This book is a reflection of my imagination. I have always wonder what trees were thinking. Creating the idea that trees could talk and be heard by us is very fascinating. Even though we can not hear them truthfully, does not mean they are not saying something. I love the idea of thinking that everything God created has a voice of its own. Trees are very much a live as we are. Trees are here for the very purpose God created them for. Creating the idea that trees have a voice and want to be heard is exciting to me. I hope you have enjoyed my joyful interpretation of the wonderful voices of trees.

First published as only parts of her life, this book brings together the full life story of the woman known as Annie O'Sullivan. Horribly abused at the hand of her father, it is a collection of essays that graphically recount memories of her life as a confused child and young adult as she careened through life without compass, to ultimately, and against all odds, prosper. Culminating in the event that brought a degree of closure to her torture, O'Sullivan brings the reader on an intimate life journey through the eyes of this child's misunderstanding, will to persevere and desire to seek goodness despite her circumstances. Terrifying, infuriating and uplifting, this book touches not only survivors; but parents, childcare workers and teachers; reminding us of the true vulnerability of children and our collective responsibility to protect them.
