Unlike the lovely Liz, who'd give anything to be in Jane's pram shoes. Desperate to reconnect with the outside world, Jane finds salvation in her local New Mothers Group, a nonagenarian neighbour, and a royal duo of bloggers dedicated to shoes and behind-the-scenes celebrity gossip. Meanwhile, her unlucky-in-love best friend, Fi, thinks she's found THE one - Marco. Should Jane be concerned that Marco is a handsome, intelligent, Italian shoe designer with a passion for teaching his craft to bored housewives? Or that her work-focussed husband is spending increasingly long hours at the office ... A heart-warming and timeless tale of the transition from career-girl to new mum, *The Shoe Princess's Guide to the Galaxy* is a sassy and sparkling debut about one modern woman's attempts to put her best foot forward.

"It is the fate of South African literature to be political. For better or worse, South African writers, some of whom have now acquired international reputations, have been held hostage to apartheid, which has imposed its own brutal and limiting categories even on those who oppose it. Nevertheless, as *Black/White Writing: Essays on South African Literature* demonstrates, writers of talent have found extraordinarily diverse and creative ways of dealing with the constraints of their historical condition." "In the opening essay Nadine Gordimer attempts to answer the question "For whom do you write?" As a politically committed writer, Gordimer would no doubt like to be read by the oppressed people whose cause she has always championed, but she is forced to recognize that South African realities render illusory the cherished concept of the universality of literature." "Gordimer's novels are discussed in three of the articles that follow. Nancy Bazin shows how, in dealing with the theme of interracial sex, Gordimer has become increasingly aware of the silent and largely ignored black woman who forms the third point of the love triangle. Pauline Fletcher argues that behind the political stance of Gordimer's novels lies a distrust of the abstractions of even the most enlightened politics; her subtext celebrates the truth of the body. Nicholas Visser places Gordimer's *July's People* in its historical context and compares it with other novels of future projection by Karel Schoeman and J. M. Coetzee." "Visser's overtly political and historicist study is contrasted by Sarah Heider's essay on Coetzee's *Life and Times of Michael K*. It is perhaps fitting that Coetzee, who has expressed distaste for the fate of being a South African writer, should receive attention from a critic who, while ignoring the historical context of the novel, demonstrates K's rejection of all attempts to convert his story into the accepted currencies of the social system." "Many black women writers from South Africa have also attempted to resist the political imperatives imposed upon writers by apartheid. Their work has in consequence often been called apolitical, and it is only recently that it has been given the consideration it deserves. Elizabeth Taylor examines the often problematical relationship between tradition and the black writer in her discussion of the ways in which black women have had to negotiate between their desire to preserve cultural continuity and their need to resist much in their inherited culture that is oppressive for women. For writers of mixed race the relation to tradition is even more problematical, perhaps accounting for the fact that both Bessie Head and Zoe Wicomb went into voluntary exile. Their work does not fall into the category of anti-apartheid writing, but (as Carol Sicherman and Isabella Matsikidze show) it does have a political dimension and it points in the direction that fiction might take in a post-apartheid South Africa." "The volume closes with an essay by Gerald Monsman that takes the reader back to an earlier South Africa, examining Olive Schreiner's writing in the broader context of other stories from an imperialist past." "Two poems by Dennis Brutus open the volume. They speak eloquently of human suffering and the desire for peace."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Indigenous peoples have long sought the return of ancestral human remains and associated artifacts from western museums and scientific institutions. Since the late 1970s their efforts have led museum curators and researchers to re-evaluate their practices

and policies in respect to the scientific uses of human remains. New partnerships have been established between cultural and scientific institutions and indigenous communities. Human remains and culturally significant objects have been returned to the care of indigenous communities, although the fate of bones and burial artifacts in numerous collections remains unresolved and, in some instances, the subject of controversy. In this book, leading researchers from a wide range of disciplines in the humanities and social sciences reflect critically on the historical, cultural, ethical and scientific dimensions of repatriation. Through various case studies they consider the impact of repatriation: what have been the benefits, and in what ways has repatriation given rise to new problems for indigenous people, scientists and museum personnel. It features chapters by indigenous knowledge custodians, who reflect upon recent debates and interaction between indigenous people and researchers in disciplines with direct interests in the continued scientific preservation of human remains. The term 'consumption' is generally thought of as process by which individuals purchase goods and services. The New Consumer Psychology attempts to explain consumption as a social behavior that satisfies individual values and desires. In modern society, individual needs are no longer determined solely by age or gender, but by the life values and desires that one pursues. This book uncovers people's subjective experiences of consumption in the capitalist society with interesting inside stories ranging from politics to designer handbags. The book also provides valuable consumer insights into business and individuals by going beyond the limitations of population statistics and demonstrates Q-methodology is used to analyse consumers' subjective responses. This book is an interesting take on how we should shift our focus from products to people and explains why identification and interpretations of different consumer groups are important in smart targeting. Its content will definitely inspire marketing strategies and market effectiveness.

In this information overloaded twenty-first century, it seems impossible to fully discern or explain how we know about the past. But two things are certain. Whether we are conscious of it or not, we all think historically on a routine basis. And our perceptions of history, including African American history, have not necessarily been shaped by professional historians. In this wide-reaching and timely book, Pero Gaglo Dagbovie argues that public knowledge and understanding of black history, including its historical icons, has been shaped by institutions and individuals outside academic ivory towers. Drawing on a range of compelling examples, Dagbovie explores how, in the twenty-first century, African American history is regarded, depicted, and juggled by diverse and contesting interpreters—from museum curators to film-makers, entertainers, politicians, journalists, and bloggers. Underscoring the ubiquitous nature of African American history in contemporary American thought and culture, each chapter unpacks how black history has been represented and remembered primarily during the "Age of Obama," the so-called era of "post-racial" American society. *Reclaiming the Black Past: The Use and Misuse of African American History in the 21st Century* is Dagbovie's contribution to expanding how we understand African American history during the new millennium.

'Nakkiah Lui's writing is, as always, on point: hold-your-belly funny; pumping with politics that prompts visible discomfort.' Maxine Beneba Clark, *Saturday Paper* 'Her writing, whether devastating or hilarious, has always shown a great deal of accessible humanity and relentless intelligence.' *Guardian* 'We needed a new David Williamson, someone who speaks to Australia and Australians now. We've found her in Nakkiah.' Alex Broun, playwright 'Mount Druitt's answer to Lena Dunham.' *Belvoir Theatre* 'If there is such a thing as a rockstar playwright, Nakkiah Lui is it.' Fran Kelly, RN Love, politics and other things you shouldn't talk about at dinner Charlotte Gibson is a lawyer with a brilliant career ahead of her. As her father Ray says, she could be the next female Indigenous Waleed Aly. But she has other ideas. First of all, it's Christmas. Second of all, she's in love. The thing is, her fiance, Francis Smith, is not what her family expected - he's unemployed, he's an experimental composer ... and he's white! Bringing him and his conservative parents to meet her family on their ancestral land is a bold move. Will he stand up to the scrutiny? Or will this romance descend into farce? Love is never just black and white. It's complicated by class, politics, ambition, and too much wine over dinner. But for Charlotte and Francis, it's mostly complicated by family. Secrets are revealed, prejudices outed and old rivalries get sorted through. What can't be solved through diplomacy can surely be solved by a good old-fashioned dance-off. They're just that kind of family. Award-winning writer Nakkiah Lui shows why she is one of this country's most in-demand young voices, delivering cutting satire that is both seductively subversive and thoroughly delightful.

Criminal profiler Pat Brown and her business owner son, Dave Brown, are horrified at what is happening to the legacy of Martin Luther King, Jr. After being refused permission to join Meetup groups in her area because she was not a person of color, Pat, a white woman with a biracial son, created a fake Meetup group. It was called "White Women Yoga" in order to test the new concept that racial segregation is now alright in America and the Civil Rights Act of 1964 is no longer in operation. All hell broke loose; liberals were indignant that a white person would dare have a whites-only group and called her racist, a Nazi, a white supremacist, while at the same time praising black-only groups for having "safe spaces." Pat and Dave are mother and son, white and black, and they are dismayed at how our country is going backward in race relations. They believe the Democratic Party and the push for socialism is making this happen. Pat has spent almost twenty years in the media, giving crime commentary on almost every cable news channel on a regular basis, while Dave has always been fascinated with our political and economic systems. When the war against conservatives came into full swing during the Trump administration, when black and white conservatives were being painted as racists and white supremacists, mother and son came together to fight back. This book is about their journey as people of two different races, and how the great progress made in race relations and black lives is being torn apart by the Left. Conservatives must continue to fight for our country if we are to keep America great and free for people of all races.

The disparity between the ideal, a democratic America, and the reality, racial oppression and poverty, is so great that serious voices among blacks, students, and others challenged the ethical foundations of the nation in the 1960s. Local political organizations emerging out of black ghettos led a black revolt, asserting a revolutionary black nationalism rather than social reform and integration. For those blacks, white America could no longer dictate right and wrong, and certainly could no longer tell blacks how best to pursue their goals. This feeling was so strong among the adherents of the new militant movements formed under the political symbolism of "black power" that they questioned all white ethical institutions. These new movements bargained and contended with whites, even worked closely with them for many purposes, but always with suspicion and caution. *White Ethics and Black Power* describes racial relations during this period. It examines the careers and philosophies of the leadership of a community organization, illuminating the complex relationship between white America and the new black power movements, between America and its interpretation of itself on the one hand, and the experience of black and oppressed peoples in America on the other. Redefining social science as a means--through education and research--of improving the quality of American life, William Ellis derides non-participatory social science as a hoax and asks the social scientist to make clear his moral commitment: to the people he studies or to the establishment that funds him. Controversial in its ideology, its passion, and its scorn of racist America, this volume remains the only openly partisan social scientific analysis into the nature of this American crisis. Readers may not agree with the views expressed by the author, but they cannot ignore this book's relevance to any understanding of black-white relationships. Unique in the literature, *White Ethics and Black Power* not only explains black power, but offers hope for meaningful change. William W. Ellis was a member of the West Side Organization for several years. He was educated at Oberlin College and New York University and served as professor of political science at Northwestern University.
