La publicación de este volumen representa un caso relativamente insólito. Un pequeño grupo de jóvenes investigadores de menos de treinta años convence a un grupo mucho más numeroso de la misma edad para celebrar en Salamanca la First Conference of Young Researchers on Anglophone Studies. El resultado es

deslumbrante. No solo demuestran una gran capacidad organizativa, sino que los resultados individuales de las aportaciones científicas son sobresalientes. Este volumen, *Current Trends in Anglophone Studies*, recoge una selección revisada de las propuestas presentadas en el Encuentro y gira en torno a una estructuración tripartita clásica: estudios culturales, lingüísticos y literarios. En ella caben todos aquellos que se mueven en el campo de los estudios anglófonos. Cada uno de estos campos podría haber sido suficiente para celebrar un congreso, pero parece razonable que en este tipo de encuentros tengan cabida todos. De ese modo, este volumen se convierte en un ejemplo de aproximación interdisciplinar a los estudios anglófonos. Desde un punto de vista cuantitativo, los estudios culturales ocupan sin duda un espacio menor. Sin embargo, sobresale la variedad de temas tratados, así como la internacionalización de los autores, dentro de este apartado. Estudiantes españoles e italianos acometen estudios relacionados con la música, la pintura, el cine, la traducción, la marginalidad social o el impacto de las nuevas tecnologías en la producción artística. Si no pareciera demasiado atrevido, podría decirse que estos jóvenes estudiosos irían más allá de lo que un día ya lejano pudieron imaginar Richard Hoggard o Raymond Williams. Los estudios aquí presentados reflejan, sin duda, la evolución que la propia sociedad ha experimentado en estos últimos cincuenta años y exploran la relación entre las prácticas culturales, la vida diaria, y los contextos económicos, políticos e históricos. No es de extrañar que una gran parte de las

contribuciones presentadas en este volumen se centren en el estudio de la lengua, ya que la demanda del inglés se ha incrementado de forma considerable en los últimos años. Sobresalen los análisis puramente filológicos y sobre todo los relacionados con el aprendizaje del inglés como segunda lengua. Por eso, destacan estudios que contemplan rasgos morfológicos, léxicos o sintácticos. Sin embargo, el mayor número de participaciones hace referencia al ya citado aprendizaje del inglés como L2, tanto desde el análisis de materiales, como desde la práctica oral o escrita. Las contribuciones literarias ofrecen una evaluación teórica, formal e interpretativa de distintas tendencias desde perspectivas tanto interdisciplinares como interculturales. Cronológicamente los estudios abarcan textos desde el siglo XVIII hasta nuestros días, con un acento especial en los autores más contemporáneos y en el género narrativo. En general estos estudios se fijan en textos concretos y los analizan desde perspectivas culturales, sociológicas o psicológicas. Pero abundan menos las aproximaciones desde la teoría literaria, desde la técnica narrativa o, como tal vez cabría esperar al tratarse de estudiantes tan jóvenes, desde la aplicación de las nuevas tecnologías. Por el contrario, se repiten temas como los traumas heredados de la Guerra de Vietnam, las cicatrices del 11 de septiembre o los problemas de género. En definitiva, se trata de una selección de artículos claramente prometedora, que transmite la seguridad de que el futuro de la Filología Inglesa está en buenas manos y podrá experimentar una positiva evolución en los próximos años. Por todo ello,

hay que felicitar a todos los participantes individuales y, sobre todo, a los organizadores del evento, y editores de este volumen, que han demostrado una enorme capacidad de trabajo y de saber hacer.

Cambridge English Empower is more than just a course book - it's a complete solution for effective learning and teaching! This new general English course for adult and young adult learners combines course content from Cambridge University Press with validated assessment from the experts at Cambridge English Language Assessment. Empower's unique mix of engaging classroom materials and reliable assessment, with personalised online practice, enables learners to make consistent and measurable progress.

This volume explores how the traditional academic disciplines of linguistics, translation, literature and cultural studies can contribute to, or be integrated into, the teaching of a foreign language by means of innovative methodologies, techniques and instruments. The book begins with a selection of essays on applied linguistics that share some significant findings in the context of second or foreign language acquisition. It then examines the ways in which linguistics, translation theory, literature and cultural studies are brought into the foreign language classroom not just as objects of study but also as vehicles for language-learning. By presenting studies on four main foreign languages, English, Spanish, French and German, the collection offers, to the foreign language profession, an opportunity for

the sharing and comparison of strategies across languages at both the secondary and higher education level. The text is a valuable resource for language teachers with a more philologically-oriented background who would like to learn how to apply their research knowledge and experience to the design and implementation of new methodological approaches.

"The growth in English language teaching worldwide
and the related increase in teacher training
programmes of all kinds highlight the need for
greater accountability in the assessment of teachers.

The need for formal summative assessment has taken on greater importance in training programmes and requires procedures which do not always sit easily with the development process, while transparency of assessment procedures is also increasingly demanded by the candidates themselves. This edited volume discusses key issues in assessing language teachers' professional skills and knowledge and provides case study illustrations of how teacher knowledge and teaching skills are assessed at pre-service and in-service levels within the framework of the Cambridge English Teaching Qualifications. The volume provides: - discussion of ways in which the changing nature of English language teaching has impacted on teacher education and assessment - examples of specific assessment procedures for both teaching knowledge and practical classroom skills - accounts of the ways in which the Cambridge English Teaching Qualifications have been integrated into and adapted for local contexts. This is the first volume of its kind wholly dedicated to language teacher assessment and as such will be of interest to language teachers and teacher educators as well as to researchers and postgraduate students"--

A three-level (B1+ to C1) integrated skills course for higher education students at university or on foundation courses. The C1 Advanced Student's Book consolidates academic study skills. Students'

analytical skills are challenged with an increased range of authentic written and spoken academic texts. From essay organisation, taking notes, group discussion to writing references and paraphrasing texts, the students are presented with a wealth of practice opportunities to enhance all academic skills at this level. The course further develops independent learning skills and critical thinking through 'Study tips' sections and allows for personalisation of learning in the 'Focus on your subject' sections. Lecture and seminar skills units provide authentic practice in listening to lectures and participating in seminars.

This book for intermediate and above students includes authentic texts from textbooks, journals, reference works and study guides.

This book explores the potential for task-based language learning and teaching (TBLT) within a particular context, specifically Hungary, by investigating beliefs among Hungarian university students about English (and other foreign) language teaching. It also examines the nature of these learners' task-based spoken interaction and explores their socioculturally determined choices in that regard. It finds that, despite much exposure to traditional classroom practices, the learners are generally open to TBLT, make various (sometimes surprising) contributions in performing speaking tasks, and display a tendency toward collaboration in

spoken interaction over communication breakdowns.

The book offers both universal and culture-specific explanations for this tendency. The findings detailed here have implications for English (and other foreign/second) language teaching which may be of interest to researchers, practitioners, and teacher educators, not only in Hungary, Central Europe, and similar educational contexts, but anywhere that teachers and learners are struggling to improve foreign and second language development.

A three-level (B1+ to C1) integrated skills course for higher education students at university or on foundation courses. Designed specifically for students preparing for university, this integrated skills course develops the language and real academic skills essential for successful university studies across disciplines. With authentic lectures and seminars, and with language informed by the Cambridge Academic Corpus and Academic Word Lists, the course guarantees that the English and the study skills students learn are up to date and relevant to them. The Teacher's Book provides extensive teacher support including teaching notes and additional worksheets for the classroom. 'EAP Now ' covers all four skills in an academic context to equip students for success in university/higher education taking them from Intermediate to Advanced level. The complete course provides 240 hours of comprehensive

content including essay writing guidance and practice, listening activities and simulating lectures. This book analyses the development of academic literacy in low-proficiency users of English in the Middle East. It highlights the challenges faced by students entering undergraduate education in the region, and the strategies used by teachers to overcome them. The author focuses on a large-scale undergraduate teacher programme run in Oman by the University of Leeds, providing clear pointers both for future research and effective practice. He also explores the implications of his findings for countries beyond the Gulf Cooperation Council, demonstrating how international participation in UK HE could be much wider. This book will appeal to students and scholars with an interest in academic literacies and English for Academic Purposes.
