

Bsc Botany Practical Lab Manual

For Zoology Degree Level Students. A few chapters e.g., microscope and chromatography have been included afresh. Besides these a few dissections, several museum specimens and permanent slides have also been added at appropriate places. Often includes the proceedings of various member societies and the abstracts of papers submitted for presentation at the annual meeting of the Federation or at the meetings of its member societies.

Diversity of Microbes and Archegoniates, this laboratory manual covering the syllabuses in Botany of the BSc. Students and other examinations of similar standard. This laboratory manual must be used in conjunction with textbooks of botany. The Introduction presents general instructions for practical work and for the keeping of practical notebooks and a list of apparatus and instruments required, as well as a summary of the characteristics of living organisms, the differences between plants and animals and the principles of plant classification. Part I describes the features and methods of use of the microscope, while Part II contains intensive discussions on the evaluation of the morphological, cytological, and histological aspects of plants. The remaining parts cover genetic aspects of the plant experiments. This book is directed toward advanced and intermediate level botany teachers and students.

Product Dimensions: 21x15x3 cm. 10 edition. Contents: CONTENTS: 1. Introduction 2. Cellular Basis of Development 3. DNA, RNA and Protein Synthesis 4. Male Gonads and Spermatogenesis 5. Female Gonads and Oogenesis 6. Semination, Ovulation and Transportation of Gametes 7. Reproductive Cycles . Fertilization 8 Parthenogenesis 9 Cleavage and Blastulation - Nucleus and Cytoplasm in Development 10 Fate Maps and Cell Lineage, Gastrulation , Neurulation, Morphogenesis and Growth 11 Embryogenesis of a Simple Ascidian - Embryogenesis of Amphioxus 12 Embryogenesis of Frog 13. Detailed Account of Organogenesis of Frog 14 Embryogenesis of Chick. 14 Early Embryogenesis of Eutherian Mammal 15 Rabbit Placenta and Placentation 16 Gradient Theory 17 Embryonic Inductions and Competence 17 Differentiation Asexual Reproduction and Blastogenesis 18 Regeneration 19 Metamorphosis 20 Teratogenesis 21 Birth Control 22 Impotency, Sterility, Artificial Insemination, Test-tube Baby and GIFT, Glossary 23 Selected Reading 24 Index. Diversity of Microbes and Archegoniates Botany Practical Manual

The present book is for B.Sc(I) yr, strictly based on UGC Model syllabus for all Indian Universities. Each unit or chapter as the case may be is followed by various types of questions, such as very short, short, long answer questions, diagrammatic questions and multiple choice questions, asked repeatedly questions have been included.

The book provides discussion on all aspects of Invertebrates as covered in Practical Zoology. Beginning with general techniques of preparation of cultures of Protozoa, microscopic slides and laboratory reagents, it also covers in tabular and detailed form, recent classification of various invertebrate phyla with examples of each order or suborder. Wide coverage of each phylum, and diagrams of major and minor dissections make the book equally useful for both undergraduate and postgraduate students.

Practical Experiments included in this manual are related to new syllabus pattern of B.Sc. Second Year (Botany) for Affiliated to Dr. B. A. M. University, Aurangabad 1 Study morphological and anatomical adaptations in hydrophytes 2 Study morphological and anatomical adaptations in xerophytes 3 Study morphological and anatomical adaptations in epiphytes. 4 Study morphological and anatomical adaptations in halophytes/ 5 Study of vegetation by minimum size of quadrat 6 Estimation of I.V.I. of grassland ecosystem 7 Determination of water holding capacity of different soil samples 8 Study of meteorological instrument- rain gauge, hygrometer, and barometer. 9 Determination of percent leaf area injury of different infected leaf samples. 10 Estimation of salinity of different water samples. 11 Determination of pH of different soils by pH paper, universal indicator and pH meter

This Manual Has Been Written Primarily To Meet The Requirements Of Undergraduate Students Of B.Sc. (Agriculture) In The Fields Of Plant Pathology And Botany And Also For Technicians Who Need To Know The Laboratory Methods Of Plant Pathology. The Manual Includes Practical Exercises Covering All Undergraduate Courses In Plant Pathology, Namely, Introductory Plant Pathology, Crop Diseases And Management, Mushroom Cultivation, Plant Clinic And Seed Pathology. In View Of The New And Uniform Course Curriculum For B.Sc. (Agriculture) Being Followed In The Country, The Manual Will Be Of Great Help To Students Undergoing This Course As Well As In Seed Technology.

One of the best ways for your students to succeed in their biology course is through hands-on lab experience. With its 46 lab exercises and hundreds of color photos and illustrations, the LABORATORY MANUAL FOR GENERAL BIOLOGY, Fifth Edition, is your students' guide to a better understanding of biology. Most exercises can be completed within two hours, and answers to the exercises are included in the Instructor's Manual. The perfect companion to Starr and Taggart's BIOLOGY: THE UNITY AND DIVERSITY OF LIFE, Eleventh Edition, as well as Starr's BIOLOGY: CONCEPTS AND APPLICATIONS, Sixth Edition, and BIOLOGY: TODAY AND TOMORROW, this lab manual can also be used with any introductory biology text.
