

Better Spelling In 30 Minutes A Day Better English Series

Presents a self-instruction program to improve grammar skills in written and oral communication. Original.

Focusing on the relationship between time use and learning results, this book explores the instructional processes in special education classrooms. The text emphasizes teacher control of time resources at the classroom level, instructional management strategies that conserve and enhance instructional time, and the efficient and effective use of learning time to enhance student performance outcomes. The dual dimensions of time and task are incorporated throughout the text to communicate the essential message that time and the appropriate use of time go hand in hand in the classroom. Adequate time alone is a necessary but insufficient condition for maximal learning to occur. Time and Learning in the Special Education Classroom strikes a balance between research and application to achieve a scholarly yet readable text, relevant for both pre-service and in-service teachers, supervisors, principals, administrators, and teacher educators.

Author James Pylant unveils the real Carolyn Jones, with access to her personal correspondence and journal, as well as interviews with her family, friends and fellow actors.
