Combinations are the central element in chess; they make the game so magical and captivating. The beautiful point of sacrificing a queen, the strongest piece, in order to checkmate with a lowly pawn brings a smile of joy to all chess lovers. Virtually all chess games possess a combination, either one hidden in the shadows of analysis carefully avoided or one that provides a decisive blow. Winning Chess Combinations is a unique work that doesn't merely repeat the wonderfully rich and vast numbers of combinations, asking readers to solve a particular diagrammed position; it is a work that is far more realistic. A combination involves a sacrifice upsetting the balance of forces, but will it work or tragically boomerang? The reader is invited to solve this critical question by identifying the advantages that a specific position holds which might make the combination successful.

A chess expert has distilled an enormous amount of information into an easy-to-follow, question-and-answer format that not only explains the most basic rules and essentials of play, but also offers advice on opening, combinations, middle- and end-game strategies, notation, castling, and other topics. Over 100 carefully chosen diagrams and illustrations.

James Martin, growing up in halcyon Sydney in the 1970's, had never heard the name 'Bobby Fischer'. And yet, when this most controversial, both fêted and maligned, and much loved American won the World Chess Championship against incumbent Boris Spassky of Russia, in Reykyavik, Iceland in 1972, he was, having singlehandedly done what neither Napoleon or Hitler could do-annex Moscow-in the words of one observer, in world-wide fame second only to Jesus Christ. Fischer, an intensely private man, "had a problem". In apparent solution to that 'problem', Fischer - disappeared... Due to a problematic relationship with his own father, James Martin, having decided in 1980 to 'learn how to play chess, ' encountered a man with integrity, super-brilliance, wittiness, greatness, and, let's face it, magnificent good looks, and, first through Fischer's two books on chess, Bobby Fischer Teaches Chess and My 60 Memorable Games, and subsequent submersion in the gargantuan lore concerning him - fell in love! With Prayers for Bobby, James presents a series of ninety sonnets through which a veritable horde of admirers, or 'pray-ers', offer their solidarity in devotion to "the greatest of them all" - all the time asking: "Will the real Bobby Fischer please stand up?"

'Bobby Fischer gets up, tall, overweight, and slightly clumsy. He tries to fulfil the duties of the host and shakes hands, but his nervously darting eyes betray his unease with the situation. This is not a man accustomed to receiving visitors.' Dirk Jan ten Geuzendam's gripping encounter with the legendary American recluse, a journalist's dream come true, is the worthy apotheosis of this unique collection of interviews which were first published in New In Chess between 1986 and 1992. Why did Kasparov think Fischer was an alien? How many stamps does Karpov have? Was it really Caruso who appeared in Smyslov's dream to teach him how to sing? Brimming with anecdotes and revealing insights these interviews bring together chess champions of past and present. Meet legends like Botvinnik, Gligoric, Portisch and Spassky or modern stars like Anand, Kramnik, and Judit Polgar. Different as they are, they all seem to ask Ten Geuzendam the favourite question of the inimitable Miguel Najdorf: 'Do you want to hear a beautiful story?' A classic collection, finally available again.

"Notions of chess have been shattered by a teen-age Hungarian girl - some call her modest and soft-spoken, but many opponents know her as a ferocious tiger over the board - who after years of steady progress began breathing down the necks of the top men and now has broken the barrier of one of the worlds most exclusive clubs: she has earned the rank of grandmaster at 15 years, 5 months, one month younger than Bobby Fischer when he did it 34 years ago."
