denomination, nation, or race, Katanacho presents the Gospel of John as introducing a new world order. In John's account of Jesus's life, the rich history of Judaism is reinterpreted in light of the inclusive Christ, the fulfilment of Old Testament prophecies, teachings, and promises. Walking us through the reinterpretation of holy space, holy time, holy history, holy community, holy land, and life itself, Katanacho demonstrates how John's gospel establishes a new identity for the people of God – an identity defined not by race or nationality but by suffering and love.
