Evolution of global morphology of galaxy clusters as seen in the X-rays was measured, using a variety of morphological measures at different radii, and by accounting for Poisson noise in images. Ellipticities and the multipole-moment power ratios of Buote & Tsai (1995,1996), were used. The power ratios  $PR_2$ ,  $PR_3$ ,  $PR_4$ , and  $PR_{pk}$  served to quantify morphology. Perceptual drawing, in which one renders the physical world as it appears to an observer, is the focus of this new text for the introductory drawing course. With an emphasis on progressive skill development, Drawing from Observation offers a balanced mix of hands-on technique and perceptual theory while making a compelling argument for the long-term value of studying perception-based drawing.

"My boys were going in and I felt like we should stay together as a team. We were just participating in a different battle." -Wallace Wade, head coach of the 1942 Duke football team In the wake of the bombing of Pearl Harbor, the 1942 Rose Bowl was moved from Pasadena to Duke University out of fear of further Japanese attacks on the West Coast. Shortly after this unforgettable game, many of the players and coaches entered the military and went on to serve around the world in famous battlegrounds, from Iwo Jima and Okinawa to Normandy and the Battle of the Bulge, where fate and destiny would bring them back together on faraway battlefields, fighting on the same team. For fans of Unbroken and Boys in the Boat, Fields of Battle sheds light on a little-known slice of American history where WWII and football intersect. Author and sports journalist Brian Curtis captures in gripping detail an intimate account of the teamwork, grit, and determination that took place on both the football and battle fields.

What Pisses Me Off About The Good Ol' USA is a topical review of current affairs and national issues that represents the views of most Americans. This book represents those Americans who do not have the ability to speak out or who are afraid to speak out due to political correctness. This book dives into many issues that have destroyed the fabric of our society that our fore fathers fought so hard to provide for future generations under the US Constitution and the Bill Of Rights. The title reflects what is wrong with our society and country and tells it in a straight-forward manner. Brian Curtis discusses issues affecting our national security, our financial well-being, our moral and ethical compass, our faith, our misguided political behavior, equality, unlawful behavior, and lastly our inability to reduce the size of government that

has turned our country into a nanny state and a co-dependent country. This title reflects years of frustration over the inability of our countrymen to rise up and put a stop to political correctness forever. This book reveals the frustrations, the bold-face lies and deceit, and the weakness of our countrymen to stand up and correct the direction this country is heading. This topical review clearly brings many issues to the forefront that need to be discussed, analyzed, broken down and corrected to save ourselves from the juggernaut of a society that is lost, confused, and misguided. This book is a wake up call to step up to the plate, swing the bat, and run the bases full speed with no interference. Read on my friends and enjoy the ride.

“Brian Curtis tells the stories behind the stories. He brings the meetings, practice sessions, recruiting calls and game day experience to light like never before. Fans who want to know what goes on behind the scenes will find out in this book.” –RON ZOOK, head football coach, the University of Florida In Every Week a Season, acclaimed sports reporter and author Brian Curtis takes readers on an unprecedented whirlwind tour of NCAA Division I football. It’s a world that breeds great drama, a world that millions watch but few understand. It is a multibillion-dollar business. It is an obsession. To get to the beating heart of college football, Curtis embarked on a breakneck itinerary that took him where all red-blooded college football fans long to be: behind the scenes at nine big-time programs. In nine weeks, Curtis visited Colorado State University, the University of Georgia, Boston College, the University of Tennessee, the University of Maryland, the University of Wisconsin, Louisiana State University, Florida State University, and Arizona State University. He braved the rain to watch Wisconsin pull off the upset of the year; he was at Neyland Stadium to see Tennessee manage a thrilling overtime victory; he was in Tallahassee to witness Florida State’s dramatic double overtime battle for the ACC title. As added bonuses, he was with Georgia when the team fought for the SEC Championship, and on the LSU sideline when the boys from Baton Rouge defeated Oklahoma to capture the BCS National Championship. At each stop, he brings us inside the game’s inner sanctum: in team meetings and scouting sessions; on the field and on the sidelines, during scrimmages, practices, and games; at pre-game traditions, meals, and religious services; in the locker room before the game and at half-time. Virtually nothing and no one was off-limits. Along with the players, Curtis got to know the coaches—from the young guns to the legends—spending time with them in their offices and on the road. We see firsthand the challenges of running a major college football program—when called on, coaches must serve as CEOs, PR gurus, lawyers, politicians, and policemen. We also learn of the sacrifices made by wives and children that enable coaches to keep the numerous young athletes under their supervision focused, secure, and happy. Brian Curtis gives a no-holds-barred insider’s account that will rank as one of the most honest and accurate books on big-time sports in America. Short of strapping on a helmet, you’ll never get closer to the game.
