The Essential Mathematics for Cambridge Secondary 1 series has been created for the international student. Written by an expert author team with an experienced examiner, it provides complete coverage of the latest Cambridge syllabus. The Student Book contains comprehensive coverage of the curriculum framework content and provides engaging exercises that promote problem solving and investigative strategies. Inclusion of summary and review sections after each topic help students retain learning, while Checkpoint-style questions assist their preparation for assessment. Learning Outcomes are provided at the start of each chapter to clearly map topics in the text to the syllabus. Numerous exercises are included, with clear progression, and problem-solving and real life applications embedded throughout. Helpful hints throughout the text guide students and remind them of the key pieces of information required.

Build a strong foundation for success in the Cambridge Checkpoint tests, and ensure your students get the challenge and extension they need to achieve their best in the Cambridge IGCSE. This course matches the new framework and will rigorously prepare students for the strongest achievement at Checkpoint level and beyond.

The Primary Checkpoints series is designed to provide ready-made stimulating activities. Familiarises students with a variety of assessment formats, such as, NAPLAN* Thematic units of work covering areas of the curriculum such as reading; language conventions and numeracy to provide students with solid and relevant practice towards assessment tasks at the appropriate Primary level. Each unit of work contains: • a text type, based on a theme that is relevant to the age and ability level of the student • reading comprehension • language convention • numeracy including mental arithmetic questions and problem solving Each of the units also includes motivation or encouragement pages in which students complete tasks related to other curriculum areas such as: • science • geography • history • health • nutrition and fitness • social issues Four Checkpoint Units to be completed in a 'test-like' or as a self-assessment activity. A removable answers insert.

Written for use with the Cambridge Primary Mathematics Curriculum Framework, and endorsed by Cambridge International Examinations, the Cambridge Primary Mathematics series is informed by the most up-to-date teaching philosophies from around the world. It aims to support teachers to help all learners become confident and successful mathematicians through a fun and engaging scheme. Through an investigatory approach children learn the skills of problem solving in the context of other mathematical strands in the course. The course will encourage learners to be independent thinkers with the confidence to tackle a wide range of problems who understand the value and relevance of their mathematics. Classroom discussion is encouraged to help learners become good mathematical communicators, to justify answers and to make connections between ideas. This series is part of Cambridge Maths (www.cie.org.uk/cambridgeprimarymaths), a project between Cambridge University Press and Cambridge International Examinations and is appropriate for learners sitting the Primary Checkpoint test.
