Described as "Who owns whom, the family tree of every major corporation in America, " the directory is indexed by name (parent and subsidiary), geographic location, Standard Industrial Classification (SIC) Code, and corporate responsibility.

Examines political, legal, and administration developments in the transitional post-Civil War era. Bibliogs

Published in 2001: Abbreviations, nicknames, jargon, and other short forms save time, space, and effort - provided they are understood. Thousands of new and potentially confusing terms become part of the international vocabulary each year, while our communications are relayed to one another with increasing speed. PDAs link to PCs. The Net has grown into data central, shopping mall, and grocery store all rolled into one. E-mail is faster than snail mail, cell phones are faster yet - and it is all done 24/7. Longtime and widespread use of certain abbreviations, such as R.S.V.P., has made them better understood standing alone than spelled out. Certainly we are more comfortable saying DNA than deoxyribonucleic acid - but how many people today really remember what the initials stand for? The Abbreviations Dictionary, Tenth Edition gives you this and other information from Airlines of the World to the Zodiacal Signs.

Who's Who in Canadian Business, now in its 21st year, is a comprehensive and independent guide to Canada's business elite. Listing over 5,000 corporate and entrepreneurial leaders, each with a detailed biography and contact information, this directory is an excellent resource for anyone needing information on Canada's business world. Biographies include such information as current employment, address, education, career history, publications, favourite charities, and honours. Those listed are included because of the positions they hold in Canadian business and industry, or because of the contributions they have made to business in Canada. The directory is updated annually; new and updated biographies are marked for easy reference. All biographies are indexed by company name. Included in this edition is the PROFIT 100 / Next 100 listing of Canada's fastest-growing companies, as well as a list of professional associations, each with full address, contact names, and a brief description.

Limitation of liability for maritime claims is a concept of respectable antiquity which is now deeply entrenched in the maritime industry. Under this concept, the shipowner is entitled to limit his liability for maritime claims up to a maximum sum regardless of the actual amount of the claims. The concept of limitation of liability has been adopted by many conventions ranging from those relating to the carriage of goods by sea, carriage of passengers and their luggage by sea, liability and compensation for pollution damage, to liability for the removal of wrecks. Each of these conventions has its own approach to limitation of liability. However, these particular liability regimes share the international arena with global limitation conventions such as the 1976 Convention on Limitation of Liability for Maritime Claims and the 1996 Protocol thereto. This book approaches limitation of liability from an international perspective looking at a number of key conventions including the global limitation conventions, the conventions relating to the carriage of passengers and their luggage by sea (1974 Athens Convention relating to the Carriage of Passengers and Their Luggage by Sea and the 2002 Protocol thereto), conventions relating to liability and compensation for pollution damage (1969 International Convention on Civil Liability for Oil Pollution Damage and the 1992 Protocol thereto, the 1996 International Convention on Liability and Compensation for Damage in Connection with the Carriage of Hazardous and Noxious Substances by Sea and the 2010 Protocol thereto, and the 2001 International Convention on Civil Liability for Bunker Oil Pollution Damage), as well as the 2007 Nairobi International Convention on the Removal of Wrecks. Each chapter of this book sets out to analyze provisions in the conventions which have proved to be controversial and subject to debate by courts and authors, as well as the relationship between the limitation provisions in claim specific liability conventions and in the global limitation conventions. Particular attention is also given to the persons entitled to limit liability, ships in respect of which liability can be limited, claims subject to limitation, claims excepted from limitation, basis of liability (where applicable), loss of the right to limit, and the limits of liability. Limitation of Liability in International Maritime Conventions is of interest to academics and practicing lawyers who wish to understand the intricacies of the law of limitation.

Over 1,400 entries with sections on information resources, consultants and information brokers, on-line research services, library automation software, computer accessible library catalogues, community networks (freenets) and information industry services.

The latest edition of this standard international reference work provides detailed information for over 32,000 organizations active in over 225 countries. It covers everything from intergovernmental and national bodies to conferences and religious orders and fraternities. Volume 3: Global Action Networks is an overview of the range and network of activities of the international organizations themselves -- organized alphabetically by subject and by region. Similar to a "yellow pages", it groups international and regional bodies under 4,300 categories of common ideas, aims, and activities.

Each year, more than a million Canadians, affectionately dubbed "Snowbirds," migrate to southern climes to enjoy warm weather and sandy beaches. The strong Canadian dollar is making the trip more affordable and attractive than ever. But post-9/11, Canadians face tighter security, higher health costs, and higher fuel costs when traveling to the US. Canadians must budget accordingly. Especially for first-timers, how can they properly plan their trip to ensure a worry-free time away from home? Among the topics this book includes are: the Snowbird lifestyle; financial planning; what documents you need to enter the US; what types of insurance and coverage are recommended; ensuring you have an up-to-date will; how US tax law applies to Canadians if money is earned or property sold; snowbirding in Mexico and Costa Rica; plus FAQs, checklists, and sources of further information.

Who's Who in Canadian Business 2001 University of Toronto Press

In recent years, it has become apparent that South-South economic relations are increasing, and will continue to do so. There will be more trade agreements and more trade, more economic alliances and more political alliances with economic goals, more investment flows and an increasing acknowledgement that the Global South has more to offer than it has in the past. These new economics relations have great potential, both for harm and for good. In the absence of directed policies and intentional actors, imbalances of power and growing gaps in development will persist. With the right policies in place, however, these relationships could forge a new global order with greater economic and political equality. Covering a wide range of topics, including regional trade integration in Africa, the environmental impact of increased South-South trade, the changing patterns of South-South investment, and the effect of conflict on trade in South Asia, this ground-breaking volume presents an analysis of South-South economic relations, and how they might impact and be impacted by the rest of the world.

The "European Yearbook promotes the scientific study of nineteen European supranational organisations and the Organisation for Economic Co-operation and Development (OECD). Each volume contains a detailed survey of the history, structure and yearly activities of each organisation and an up-to-date chart providing a clear overview of the member states of each organisation. Each volume contains a comprehensive bibliography covering the year's relevant publications.
