The Core Text Series takes the reader straight to the heart of the subject, providing an invaluable and reliable guide for students of law at all levels. Written by leading academics and renowned for their clarity, these concise texts explain the intellectual challenges of each area of the law. O'Sullivan and Hilliard's *The Law of Contract* provides students with a clear, straightforward, and comprehensive account of the core principles of contract law to enable a sound understanding of the subject. The new edition has been rigorously updated by Cambridge academic and teacher, Janet O'Sullivan. All the key topics on the LLB and GDL courses are covered, and the author introduces students to current debates in the field. Complex problems are broken down into manageable steps and self-test questions are provided at the end of each chapter to help reinforce learning and aid revision. Online resources On the accompanying online resources students can find guides to answering these questions as well as additional support for their studies, including additional chapters, and web links. There are also twice-annual updates keep students up to speed on key developments in contract law. Self-test questions on the key topics of contract law give students the opportunity to test their learning. These questions test both factual knowledge to help consolidate understanding of key topics, and also offer a range of questions testing practical understanding, by putting students in the shoes of a legal practitioner facing a particular scenario.

You should sleep with a stranger, her best friend whispered in her ear—and so begins the intense, erotic journey of Kasie Fitzgerald in *Book One of the Just One Night* series, a blockbuster bestseller and “an uplifting story in which sex is presented both as freedom and as a metaphor for power” (Publishers Weekly). Kasie Fitzgerald knows who she's supposed to be. Responsible. Reliable. Predictable. She's an ambitious workaholic who is devoted to the sensible man she plans to marry. But one wild, impulsive night in Vegas is about to open her eyes up to who she wants to be... Trying her sexy new dress and her luck at a blackjack table, Kasie meets him. Intense. Flirtatious. Dangerous. She accepts his invitation for a drink...and then to his hotel room. She doesn't know his name. But she'll never forget the sex. Hard. Thrilling. Explosive. So when her mystery man later shows up at her office unexpectedly, she succumbs to his mastery, both in bed and in the boardroom. There's no telling where the powerful, wealthy Robert Dade will lead her. But there's also no resisting her desire...however far she'll go under its spell. The only question is who she'll be when the journey ends.

Examines the life and work of Giovanni Francesco Straparola, who created the modern fairy tale and sought his fortune by selling his tales to the inhabitants of Renaissance Venice.

Part 2 of the *Just One Night* series. One passionate night with a stranger turned Kasie's world upside down, and just when she thought she was getting the hang of things, her fiancé finds out... You should sleep with a stranger—those words whispered in her ear by her best friend

became a challenge Kasie took to heart. Suddenly, the man who gave her the most shocking pleasure in that upscale Vegas hotel—a man whose name she never bothered to find out—is her company's biggest client. As this unknown man becomes Mr. Dade at the office, and Mr. Dade becomes Robert in the bedroom, Kasie discovers her true nature and begins to question the carefully controlled, modest image she has crafted to please her family and friends. But when her fiancé, Dave, finds out, his rage and desire to both keep her and punish her could cost her everything—including Robert, the only man who has wanted Kasie for who she really is and the only man who makes her feel truly alive. At last someone has discovered one of the most fascinating lives of the 20th century. As a crusading journalist, John Reagan 'Tex' McCrary led the way from newspapering into radio and television. As a handsome adventurer, this well-connected Yalie romanced some of the world's most talented (and richest) women, winding up a globe-girdling love affair by marrying Jinx Falkenburg, then America's top model and later his partner on the air. As a brave Army Air Corps colonel in World War II, he took the first group of reporters into devastated Hiroshima, and was instrumental in the creation of an independent U.S. Air Force. As a political activist, he was a powerful influence in pulling General Eisenhower back from Paris to wrench the Republican presidential nomination from the hard right—even though his advocacy cost him his network job. As a pioneer publicist, Tex brought a social conscience to the builder of Levittown and sent a kid he was mentoring (me) to Moscow to set up the historic 'kitchen debate' between Nikita Khrushchev and Richard Nixon. I could never get him to write his memoirs before he died; the active octogenarian stubbornly said 'I won't live my life with eyes on the rear-view mirror.' But Chuck Kelly, his longtime friend, interviewed him skillfully and often, and now we have an adventurer's eye-view of McCrary's little-known role in tempestuous times.—William Safire

Climate change control has risen to the top of the international agenda. Failed efforts, centred in the United Nations, to allocate responsibility have resulted in a challenge now reaching crisis stage. John J. Kirton and Ella Kokotsis analyse the generation and

effectiveness of four decades of intergovernmental regimes for controlling global climate change. Informed by international relations theories and critical of the prevailing UN approach, Kirton and Kokotsis trace the global governance of climate change from its 1970s origins to the present and demonstrate the effectiveness of the plurilateral summit alternative grounded in the G7/8 and the G20. Topics covered include: - G7/8 and UN competition and convergence on governing climate change - Kyoto obligations and the post-Kyoto regime - The role of the G7/8 and G20 in generating a regime beyond Kyoto - Projections of and prescriptions for an effective global climate change control regime for the twenty-first century. This topical book synthesizes a rich array of empirical data, including new interview and documentary material about G7/8 and G20 governance of climate change, and makes a valuable contribution to understanding the dynamics of governing climate change. It will appeal to scholars, researchers, and policy makers interested in the dynamics behind governance processes within the intergovernmental realm.

Medieval clerics believed that original sin had rendered their "fallen bodies" vulnerable to corrupting impulses—particularly those of a sexual nature. They feared that their corporeal frailty left them susceptible to demonic forces bent on penetrating and polluting their bodies and souls. Drawing on a variety of canonical and other sources, *Fallen Bodies* examines a wide-ranging set of issues generated by fears of pollution, sexuality, and demonology. To maintain their purity, celibate clerics combated the stain of nocturnal emissions; married clerics expelled their wives onto the streets and out of the historical record; an exemplum depicting a married couple having sex in church was told and retold; and the specter of the demonic lover further stigmatized women's sexuality. Over time, the clergy's conceptions of womanhood became radically polarized: the Virgin Mary was accorded ever greater honor, while real, corporeal women were progressively denigrated. When church doctrine definitively denied the physicality of demons, the female body remained as the prime material presence of sin. Dyan Elliott contends that the Western clergy's efforts to contain sexual instincts—and often the very thought and image of woman—precipitated uncanny returns of the repressed. She shows how this dynamic ultimately resulted in the progressive conflation of the female and the demonic, setting the stage for the future persecution of witches.

This book aims to explain the principles of contract law for the businessman, and to put those principles into their commercial context. Anyone involved in commercial transactions needs at least a basic understanding of the principles of contract law – the legal framework for all commercial activity. A lack of such a basic understanding at best results in a business which is less competitive and ultimately less profitable than it should be, and at worst can have expensive and sometimes disastrous commercial consequences.

Featuring succinct case summaries, THE LEGAL ENVIRONMENT TODAY, SUMMARIZED CASE EDITION, 8E, equips students with the working knowledge of business-related laws recommended by the Association to Advance Collegiate Schools of Business while strengthening the reasoning skills they need to interpret and apply them. Using summarized cases from 2013 and 2014 legal decisions, the text challenges students to analyze and resolve legal issues facing today's businesses. Hypothetical situations and exercises, ethical discussions, and international considerations illustrate how business law applies to students' everyday lives and their future careers. In addition to an overall emphasis on how the digital landscape is affecting business law, the text covers the latest on corporate responsibility, financial and credit card reforms, health-care laws, and much more. Business Law, 5th Edition (James et al.) is written for business students to provide a clear and accessible introduction to the legal system. Business law courses are the first exposure to law for many business students and the first time they are obliged to think deeply about the discipline. This updated edition presents business law in a practical context rather than the doctrinal context that many major legal publishers use. The Business Law interactive e-text features a range of instructional media content designed to provide students with an engaging learning experience. This includes practitioner videos from Herbert Smith Freehills, animated work problems and questions with immediate feedback. This new edition is a unique resource that can form the basis of a blended learning solution for lecturers.

Conrad is regarded as one of the greatest novelists in English, though he did not speak the language fluently until he was in his twenties. He wrote stories and novels, often with a nautical setting, that

depict trials of the human spirit in the midst of an indifferent universe. He was a master prose stylist who brought a distinctly non-English tragic sensibility into English literature.

International public servants and their far-reaching secretariats receive little press attention when nation-states take the spotlight in significant international events, which is why author John Mathiason and others commonly refer to them as invisible. But secretariats' activities are constantly shaping the course of history with inspectors determining whether uranium enrichment in Iran is for peaceful purposes, maintaining surveillance on a possible bird flu epidemic (the World Health Organization), raising alarms about starvation in Zimbabwe (the World Food Programme), or passing judgment on former heads of state and military officers in the Balkans (the United Nations war crimes tribunal). Having served as a member of the United Nations Secretariat for 25 years, author John Mathiason offers a unique behind-the-scenes view, taking readers through of the life and duties of an international public servant. Through personal accounts and extensive knowledge of a variety of international organizations, Mathiason covers the implications of being an influential, but "invisible" entity. He charts the difficulties in documenting scope and accountability, the issues such as disarmament, human rights, and environmental protection that he encountered while serving at the secretariat and charts the history of these dynamic and expansive entities present in every crucial event of the past century. By looking at the international public sector as an actor in its own right, *Invisible Governance* provides a new perspective on the workings of the international system and tools and approaches for ensuring that the system works effectively and with accountability.

Transit-oriented development (TOD) seeks to maximize access to mass transit and nonmotorized transportation with centrally located rail or bus stations surrounded by relatively high-density commercial and residential development. New Urbanists and smart growth proponents have embraced the concept and interest in TOD is growing, both in the United States and around the world. *New Transit Town* brings together leading experts in planning, transportation, and sustainable design—including Scott Bernstein, Peter Calthorpe, Jim Daisa, Sharon Feigon, Ellen Greenberg, David Hoyt, Dennis Leach, and Shelley Poticha—to examine the first generation of TOD projects and derive lessons for the next generation. It offers topic chapters that provide detailed discussion of key issues along with case studies that present an in-depth look at specific projects. Topics examined include: the history of projects and the appeal of this form of development a taxonomy of TOD projects appropriate for different contexts and scales the planning, policy and regulatory framework of "successful" projects obstacles to financing and strategies for overcoming those obstacles issues surrounding traffic and parking the roles of all the actors involved and the resources available to them performance measures that can be used to evaluate outcomes Case Studies include Arlington, Virginia (Roslyn-Ballston corridor); Dallas (Mockingbird Station and Addison Circle); historic transit-oriented neighborhoods in Chicago; Atlanta (Lindbergh Center and BellSouth); San Jose (Ohlone-Chynoweth); and San Diego (Barrio Logan). *New Transit Town* explores the key challenges to transit-oriented development, examines the lessons learned from the first generation of projects, and uses a systematic examination and analysis of a broad spectrum of projects to set standards for the next generation. It is a vital new source of information for anyone interested in urban and regional planning and development, including planners, developers,

community groups, transit agency staff, and finance professionals.

Part 3 of the Just One Night series. One wild night in a Vegas hotel changed everything for Kasie. Sleeping with a powerful, sexy stranger made her rethink her impending marriage, and a whole lot more. As her affair threatens her job and the sexy billionaire Robert Dade becomes more controlling, Kasie has to figure out if her passion is leading her down a path she really wants. She's seduced by his gifts of power, success, and adventure, she's overwhelmed by what he can make her feel with a single touch, the way he can make her ache for him with just a look. But is the cost of absolute power and pleasure a price Kasie can afford? And does she truly know this man who says he can give her everything...or is he still a stranger after all?

This book gathers the very best academic research to date on prison regimes in Latin America and the Caribbean. Grounded in solid ethnographic work, each chapter explores the informal dynamics of prisons in diverse territories and countries of the region Venezuela, Brazil, Bolivia, Honduras, Nicaragua, Colombia, Puerto Rico, Dominican Republic while theorizing how day-to-day life for the incarcerated has been forged in tandem between prison facilities and the outside world. The editors and contributors to this volume ask: how have fastest-rising incarceration rates in the world affected civilians lives in different national contexts? How do groups of prisoners form broader and more integrated carceral communities across day-to-day relations of exchange and reciprocity with guards, lawyers, family, associates, and assorted neighbors? What differences exist between carceral communities from one national context to another? Last but not least, how do carceral communities, contrary to popular opinion, necessarily become a productive force for the good and welfare of incarcerated subjects, in addition to being a potential source of troubling violence and insecurity? This edited collection represents the most rigorous scholarship to date on the prison regimes of Latin America and the Caribbean, exploring the methodological value of ethnographic reflexivity inside prisons and theorizing how daily life for the incarcerated challenges preconceptions of prisoner subjectivity, so-called prison gangs, and bio-political order.

In recent years game theory has swept through all of the social sciences. Its practitioners have great designs for it, claiming that it offers an opportunity to unify the social sciences and that it is the natural foundation of a rational theory of society. Game Theory is for those who are intrigued but baffled by these claims, and daunted by the technical demands of most introductions to the subject. Requiring no more than simple arithmetic, the book: * Traces the origins of Game Theory and its philosophical premises * Looks at its implications for the theory of bargaining and social contract theory * Gives a detailed exposition of all of the major 'games' including the famous 'prisoner's dilemma' * Analyses cooperative, non cooperative, repeated, evolutionary and experimental games

Ever consider those intoxicating moments life chooses to introduce sex to her innocents? In this gloves-off adventure you'll meet a hooker, a mare in heat and the minister's wife all playing roles in "Whitey" Spittle's sex education. When Granny dies, Whitey's divorced mother reluctantly surrenders, and farms out her ten-year-old handful to a succession of foster homes. Too young, he lacks the tools to compare and evaluate "normal," and views unfamiliar sleeping arrangements as "okay, for a kid." But it's in Saint John's School that he earns his campaign ribbons. The Sisters of St. Joseph regularly relieve him of contraband wax lips, horned toads, and wooden matches. An aversion to catechism lessons and long-division combines with classroom antics, and the nuns lock arms against their student with "storms in his head." The misguided eight-year-old flies off his garage to test-flight Grandmother's umbrella. During WWII the high school sophomore positions explosives on a local trolley track. And a fraternity "low-rider" accidentally full-throttles a borrowed Harley Davidson into the Pacific surf. Thankfully, Mother remarries and brings her "Little Jackass" home to his own bed. Things begin to fall into place, and Mother can finally exhale.
