Death rears its ugly head everywhere and at all times, in all sorts of situations and under many kinds of circumstances and for a myriad of reasons, affecting people in surprising ways, but eventually coming for everyone no matter their station in life. But why do we find their demises encoded in the *Five Books of Moses*? What is it about a sacred text of 304,805 Hebrew letters that enables it to hold the whole history of humankind and encoded within it the specific circumstances under which particular people have died or are going to die?

Connected to the types of events listed in this book are found the names of those who died in instances of those particular events, except in part 6 where only the historical political facts are found encoded, since the deaths of those named were not searched for in the Torah, but might be in a future book. The Jewish people gave the world the Eternal Book of Books, the original text of which, the Torah, is used here to explore some of what might be hidden in it. The Bible Codes Plus computer program used also contains the original text of the larger Tanach, Books outside the Five Books of Moses, which also can be searched for hidden, encoded names and terms. The Tanach is made of the Torah, the Navi'im (Prophets), and Chetuvim (Writings) all making up the Hebrew Bible, what Christians call the Old Testament.

Issue four closes our exciting first year with the very talented debut of Arthur Klepchukov. His intelligent "A Damn Fine Town" is followed by film director and writer John Shepphird and a prequel to his award-nominated "Shill" trilogy, a bit of a teaser for those of you who may not have discovered Jane Innes...yet. Brian Silverman is up next with a story set on his fictional Caribbean island of St. Pierre featuring his characters, Leonard and Tubby. The featured story this issue is of the most excellent Inspector Kubu by the writing team of Michael Stanley. If "Shoot to Kill" is your first Kubu tale, believe me, he's only better when he's in a novel. Our featured historical story is by the very prolific, very good Frederick C. Davis, who became one of Harry Whittington's "St. Pete Boys," the group of writers like Gil Brewer, Day Keene, and occasionally John D. MacDonald, that met on Sunday afternoons at Harry's house. Davis's story is the first Secrets, Inc. installment, "Blood on the Block." We close out the issue with an offbeat heist story by Robb T. White called "Inside Man," and a short piece by the always terrific Lissa Marie Redmond, who first appeared in issue two, called "We Don't Talk About Lester Anymore." There's a good reason for that.

This set includes the first 3 books in the Raina Sun Cozy Mystery Series. For readers who like cozy mysteries, quirky characters, a dash of humor, and Chinese-American culture. Raining Men and Corpses Graduate student Raina Sun is trying to keep her head above water as the bills roll in when her dashing college adviser cons her out of several months of rent. But her quest to get her money back sets into a motion a streak of bad luck. First, she finds the dead body of an ex-lover and becomes the prime suspect in his murder. The only man she ever loved reappears as the lead detective on the case and wants to reignite their passion (or at least he's sending out smoke signals). Her life careens out of control as her grandma moves into Raina's postage-stamp-sized apartment, dragging a red suitcase and trouble. Raina summons her sleuthing skills to extract herself before things get dicey. There is no place for an amateur when it comes to murder. Gusto Lovers and Cadavers Graduate student Raina Sun thought she knew what she was getting herself into when she volunteered to take the new foreign exchange student shopping on the last weekend before Christmas. But between a riot for the last hot toy of the season and an abandoned baby, the holiday is a season for mayhem, and sometimes it doesn't pay to be a Good Samaritan. She wants to reunite the infant with his family, but calling the mysterious phone number in the diaper bag leads to more questions than answers. A strange man claims to be the

child's father, and his alleged mother turns up dead. Raina summons her sleuthing skills to protect this baby and soon discovers everyone has a few skeletons in their closets. With her pimp-cane-toting grandma, she faces an ex-boyfriend bringing sexy back as well as a murderer determined to hide the truth. Breezy Friends and Bodies Raina Sun thought cleaning her grandma's house in San Francisco to prepare for Chinese New Year would be a breeze. Instead, she finds her deceased grandfather's secret journal and ends up French kissing the train tracks in a mugging incident. After putting the move on her grandma, her grandfather's BFF took an elevator ride straight to the Heavenly Gates. And the second time Raina ends up flat on her back without a man in sight, she suspects the Year of the Monkey would leave her skulking in cold damp places where family secrets are better off dying with the dead. Ever since the accident, Amy has had terrible nightmares in which Rand's son and daughter return to exact revenge on their father and Amy herself (the wicked step-

Then Gabe becomes aware that something in the woods is calling to her, something that's stealing her life... Gabe will face his deadliest foe yet when the woman he loves falls prey to a nameless creature who wants her very soul. Celebrities and movie stars, like everyone else, die from a variety of causes, including diseases (Vol.1 of this book) and cancers (Vol.2 of this book). When we ask if such causes of death are found encoded in the Torah along with the encoded names of who died from them, we find them all close together in one Torah Matrix (from Gen. 1:1 to 1 Samuel 10:17). For those uninitiated into the Bible Code mystery this might sound outlandish and impossible, but viewing the many Torah Matrices in this book, labeled clearly in black and white as secretly encoded facts staring us in the face might give pause to even the biggest skeptic. Volume 3 of this book shows the Torah-Bible Code Matrices of celebrities and movie stars' deaths by accidents, murders, overdoses, and suicides – their names found encoded in the larger Torah, some with the year and location of their death; as another e-book through Author House, in mid-2014. Fatal accidents found encoded here range from skiing, car crash, drowning, plane crash, and fire. Their murders are also discovered hidden in the secretly encoded word of Yahweh, along with their troubling overdoses of various drugs, and their tragic suicides. An attempt is made to put the Bible Code mystery in the context of 'meaning,' in the author's Conclusion. Bible Code application and method are explained in the Preface, Introduction, and Addendum 1. In memoriam, two original poems by the author are shown in the Epilogue; his poems have appeared in literary journals in 5 countries over forty years. Even though there are only about 50 or fewer personalities identified by name in each of these three volumes, and shown encoded with how and where they died, each Volume could be expanded to hold many thousands of names and pages, one name per page of Matrix revealing those Torah-held secrets hidden for about 3400 years, and revealed here to the world for the first time in recorded history.

Starting in 1984, the British Transformers comic wasn't just a successful toy advert, it taught a generation of British schoolboys how to read through its exciting action packed pages. With sales that vied with 2000AD writers Simon Furman and Bob Budiansky created a generation of fan boys that have never looked back. Stuart Webb was one such reader, and in 2012 he began a journey looking through every single issue of the series, commenting on its highs and lows. He became the first person to look at every backup strip, every comedic cartoon and each editorial and how they worked together to create the most thorough exploration of a publishing phenomenon ever undertaken. It's also personal, full of humour and silliness and even the occasionally thoughtful moment. The final result is an essential read, for

Transformers fans, and those interested in the history of Marvel comics in the UK and the impact this comic had on an entire generation.

There are times when people just can't identify with the attributes of their Sun or Moon sign. In fact, they may feel that they are an antithesis of their zodiac sign. You may also have observed it. Your Leo friend may not seek attention, may be because he or she has a Capricorn ascendant. Your Sagittarius friend is very possessive, may be because he or she has a Scorpio Ascendant. It is easy to understand why some people do not correspond to their Sun or Moon signs once you know about what is the rising sign or Ascendant in a horoscope. Ascendant is the degree of the zodiac sign that was highest on the Easter horizon at the time and

place of birth. When seen from Earth, the sky seems to move, so the entire zodiac can be observed in a span of 24 hours day which means the rising sign changes on the Eastern horizon every 2 hours because there are 12 zodiac signs. People tend to associate their physical, emotional and spiritual attributes more with rising sign at times.
