If you are comfortable reading a birth chart, you are ready to move your chart into the future using transits. The horoscope is a map of the heavens at any particular time, usually at the birth of a person. An important aspect to consider when creating charts is the Midheaven. Before computers it was a vital computation in setting up horoscopes. Curiously, many astrologers ignore this point in their interpretations. During over twenty-five years as a professional astrologer, Stephanie Jean Clement, Ph.D., has emphasized that no point of a chart is unimportant. She reveals what she has learned in *The Power of the Midheaven*. Attention to the Midheaven can revolutionize your understanding of astrology. If you are an astrologer, you need the information in this book to make your readings more complete and to have a full understanding of a chart. The Midheaven indicates what we know about ourselves. The primary form of analysis is to examine the sign the Midheaven is in. For example, people with Leo Midheavens set their goals high and have the staying power to achieve them. They want to rise to the top socially (Jacqueline Kennedy is an example, as is Grace Kelly). They are self-confident, generous, know they are fine leaders, and have organizational capability — but may not be able to admit their own shortcomings. A Leo Midheaven is the master of control and free will, and achieves spiritual enlightenment by knowing that the physical body is necessary. Dr. Clement points out that both Charlie Chaplin and Adolf Hitler have a Leo Midheaven (they were born within days of each other). She gives quotes showing how they used their wills to control people, and both worked hard to eventually reach the top. Obviously, they were quite different people, but the way they achieved their goals was similar. Chaplin actually experienced his first movie-making disappointment with "The Little Dictator," a film about Hitler. This book covers the Midheaven through all the signs. It also includes planets in aspect, transits, and much more. If you are an astrologer, or if you are at all interested in your horoscope, you need this book.

Bitcoin has been the vehicle for the creation of a number of new millionaires. They were often the ones fortunate enough to have bought Bitcoin when its value was measured in pennies and then sell some of their holdings when Bitcoin was trading at tens of thousands of dollars. In some cases they have used their new-found wealth to start new businesses, to pay off long-standing debts, to promote charitable causes, and along the way, to become even more vocal Bitcoin advocates. It's also true that Bitcoin has created consternation for central banks and government regulators around the world. Its transformational potential for upsetting the global economic apple cart is certainly being taken seriously by the powers that be. And yes, Bitcoin has been a key element in criminal activities and illicit enterprises. Some of its bedfellows have been particularly unsavory, and even dangerous to have as associates. Because of the ability to maintain privacy

and conceal the amounts being transferred in discrete and unmediated person-to-person transactions, a digital wallet full of Bitcoin has in some situations become suspiciously synonymous with a suitcase full of cash. All of that - and much more besides - is documented in this breakthrough book. Bitcoin Astrology brings together some of the world's top financial astrologers who examine the origins and history of the cryptocurrency, its social, economic and geopolitical impact, and the vital role it will play in the future in a new paradigm for an egalitarian economy. With the likes of Tim Bost, Bill Meridian, Goncalo Moreira, Christeen Skinner and Wendy Stacey involved, you know you're getting the best astrological and technical experts available today. The book features in-depth analysis, Elliott wave studies, connections with Austrian Economics and Uranian Astrology from the Hamburg School, practical experiences, harmonic theories, specific Bitcoin trading strategies, and much more besides. Each of the contributors adds a unique perspective to the mix, resulting in an amazing synthesis of insights and inspirations. This remarkable volume also includes more than 50 key horoscopes to use in timing and analyzing Bitcoin market trends, along with illuminating comments on each horoscope chart. They tell a tale of fears and follies, of greed and altruism, and of fantasies and hope. But they also document important beginnings, and they make it clear that the story of Bitcoin is just getting started. In short, we anticipate adding many more horoscopes to this collection in the future. As we move through an intense period of planetary transformation between 2018 and 2022, and then into the years beyond, we are on the cusp of a new consciousness that will create fresh concepts and definitions of who we truly are as individuals, as communities, and as a planet. Our mission is to become intentional co-creators of that transformation, no matter what our personal backgrounds, beliefs, or resources may be. This ongoing process calls upon us to combine an empathetic understanding of shared human experience with the latest rapid-fire innovations in technology, and with astrology's most sacred spiritual and alchemical roots. The ultimate role that Bitcoin and its progeny will play in that ever-changing amalgamation remains to be seen. But if we willingly embrace this unique opportunity by using Bitcoin and other cryptocurrencies in our personal commerce, and by actively creating innovative economic models for meaningful transactions, we are likely to be amazed. That amazement - that profound sense of wonder - can open up boundless new personal possibilities for us. It can also become a steady fire for the alembic of even greater transmutations to come. It's truly a mind-boggling prospect - and you'll find the first steps in the process in the pages of Bitcoin Astrology. Be sure to get this book today so you can prepare for the bold new world of tomorrow!

More often than not, people think of astrology as a tool for divination or the exploration of one's personality. Astrology is considerably more than that. It is a sacred science, a highly descriptive symbolic language, and it is also a technology that can be applied to ritual, herbalism, the use of crystals, and much more. This is a practical handbook for any practitioner of magic to use in building individual rituals and creating the most effective magic. Concise, focused, and expertly presented, this book teaches the core concepts of astrology so that wiccans and pagans can truly apply it to their practices.

"Let's face it. Traders in the stocks, futures, options, or FOREX markets are dead meat if they aren't profiting from the astro-trading advantage!" That's what Tim Bost, editor of *FinancialCyclesWeekly.com* newsletter and author of *Mercury, Money and the Markets*, says it takes to survive in today's increasingly treacherous trading environment. "I've been working with planetary factors in market timing for over a quarter of a century," he says, "and I've never seen the odds stacked against individual traders more than they are now. To compete with market manipulation on a massive scale and the onslaught of high-frequency trading robots, you've got to have market timing tools that give you the agility and tactical superiority of a trading guerrilla. "That's what astro-trading is all about, and that's the focus in *Mercury, Money and the Markets*. It's aimed at short-term swing traders who want to level the playing field with high-precision, back-tested timing methods that most market players haven't even heard about!" In *Mercury, Money and the Markets*, Bost reveals the impact of Mercury cycles on price trends and reversals in equities, precious metals, and international markets on 5 continents. He also provides detailed analysis of 30 major blue-chip stocks, showing the individual idiosyncrasies in their responses to repeating Mercury cycles. With dozens of charts and examples throughout the book, he makes a compelling case for the importance of this often-overlooked component of financial astrology, elevating it to a new level as a powerful market timing tool that can make the difference between disaster and success in high-pressure trading. But Tim Bost doesn't stop there. He understands that effective trading involves more than just knowledge of the markets and correct analysis of trading opportunities-- it also requires sufficient self-awareness to be able to maintain emotional equanimity under fire. So he adds plenty of unique information here about how astro-traders can use Mercury to better understand their personal horoscopes, gaining higher degrees of trading confidence. It's a perspective unavailable from any other source. Because he's a pioneering astrological researcher as well as an active trader and trading coach, Tim Bost has uncovered significant planetary dynamics to take this advanced astro-trading sourcebook far beyond the common material found in most books on stock market astrology. It includes transneptunian factors, 90-degree dial analysis, nontraditional planetary angles and a great deal more. And it features tips on deciphering the trading code in W. D. Gann's strangest book, the role of Mercury in First-Trade horoscope analysis, and the money-making truth about the times when Mercury is retrograde. *Mercury, Money and the Markets* is also a book with lots of charm and intelligence. Bost is an excellent storyteller, so he makes the effects of Mercury come alive with examples from business, the markets, and personal experience. He also contributes his scholarly skill to this book, dipping back into the myths of antiquity to revive an ancient esoteric text that has surprising effectiveness in precisely timing trades today! This is a book to read and enjoy, and a valuable text filled with big payoffs for the active short-term trader. But it's also a book that you'll come back to again and again, since it features a unique cross-indexed Mercury Station Ephemeris that spans 201 years. In other words, while it's packed with energy and information you can use today for immediate profit, it has a long shelf life, too! If you're an astrologer
