This volume of essays is the first to embrace both orthodox and heterodox treatments of scripture in early modern England, and in the process to question, challenge and redefine what historians mean when they use these terms. The collection dispels the myth that a critical engagement with sacred texts was the preserve of radical figures: anti-scripturists, Quakers, Deists and freethinkers. While the work of these people was significant, it formed only part of a far broader debate incorporating figures from across the theological spectrum engaging in a shared discourse.

Pride, and fear of conflict and rejection are the only things that stand between Jenny and Alex. Yet they are powerful enough to stand in the way of a love that seemed almost pre-destined. From the time Jenny and Alex met they shied away from facing their demons. And until they defeated them, they could not find the ultimate happiness that should always have been theirs.

In this book, Michael D. Torre makes Marín-Sola's articles available in English for the first time. The articles are preceded by an introduction on Marín-Sola and followed by a conclusion that traces the reception of his thought within the Catholic theological community. In Torre's afterword, he defends Marín-Sola's position as substantively the same as that of Aquinas.

Milton's *Paradise Lost*, the most eloquent, most intellectually daring, most learned, and most sublime poem in the English language, is a poem about angels. It is told by and of angels; it relies upon their conflicts, communications, and miscommunications. They are the creatures of Milton's narrative, through which he sets the Fall of humankind against a cosmic background. Milton's angels are real beings, and the stories he tells about them rely on his understanding of what they were and how they acted. While he was unique in the sublimity of his imaginative rendering of angels, he was not alone in writing about them. Several early-modern English poets wrote epics that explore the actions of and grounds of knowledge about angels. Angels were intimately linked to theories of representation, and theology could be a creative force. Natural philosophers and theologians too found it interesting or necessary to explore angel doctrine. Angels did not disappear in Reformation theology: though centuries of Catholic traditions were stripped away, Protestants used them in inventive ways, adapting tradition to new doctrines and to shifting perceptions of the world. Angels continued to inhabit all kinds of writing, and shape the experience and understanding of the world. Milton's *Angels: The Early-Modern Imagination* explores the fate of angels in Reformation Britain, and shows how and why *Paradise Lost* is a poem about angels that is both shockingly literal and sublimely imaginative.
