This informative resource provides a comprehensive overview of the support services and information resources available for people diagnosed with a chronic illness. Thousands of hours of research have gone into this 2005/06 edition, hundreds of new entries have been added and thousands of enhancements have been made to existing entries. This widely-hailed directory is structured around the 90 most prevalent chronic illnesses - from Asthma to Cancer to Wilson's Disease - and provides a comprehensive overview of the support services and information resources available for people diagnosed with a chronic illness. Each chronic illness has its own chapter and contains a brief description in layman's language, followed by important resources for National & Local Organizations, State Agencies, Newsletters, Books & Periodicals, Libraries & Research Centers, Support Groups & Hotlines, Web Sites and much more. Two indexes provide quick access to this wealth of information: Entry Index and Geographic Index. This directory is an important resource for health care professionals, the collections of hospital and health care libraries, as well as an invaluable tool for people with a chronic illness and their support network.

Lists for 19 include the Mathematical Association of America, and 1955- also the Society for Industrial and Applied Mathematics.

An evidence-based approach to family practice care,
Mosby's Family Practice Sourcebook: An Evidence-
Based Approach to Care, Fourth Edition is a quick
reference tool for residents and general practitioners. It
covers the latest evidence-based approaches and
controversies in the prevention and treatment of a wide
variety of clinical problems encountered in office
practice. The book is organized by conditions seen or
treated by the typical family practitioner. Coordinated by
the University of Toronto's Department of Family and
Community Medicine, each topic area is developed by a
variety of experts (over 170 in total) to provide the latest

evidence-based practice. "The perfect mix of the evidence with the practical!" Each topic covers the latest evidence, discussing the pros and cons of each issue. The coverage is presented as briefly as possible, providing evidence-based citations from trials, journals and web sites. Now divided by medical subspecialty, with additional sections entitled Family Practice and Approaches To (covering commonly encountered problems in family practice like dizziness, fatigue, pain). Each topic has been updated, with new topics added where necessary.

Provides access to resources for those suffering from chronic diseases

Includes Abstracts section, previously issued separately. Edition for 1983/84- published in 3 vols.: vol. 1, Organization descriptions and index; vol. 2, International organization participation; vol. 3, Global action networks.
