

Books The 100 Hundred 1 Kass Morgan

Reading Log / Gifts for Book Lovers. Softback, 8" x 10" with a PRINTED IMAGE of chalk board [US\$5.49 / £4.98 / e5.48]. IF LOOK INSIDE ISN'T LOADING, the blue smART bookx link by the title will help you out. BOOK INTERIOR: One hundred attractive and spacious record pages. As well as the main review space, there's space to log: - title, author, publishing details & page count, - start & finish dates, - book format, source & genre/subject, - thoughts & inspirations in an Inspiration Tree, - ratings on plot, character development and ease of reading, as well as an overall review score, and - memorable quotes. At the back you'll find: - a loan record sheet, - a tick list of the top 100 voted fiction books, and - a Notes page for jotting down new authors, books to read, book suppliers and other useful reading resources. At the front, a blank personalized Contents Table gives space for you to add your own categories alongside some of the more common ones. Whether it's short stories, poetry, satire or a few specific authors that float your boat, you'll always be able to quickly find any of your reviews by allocating each to one or more categories as you go along. All pages are of thick white paper (55lb) to minimize ink bleed-through.

EXTERIOR: Cover: Tough matte paperback. Binding: Secure professional trade paperback binding, i.e. it's built to last; pages won't fall out after a few months of use. Dimensions: 20.3 x 25.4 cm (8" x 10"). (Almost the same width as A4 but a few cm shorter in height - so no more cramming into tiny boxes!) MATCHING PRODUCTS: smART bookx publish a wide variety of specialist journals (Blank Recipe Books, Password Journals, Trip Planners, Fitness Journals etc.) To find products matching this one, search "chalk" & "bookx" (don't forget the "x").

SIMILAR PRODUCTS: We publish several Reading Logs. Each has the same interior but there are cover designs to suit all tastes. To view them all, search "reading" & "bookx" on Amazon. Thanks for looking, The smART bookx design team Buy With Confidence Because Our Customers Love Our Stationery: ***** Affordable, But Still Good Quality! ... Very satisfied ... an affordable option that is also very thorough. Many other planners just didn't have all of the sections I needed, or they did and cost too much ... the cover is super cute and kind of soft. (Jun 1, 2016) ***** Very Nice ... Beautiful. My daughter loved them!!! (August 17, 2014) ***** Love the Van Gogh Notebook ... Loved it, keep it in my purse incase of creative impulses. (November 8, 2013) ***** Love This! ... planner is super cute, and I absolutely love the cover. Lots of room to include all kinds of information. (June 13, 2016) ***** Great for taking theory notes or writing music! ... I'm a music major, & I needed staff paper ... a cute product and the staff paper is great. (Feb 1, 2016) ***** Amazing Recipe Book ... the third smART bookx recipe book I've purchased. I have it with the Carnival cover & purchased the Polka dots cover to copy recipes for my daughter... Love the index pages ... Easy to find the exact recipe you are looking for since the index shows all the recipe pages numbered. Highly recommended. (Dec 28, 2015)

Excel Maths: Addition and Subtraction for Year 5 and Year 6 is designed to help make students feel confident in the basic processes of addition and subtraction of whole numbers. It will help to satisfy the needs of slower learners, and provide enrichment opportunity for quicker learners. Mathematics is a highly important subject in our school syllabus. It is the study of numbers - which surround us everywhere in our lives. Computers and calculators have become the order of the day and are quite handy, but the human mind still controls it. Whatever we put into the mind during the child's formative years is extremely important and most significant for the years to come. In this book your child will find: eight self-contained, carefully graded units hundreds of practice exercises quick questions and revision pages to stay in touch with previous work diagnostic and mastery test to measure student's knowledge a lift-out answer section Contents: tables language and mathematics diagnostic test whole numbers addition of whole numbers to 999 subtraction of whole number to 999 order of operations with addition and subtraction answers addition of whole numbers to 9999 subtraction of whole numbers to 9999 addition of whole numbers beyond 9999 subtraction of whole numbers beyond 9999 mastery test

This is the first full translation of Marino Sanudo Torsello's *Secreta fidelium Crucis* to be made into English. The work itself is a piece of crusading propaganda following the fall of Acre in 1291, written between 1300 and 1321, but it includes much of historical relevance along with interesting observations on the early history of Jerusalem and the Crusader Kingdom. The translation is based upon the text edited by Jacques Bongars in 1611. There is an introduction that contextualises the book, its author, his sources and his audience. The notes provide essential information to clarify internal textual references and allusions, as well as the role of Biblical references in Sanudo's grand design. The index is designed to make this detailed text usable and accessible. In this, his major work, Sanudo advocated the conquest of Egypt as the means to regain Jerusalem for the Latins and worked through his points with considerable detail alongside references to 13th-century Mediterranean history, especially involving Louis IX of France and Charles of Anjou, king of Naples. Books I and II give considerable detailed discussion of the concept, plan and costs of his proposed crusade. Book III provides an outline history of the crusades and the crusader states. It is derived from a wide-reading of other sources especially of William of Tyre, and, for events after 1184 on the Eracles, the letters of James of Vitry, and Sanudo's own experiences in the east. Throughout, the work contains a staggering amount of cartographical, ethnographical, geographical, and nautical information, as well as numerous unique insights into historical events and personalities of the late 13th century, not only in Outremer but in Western Europe.

Sharpen critical math and thinking skills with the Brainy Book of Addition and Subtraction! With challenging practice pages, entertaining puzzles and games, and engaging word problems, each page helps young learners hone math proficiency while building on basic skills. The Brainy Book series provides fun, engaging activities for young learners. The series is dedicated to helping children practice and perfect important basic learning skills. These colorful books sharpen concentration skills while supporting classroom learning. Each colorful page offers ample space for children to complete exercises. These books provide an entertaining way to hone critical skills while having fun at the same time!

Historical appendix included in some of the year books.

Learn to calculate dosages accurately and administer drugs safely! Gray Morris's *Calculate with Confidence*, Second Canadian Edition uses a clear, step-by-step approach to make drug dosage calculations easy. More than 2,000 practice questions help you review basic math and then master the three standard methods of dosage calculation: ratio and proportion, formula, and dimensional analysis. With the increasing responsibility of the nurse in mind, emphasis is placed on critical thinking and clinical reasoning in preventing medication errors. Reflecting current practice in Canadian health care, this book also provides excellent preparation for Canadian licensure exams! SI measurement units and generic/Canadian drug names are included throughout the text. Practice problems and real-world examples help students master correct dosage calculations and safe medication administration, with rationales included in practice problem answers to enhance the understanding of principles. Tips for Clinical Practice boxes summarize information critical to math calculation and patient safety. Safety Alert! boxes highlight common medication errors and identify actions that must be taken to avoid calculation errors. Chapter Review problems test student knowledge of all major topics presented in the chapter. Pre-Test review includes practice problems to help students assess their basic math skills and identify their strengths and weaknesses, covering fractions, decimals, percentages, and ratio and proportion. Post-Test in

Unit One allows students to assess and evaluate their understanding after completing the chapters on basic math. Comprehensive Post-Test at the end of the book covers dosage calculations and conversions, using real-life drug labels and situations. NCLEX® exam-style questions on Evolve help students prepare for the type of questions seen on the NCLEX-RN® Examination. NEW! Next Generation NCLEX-RN® exam-style case studies on the Evolve website provide drug calculation practice for the Next Generation NCLEX Examination. NEW! Increased number of Clinical Reasoning exercises builds students' critical thinking skills, with a focus on preventing medication errors. NEW! Thoroughly updated content includes the latest Health Canada-approved medications, current drug labels, the latest research, Canadian statistics, commonly used abbreviations, and recommended practices related to medication errors and their prevention. NEW! A-Z medication index references the page numbers where drug labels can be found. NEW! Tips for Clinical Practice from the text are now available on Evolve in printable, easy-reference format.

With more than 110 easy-to-use, reproducible worksheets, this series is ideal for enrichment or for use as reinforcement. The instant activities in these books are perfect for use at school or as homework. They feature basic core subject areas including language arts, math, science, and social studies.

This carefully crafted ebook: "The Waverly Novels - Complete Collection: 26 Books in One Volume (Illustrated Edition)" is formatted for your eReader with a functional and detailed table of contents. Hutton MEMOIRS OF THE LIFE OF SIR WALTER SCOTT by J.G. Lockhart Sir Walter Scott (1771-1832) was a Scottish historical novelist, playwright and poet. He was the first modern English-language author to have a truly international career in his lifetime, with many contemporary readers in Europe, Australia, and North America. His novels and poetry are still read, and many of his works remain classics of both English-language literature and of Scottish literature. Famous titles include Ivanhoe, Rob Roy, The Lady of the Lake, Waverley, The Heart of Midlothian and The Bride of Lammermoor.

Do NOT take the PARCC test without reviewing the Math questions in this workbook! PARCC Math Exercise Book for Grade 5, which reflects the 2019 test guidelines and topics, is dedicated to preparing test takers to ace the PARCC Math Test. This PARCC Math workbook's new edition has been updated to replicate questions appearing on the most recent PARCC Math tests. Here is intensive preparation for the PARCC Math test, and a precious learning tool for test takers who need extra practice in math to raise their PARCC math scores. After completing this workbook, you will have solid foundation and adequate practice that is necessary to ace the PARCC Math test. This workbook is your ticket to score higher on PARCC Math! The updated version of this hands-on workbook represents extensive exercises, math problems, sample PARCC questions, and quizzes with answers and detailed solutions to help you hone your math skills, overcome your exam anxiety, and boost your confidence -- and do your best to defeat PARCC exam on test day. Each of math exercises is answered in the book and we have provided explanation of the answers for the two full-length PARCC Math practice tests as well which will help test takers find their weak areas and raise their scores. This is a unique and perfect practice book to beat the PARCC Math Test. Separate math chapters offer a complete review of the PARCC Math test, including: Arithmetic and Number Operations Algebra and Functions, Geometry and Measurement Data analysis, Statistics, & Probability... and also includes two full-length practice tests! The surest way to succeed on PARCC Math Test is with intensive practice in every math topic tested--and that's what you will get in PARCC Math Exercise Book. Each chapter of this focused format has a comprehensive review created by Test Prep experts that goes into detail to cover all of the content likely to appear on the PARCC Math test. Not only does this all-inclusive workbook offer everything you will ever need to conquer PARCC Math test, it also contains two full-length and realistic PARCC Math tests that reflect the format and question types on the PARCC to help you check your exam-readiness and identify where you need more practice. Effortless Math Workbook for the PARCC Test contains many exciting and unique features to help you improve your test scores, including: Content 100% aligned with the 2019 PARCC test Written by PARCC Math tutors and test experts Complete coverage of all PARCC Math concepts and topics which you will be tested Over 2,500 additional PARCC math practice questions in both multiple-choice and grid-in formats with answers grouped by topic, so you can focus on your weak areas Abundant Math skill building exercises to help test-takers approach different question types that might be unfamiliar to them Exercises on different PARCC Math topics such as integers, percent, equations, polynomials, exponents and radicals 2 full-length practice tests (featuring new question types) with detailed answers This PARCC Math Workbook and other Effortless Math Education books are used by thousands of students each year to help them review core content areas, brush-up in math, discover their strengths and weaknesses, and achieve their best scores on the PARCC test. Get ready for the PARCC Math Test with a PERFECT Math Workbook! Published By: Effortless Math Education www.EffortlessMath.com

As the main entrance to the medieval city of Cracow, Poland, centuries of history have passed through Florian's Gate. But for Alexander Kantor, now a successful antiques dealer in London, the place holds only one memory. It was here that he was arrested by the Nazis as a young man. There he passed from freedom to imprisonment; there began a lifetime of challenges to his heritage, his well-being, his relationships and his faith. Through dramatic events spanning fifty years, Florian's Gate follows members of a

war-torn Polish family as they come to terms with their circumstances and the choices that divided them. Set in the luxurious trappings of today's London and the turbulent economies of Eastern Europe, the mysterious disappearance of an antiques dealer causes Alexander to travel back to his homeland. He did not suspect that the trail would ultimately lead to Florian's Gate and the discovery of a treasure of infinite value. A fascinating story blending a family epic with mystery and romance.

Maths Partner is a series of six guide books (Primary 1 to Primary 6) designed to help students understand basic primary mathematical concepts. This series of books covers every topic in each level. Examples are carefully selected based on the latest syllabus and solutions are explained in detail using simple English that can be easily understood by students. This series of books also provides some useful tips or 'short-cuts' that help students solve mathematical sums with speed and accuracy. Students can therefore refer to this book to learn simple and practical ways of solving mathematical problems, enabling them to become effective and efficient problem solvers.

Techniques for crocheting granny squares with basic instructions, now with 100 motifs and 25 all new projects!

Christopher Alexander's series of ground-breaking books including A Pattern Language and The Timeless Way of Building have pointed to fundamental truths of the way we build, revealing what gives life and beauty and true functionality to our buildings and towns. Now, in The Nature of Order, Alexander explores the properties of life itself, highlighting a set of well-defined structures present in all order and in all life from micro-organisms and mountain ranges to good houses and vibrant communities. In The Phenomenon of Life, the first volume in this four volume masterwork, Alexander proposes a scientific view of the world in which all space-matter has perceptible degrees of life and sets this understanding of order as an intellectual basis for a new architecture. With this view as a foundation, we can ask precise questions about what must be done to create more life in our world whether in a room a humble doorknob a neighbourhood or even in a vast region. He introduces the concept of living structure, basing it upon his theories of centres and of wholeness, and defines the fifteen properties from which, according to his observations, all wholeness is built. Alexander argues that living structure is at once both personal and structural. Taken as a whole, the four books create a sweeping new conception of the nature of things which is both objective and structural (hence part of science) and also personal (in that it shows how and why things have the power to touch the human heart). A step has been taken, through which these two domains the domain of geometrical structure and the feeling it creates kept separate during four centuries of scientific thought from 1600 to 2000, have finally been united. The Nature of Order constitutes the backbone of Building Beauty: Ecologic Design Construction Process, an initiative aimed at radically reforming architecture education, with the emphasis of making as a way to access a transformative vision of the world. The 15 fundamental properties of life guide our work and have given us much more than a set of solutions. The Nature of Order has given us the framework in which we can search and build up our own solutions. In order to be authentically sustainable, buildings and places have to be cared for and loved over generations. Beautiful buildings and places are more likely to be loved, and they become more beautiful, and loved, through the attention given to them over time. Beauty is therefore, not a luxury, or an option, it includes and transcends technological innovation, and is a necessary requirement for a truly sustainable culture. ' Dr. Sergio Porta, International Director, Building Beauty (www.buildingbeauty.org) Professor of Urban Design, Director of Urban Design Studies Unit, and Director of Masters in Urban Design, University of Strathclyde
