Care of Older Adults is a comprehensive introduction to aged care for the nursing profession in clinical practice. By taking a strengths-based approach, the book encourages practice with a focus on individuals' potential and capacities rather than their limits. Theories of ageing are linked with the older individual's strengths to ensure the text is well framed from an evidence base, as well as a clinical orientation. The book presents the topic from a healthy ageing perspective through to chronic illness, frailty and end of life. Each chapter includes discussion and reflective questions, and concludes with a list of key points summarising the central content. Case studies combine evidence-based knowledge with practical examples in a number of aged-care settings. Written by internationally renowned authors with extensive practical experience in aged care, Care of Older Adults provides undergraduate students in Australia and New Zealand with local content with a nursing focus.

This textbook provides a one-stop reference resource and guide for nurses interested in advancing their careers. It addresses self-assessment, goal setting and self-discipline, as well as academic paths and non-academic career paths, and includes two chapters on strategic path development, covering internal motivation, risk taking, work—life balance, work environment, networking, professional membership and mentorship. Lastly, the book discusses professional growth topics such as civility, burnout, professional development and “keeping informed,” and explores specific professionalism topics like professional behavior, ethics, social media and executive presence. Intended for nurses at any level, this textbook examines topics relevant to today's nursing professionals and offers guidance on building a successful nursing career. It also helps student nurses create a path for their career and professional growth, both during their training program and beyond.
