Excerpt from At Home and Abroad: A Sketch-Book of Life, Scenery and Men It the first place, it runs in the blood. If there is any law I believe in, it is that of the hereditary transmission of traits, qualities, capacities, and passions. My father is a farmer; my grandfather was, and his father before him, and his, and his again, to the seventh ancestor, who came over in one of William Penn's vessels, and immediately set about reducing the superfluous sylvanism of that Apostle's Sylvania. If I could brush away the clouds which hang about this portion of the genealogical tree, I have no doubt but that I should find its trunk striking through cottages or country halls for some centuries further; and that "Roger, (ob. 1614,) the son of Thomas, the son of Roger," who wore the judicial ermine upon his escutcheon, had his favorite country-house in the neighborhood of London. Reproduction of the original: A Florida Sketch Book by Bradford Torrey

William Cumming began as a self-taught artist who grew up in Tukwila, a small town outside Seattle. In 1937, at the age of twenty, he met Morris Graves, who was at that time working in Seattle for the Federal Art project of the Works Progress Administration. Through Graves he soon became part of the circle of friends who came to be known as the Northwest School of artists: Mark Tobey, then nearing fifty, the patriarchal leader of the group; Kenneth Callahan and his wife Margaret, a writer and critic who became Cumming's particular mentor; Guy Anderson, Lubin Petric, and others. He has taught for many years at the Art Institute of Seattle and Cornish College of the Arts. "Bill Cumming is at once an exceptional and successful regional artist and one of the most erudite, perceptive, and entertainingly cantankerous characters in this part of the world.

[He] tells what it was like to be an artist in the Great Depression, tells tales out of school about such international luminaries as Mark Tobey and Morris Graves, tells how the Northwest School (of which he was the youngest member) developed, tells about the early success -- and ultimate failure -- of the Communist movement in the Far West, and shows how the political, economic, and cultural events of a half-century affected the life of a region and of its creative minority. Cumming is a natural raconteur, equipped with more literary wit and charm than most professional writers." -- Tom Robbins "Besides being one of the Northwest's best painters, Bill Cumming has certainly had a knack for being, historically speaking, in the right place at the right time. Beyond being good local history, his Sketchbook is a moving, sometimes chillingly perceptive, and certainly fascinating glimpse into the nature of artists themselves." -- Wesley Wehr

The BlackBerry Smartphone is one of the most top used phones in the business world. It's strong and secure operating system has been on the market for years, proving itself against all competitors time after time. But in a world where customers are demanding more apps, it has some major competition coming from the Apple iPhone and Android OS based smart phones. This book is designed to help you focus on bringing your BlackBerry Mobile OS Apps to life. When creating an app for a mobile device, size and design are a crucial part of the mix. It's not enough to have a good idea, but you need an idea that works and is easy to use on a small touch screen surface. One of the reasons why some apps make it and others don't is because they took the time to plan out their app, see how it works & looks before even writing down one piece of code. This simple process of spending time in concept and design changes everything. It's a critical part of the app evolution process to having a good, successful and well thought out app. This book gives you a tool to do just that. It is setup to give you a place to put down your initial app scope, and then go more into detail on what your screen will do. Followed by the chance to sketch it out and see your app come to life before going into code to create it. By having a place where you can create all your screens with the details, it saves you time and money by allowing you to change and create new options that might be a bit more

complicated to do if you just started coding from the beginning. It also has a place for you to put down your notes, create a description for the BlackBerry App World store and even a place to create your apps icon too. This portable canvas allows you to create designs for the BlackBerry Mobile OS environment. It also gives you an easy to carry portable lab to experiment and allow your ideas to flourish right before your very eyes.

Example in this ebook CHAPTER I. RURAL AMERICA. Whar's Hiram, Het?' Deacon Zephaniah Winthrop asked of his wife, tartly. 'Pears to me that boy's allus off somewhar, whenever he's wanted to do anything. Can't git along without him, any way, when we've got to weed the spring peppermint. Whar's he off, I say, Mehitabel?' Mrs. Winthrop drew herself together from the peas she was languidly shelling, and answered in the dry withered tone of a middle-aged northern New Yorker, 'Wal, I s'pose, Zeph, he's gone down to the blackberry lot, most likely.' 'Blackberry lot,' Mr. Winthrop replied with a fine air of irony. 'Blackberry lot, indeed. What does he want blackberryin', I should like to know? I'll blackberry him, I kin tell you, whenever I ketch him. Jest you go an' holler for him, Het, an' ef he don't come ruther sooner'n lightnin', he'll ketch it, an' no mistake, sure as preachin'. I've got an orful itchin', Mis' Winthrop, to give that thar boy a durned good cow-hidin' this very minnit.' Mrs. Winthrop rose from the

basket of peas and proceeded across the front yard with as much alacrity as she could summon up, to call for Hiram. She was a tall, weazened, sallow woman, prematurely aged, with a pair of high cheekbones, and a hard, hungry-looking, unlovable mouth; but she was averse to the extreme and unnecessary measure of cowhiding her firstborn. 'Hiram,' she called out, in her loudest and shrillest voice: 'Hiram! Drat the boy, whar is he? Hiram! Hi-ram!' It was a dreary and a monotonous outlook altogether, that view from the gate of Zephaniah Winthrop's freehold farm in Geauga County. The homestead itself, an unpainted frame house, consisted of planed planks set carelessly one above the other on upright beams, stood in a weedy yard, surrounded by a raw-looking paling, and unbeautified by a single tree, creeper, shrub, bush, or scented flower. A square house, planted naked in the exact centre of a square yard, desolate and lonely, as though such an idea as that of beauty had never entered into the human heart. In front the long straight township road ran indefinitely as far as the eye could reach in either direction, beginning at the horizon on the north, and ending at the horizon on the south, but leading nowhere in particular, that anyone ever heard of, meanwhile, unless it were to Muddy Creek Dépôt (pronounced deepo) on the Rome, Watertown, and Ogdens-burg Railroad. At considerable intervals along its course, a new but congenitally shabby gate opened here and there into

another bare square yard, and gave access to another bare square frame house of unpainted pine planks. In the blanks between these oases of unvarnished ugliness the road, instead of being bordered by green trees and smiling hedgerows, pursued its gaunt way, unrejoicing, between open fields or long and hideous snake fences. If you have ever seen a snake fence, you know what that means; if you haven't seen one, sit down in your own easy chair gratefully and comfortably, and thank an indulgent heaven with all your heart for your happy ignorance. Beyond and behind the snake fences lay fields of wheat and meadows and pasture land; not, as in England, green and lush with grass or clover, but all alike bare, brown, weedy, and illimitable. There were no trees to be seen anywhere (though there were plenty of stumps), for this was 'a very fully settled section,' as Mr. Winthrop used to murmur to himself complacently: 'the country thar real beautiful: you might look about you, some parts, for a mile or two right away together and never see a single tree a-standin' anywhar.' Indeed, it was difficult to imagine where on earth a boy could manage to hide himself in all that long, level, leafless district. But Mrs. Winthrop knew better: she knew Hiram was loafing away somewhere down in the blackberry lot beside the river. To be continue in this ebook

Both serious artists and casual doodlers can use the handsome sketchbooks, now offered in seven colors, four sizes, and with the options of lizard finish or Kivar covers and a sewn or spiral wire-o binding. Many choose the popular large format for sketching outdoors or for toting to art class. Others like to toss the smaller sizes into a purse or backpack. The archival-quality, vellum-finish paper is especially appealing to artists. It will not yellow with time, ensuring the preservation of their drawings, and its smooth surface readily accepts any drawing medium. The spiral-bound version opens flat. All the covers have a leatherlike finish but are actually tough and waterproof.
