Extrait: Cagiva est un constructeur italien de motocyclette installé à Schiranna, une banlieue de Varese près de Milan. Une Cagiva 900 Gran Canyon La firme est née en 1950 avec Giovanni Castiglioni. Cagiva signifie d'ailleurs Castiglioni Giovanni Varese. À l'origine, Cagiva fabriquait des pièces métalliques. Mais Castiglioni était un mordue de compétition moto. Il décida de créer une équipe avec deux motos conçues par l'usine, pilotées par Gianfranco Bonera et Marco Lucchinelli. Et puis l'envie de mettre sa passion et son métier en commun prit forme. Il racheta l'usine AMF Harley-Davidson de Schiranna et débaucha des ingénieurs de chez Aermacchi et MV Agusta. Jusqu'en 1980, la production portera le logo HD Cagiva. En 1983, un accord est signé avec Ducati pour la fourniture de moteurs. C'est le début d'une longue entente entre les deux marques. Cagiva, dont la production se porte bien, rachètera un grand nombre de

Finally! The world's most incredible motorcycles are given the artful representation they deserve. The motorcycle should have disappeared with the advent of the inexpensive automobile, since Henry Ford's Model T usurped the motorcycle's position as a primary form of utilitarian transportation, but a funny thing happened on the way to extinction - the motorcycle not only survived but thrived. Enough people were enamored of the thrill and beauty of the two-wheeled mechanical beast to ensure it would continue to exist indefinitely. And exist they have! Many of the motorcycles manufactured over the past century truly fit the description of "classic," and many consider these machines works of art. Written by noted motorcycle author Patrick Hahn, *Classic Motorcycles* presents the history of motorcycling as told through the most significant, iconic, classic motorcycles of all time, with both period photography and modern portrait photography. All the best domestic and international makes are represented here, from BMWs, Indians, and Triumphs to Vincents, Ducatis, and Harley-Davidsons - the most classic models. You'll drool over the 1933 Matchless Silver Hawk. Each motorcycle was shot in a studio setting using photographer Tom Loeser's light-painting technique. Period ads and relevant historic photos and

documents are spread throughout the book to supplement the portraits of the bikes, really evoking a sense of time and place. Prepare to be in awe of the undeniably classic motorcycles in this collection. It's the only motorcycle history you'll need.

Many books have been published about Italian motorcycles, but none has focused exclusively on the Italian motorcycle-based chopper, bobber, trike, and quad custom bike scene – until now. Even though customising is not normally associated with Italian brands, there are some fantastic individually-built Italian custom bikes out there, old and new. In recognition of the trend, Ducati entered into a new market segment when it launched its power cruiser Diavel in November 2010, while Moto Guzzi has its Aquila Nero range ... these and many other custom-style bikes have been well-received in the customs scene. This book looks at some of the fascinating custom projects around the world, accompanied by stunning photography of the finished bikes. A great book for Italian bike fans, and fans of the custom bike scene in general.

The Pantah Desmodue brought Ducati into the modern world of motorcycles. They were immediately more reliable than the earlier bevels, and established a blueprint that continues today. The proliferation of models is such that it can be difficult to determine the exact specification of an example. This book provides a guide to all of the individual models, their attributes and pitfalls, and what to look for when purchasing. When new, the Ducati Desmodue twins provided state-of-the-art handling and performance, and they still can.

Un incredibile spaccato dell'Italia dagli anni della contestazione agli anni novanta raccontato attraverso la vita di chi quegli anni li ha vissuti sulle strade di Napoli, su due ruote, con la palina e la pistola. I "Falchi" hanno da sempre evocato un ineffabile confine tra il bene e il male, tra il crimine e la legge, la giustizia e la rappresaglia. In questo libro di Giancarlo Palombi, quei ragazzi con la pistola ci appaiono per quelli che sono: poliziotti con direttive da seguire e ordini a cui obbedire in un lavoro quotidiano che spesso li ha messi al centro di eventi

eclatanti in quel periodo storico cruciale per l'intero paese. Fatti circostanziati in cui i protagonisti della cronaca di allora sono qui relegati a ruolo di comprimari per una lettura prospettica dai risvolti e dalle riflessioni inimmaginabili. Il delitto Siani, il rapimento dell'assessore Cirillo, l'assassinio del commissario Ammaturo, ma anche fatti minori che in quel periodo destarono enorme scalpore costituiscono in queste pagine solo episodi nei quali quei ragazzi hanno spesso rischiato la vita e senza mai esitare. Una narrazione consapevole, un ritmo serrato e coinvolgente per un "libro delle verità" che si richiude solo quando è finito.

This book is the third in the Redline books Enthusiasts Series. It tells the story of one of Italy's premiere post-war marques. With a history steeped in aviation, including the MC72 World Speed Record holder and World War II fighters, Aermacchi began building motorcycles in 1950. At the 1956 Milan Show, the futuristic Chimera, an ohv horizontal single with enclosed bodywork was launched. Later in the decade the Chimera was 'undressed' to create some of Italy's best sports and racing machines, including the Ala Verde and the Ala d'Oro. In 1960 Harley Davidson bought 50% of Aermacchi, and then in 1978 the Varese factory was sold to Cagiva. A number of Aermacchi personalities have contributed to this book, giving it additional authority. Mick WalkerÆs Italian Racing Motorcycles Mick
