Reading, a complex and multi-faceted skill, is essential for life and academic success. While its mysteries still baffle first-language research, the nature of reading in a foreign language presents an even greater puzzle. However, given reading's importance for EFL students who study their specializations in English, and whose future employment may depend on their competence in it, researchers must continue to investigate foreign language reading and devise ways of improving students' capacity for it. Hence, this book, with its thorough coverage of up-to-date theory, practice and research, will be of great value in today's educational context. As they strive to understand reading and help EFL students to acquire it, researchers and language teachers will find much of value here.

Four Corners is an integrated four-skills course for adults and young adults who want to use English to communicate effectively in daily life. Easy and enjoyable to teach. It combines proven communicative methodology with a practical outcomes-based approach. Four Corners features a clear presentation of vocabulary, a thorough grammar syllabus, and an everyday functional language lesson in every unit together with systematic practice of all four skills. Four Corners places special emphasis on helping students become confident and competent speakers of English. Speaking activities at the end of every lesson, tied to clearly labeled measurable outcomes, enable students to see the results of their learning and help them see their progress. This book unravels the story of English, the language of "the enemies", in post-revolutionary Iran. Situating English within the nation's broader social, political, economic and historical contexts, the book explores the politics, causes, and agents of the two diverging trends of indigenization/localization and internationalization/Anglo-Americanization in English education in Iran over the past three decades.
