parents extend the learning even further by linking it to activities they can do at home during the following week. Each craft activity in the book has a list of supplies which should be obtained prior to the session.

??

The Big Ideas Math program balances conceptual understanding with procedural fluency. Embedded Mathematical Practices in grade-level content promote a greater understanding of how mathematical concepts are connected to each other and to real-life, helping turn mathematical learning into an engaging and meaningful way to see and explore the real world. Contains 1001 suggestions for meeting the challenges faced by children with autism spectrum disorders, covering sensory integration, communication, language, daily living, social issues, behavior, and education.

Summer Link Math Plus Reading is designed to be a fun way to help a child prepare for the grade ahead during the summer. Each 320-page book includes fun learning activities covering a range of topics in math and reading. The activities review skills from the previous grade and gradually increasing in difficulty to prepare a child for the grade ahead. --Summer Link Math Plus Reading is designed for parents looking for a fun and affordable way to help their children stop the summer learning slide and prepare for the grade ahead during the 10 weeks of summer. The easy-to-use full-color activities review and extend essential skills and increase confidence at school. A Test Practice section at the end of each book provides tips and practice for standardized tests and will allow the child to review the topics covered. A skills checklist for parents, a recommended summer reading list, and an answer key are also included.
