

Cash Management In Sap S 4hana

Take an in-depth look at how basic financial accounting processes work in SAP S/4HANA in this practical guide. Learn about the SAP Fiori launchpad and how to find your way around the many apps available for finance with the help of screenshots and examples. Understand the finance organizational structure and master data and discover some of the SAP Best Practices for finance such as accounts payable and receivable, credit management, asset accounting, cash and bank management, and closings. Explore different ways to enter and upload G/L journal entries and what is meant by the Universal Journal. Run through the bank postings and different options for the bank statements. Go deeper into the structure of asset accounting, including the chart of depreciation, depreciation areas, asset classes, and depreciation methods. Learn about multidimensional reporting, KPIs, and the various analytical apps supplied with SAP S/4HANA.

- Financial accounting processes in SAP S/4HANA - Finance organizational structure, key financial master data - Daily transactions using SAP Fiori apps - SAP Fiori apps for displaying and reporting financial data

This volume provides a foundation in digital accounting by covering such fundamental topics as accounting software, XBRL (eXtensible Business Reporting Language), and EDI. The effects of the Internet and ERP on accounting are classified and presented for each accounting cycle, along with a comprehensive discussion of online controls.

This SAP Press Essentials guide teaches you how to optimize your use of SAP for liquidity calculation and planning. SAP Liquidity Planner consists of SAP Actual Calculation (liquidity calculation) and SAP BW/SEM. The first part of the book describes how you can successfully implement actual calculation in SAP R/3. Each relevant area of SAP Actual Calculation, from the technical settings (via customization) through to the liquidity analysis processes is described in great detail. The subsequent sections provide you with a fundamental introduction to reporting and planning using SAP BW/SEM. The last chapter concludes with details of an exclusive workaround that enables you to perform liquidity planning and reporting without SAP BW/SEM.

SAP's latest product, SAP S/4HANA, is revolutionizing how we approach finance by re-architecting data persistency and by merging accounts and cost elements. This book offers a fundamental introduction to SAP S/4HANA Finance, explaining how Accounting and Controlling have merged, and how they integrate with planning and group reporting. Learn about the new con-figuration options, updated data models, and what this means for reporting in the future. Obtain a first-hand look at the new user interfaces in SAP Fiori. Review the new universal journal, asset accounting, material ledger, and margin analysis functionality. Examine the steps required to migrate to SAP S/4HANA Finance and walk through the deployment options. Explore the new possibilities for reporting and analysis. Learn how to set up roles and business catalogs to provide users with access to the Fiori applications, and gain an understanding of the various types of applications. By using practical examples, tips, and screenshots, this book helps readers to: - Understand the basics of SAP S/4HANA Finance - Explore the new architecture, updated configuration options, and SAP Fiori - Examine SAP S/4HANA Finance migration steps - Understand alternative deployment options, such as a central finance deployment

Managing your cash is critical--so master cash management in SAP S/4HANA! Follow step-by-step instructions to run bank account management, cash positioning and operations, and liquidity management, and then tailor each process to your system. Walk through the One Exposure from Operations data model, including integration scenarios, transactions, and configuration. Discover extensibility options for bank account management and key SAP Fiori apps. Get equipped for cash management! In this book, you'll learn about: a. Bank Account Management Manage your accounts in SAP S/4HANA. Maintain your banks, house banks, and bank account master data with key SAP Fiori apps. Use new features such as the Monitor Bank Fees App and the treasury executive dashboard. Configure settings to suit your requirements. b. Cash Positioning and Operations Analyze your cash position, transfer and concentrate cash, and integrate bank statements for cash flow reconciliation. Get insight into new features and SAP Fiori apps for bank statements, reporting, configuration, and more. c. Liquidity Management Forecast liquidity and analyze actual cash flow with SAP S/4HANA; then develop liquidity plans with SAP Analytics Cloud. Tailor your settings for each process based on your needs. Highlights include: 1) Master data 2) Configuration 3) Bank account management 4) Cash positioning 5) Cash operations 6) Liquidity management 7) One Exposure from Operations hub 8) Extensibility 9) Migration

Finance, front and center! Get moving on your SAP S/4HANA Finance system conversion project. Follow the implementation path through preparation and post-migration testing, with special attention to data migration and functional configuration. From the general ledger to asset accounting and beyond, you'll align your new system with existing finance requirements and go live. Get the nitty-gritty details and pro tips with this go-to-guide and make your brownfield project a success! a. Migration It's time to migrate your data from SAP ERP Financials. Learn what to do and what to watch out for at each step of the SAP S/4HANA Finance migration, from installation through testing. b. Configuration Customize your new SAP S/4HANA Finance system with key configuration settings for general ledger accounting, the accrual engine, controlling, asset accounting, credit management, and more. c. Project Planning Set realistic project timelines and manage critical project documentation! Consult and adapt a sample project plan for your on-premise implementation project. 1) Migration preparation 2) Installation 3) Data checks 4) General ledger 5) Asset accounting 6) House bank accounts 7) Controlling 8) Credit management 9) SAP Fiori applications and roles 10) Key finance innovations 11) Central Finance 12) Implementation checklist

This book provides Finance professionals, Treasurers, and CFOs with a roadmap for making their SAP processes compliant with SOX requirements. Combining comprehensive coverage of the major applications (Electronic Banking, Positive Pay, Cash & Liquidity Management, In-House Cash) with discussion of relevant control structures, processes, and compliance matrices for each, this book lends guidance to those tasked with integrating SOX compliance into established or proposed SAP implementations. The authors focus first on processes (e.g., intercompany processing), then expand to specific applications (e.g., In-House Cash), followed by a summary of the associated controls (e.g., domestic vs. foreign processing). Functional-level finance professionals involved in the daily management of a Treasury implementation, particularly, will find many proven processes with which to build or enhance effective compliance strategies.

"Aswath Damodaran is simply the best valuation teacher around. If you are interested in the theory or practice of valuation, you should have Damodaran on Valuation on your bookshelf. You can bet that I do." -- Michael J. Mauboussin, Chief Investment Strategist, Legg Mason Capital Management and author of More Than You Know: Finding Financial Wisdom in Unconventional Places In order to be a successful CEO, corporate strategist, or analyst, understanding the valuation process is a necessity. The second edition of Damodaran on Valuation stands out as the most reliable book for answering many of today's critical valuation questions. Completely revised and updated, this edition is the ideal book on valuation for CEOs and corporate strategists. You'll gain an understanding of the vitality of today's valuation models and develop the acumen needed for the most complex and subtle valuation scenarios you will face.

Interested in learning more about the changes in SAP S/4HANA Finance? Learn what is meant by the merge of financial accounting and controlling in SAP S/4HANA. Discover how the accounting structure and tables have changed and what the implications are. Walk through each area of financial accounting and identify what has changed, along with relevant configurations. Take a look at how new general

ledger transactions work in SAP S/4HANA and find out what the universal journal is. Explore important changes to asset accounting and identify updates to the underlying table structure to allow for real-time posting between asset accounting and the general ledger. Learn more about the preparation and migration tools available.

- Key changes to financial accounting and structure in SAP S/4HANA Finance
- New general ledger structure in the universal journal
- Master data changes in G/L accounts and the business partner
- SAP S/4HANA preparation and migration tools

This book offers a comprehensive introduction to SAP S/4HANA Sales and Distribution (SD). You will learn the basic fundamentals of SAP SD, with examples based on a case-study approach. Using a fictional company scenario, you will learn the fundamentals of the order-to-cash process and key flow, from sales order delivery to billing document. Explore the foundational document—the sales order. Obtain detailed information on master data and how it is used in SD. Dive into master data objects, business partners, and material masters. Review how master data is connected to sales orders and pricing. Understand sales order processing, including item categories, availability checking, dates, shipping, texts, and more. Walk through delivery processing and billing. Familiarize yourself with two of the major SD pre-sales documents – contracts and quotations. Delve into the post-sales processes, including returns, service, and debit and credit memos. Look at transactional list reports and analytical reports. For readers who are new to SAP SD in S/4HANA, the detailed case study, practical examples, tips and screenshots quickly bring readers up to speed on the fundamentals. - Foundations of SAP SD in S/4HANA - Sales orders and document types - Master data objects, business partners and material masters - Examples and screenshots based on a case-study approach

This guide expertly introduces business users, SAP support staff, and SAP consultants to Bank Communication Management (BCM) in SAP S/4HANA and SAP ECC. Dive deep into BCM functionality and walk through end-to-end processes using BCM. Take a closer look at executing payment runs, batching payments, and approving and rejecting payments. Explore the technical aspects of using BCM, including alert implementation, automated payment reversals in the case of a rejected payment or batch, and the use of the BCM Connector to import and process a payment file generated from an external system. Understand how BCM is integrated with other payment-related modules in SAP. Look at configuration requirements and explore the available monitoring tools. Troubleshoot common implementation challenges and learn how to resolve them. Obtain an overview of SAP Multi-Bank Connectivity and how to use it to connect with banking partners, and learn about Advanced Payment Management. This book uses practical examples, tips, and screenshots to guide readers through BCM functionality and processes.

- Explore BCM functionality in SAP S/4HANA and ECC, including process flows, reporting, and configuration
- Dive into the technical aspects of using BCM
- Learn about SAP Advanced Payment Management and SAP Multi-Bank Connectivity
- Troubleshoot common implementation challenges

Explore SAP Fixed Asset Accounting module functionality in SAP S/4HANA. Review the complete lifecycle of an asset — from acquisition and construction to retirement. Identify the differences between “classic” Asset Accounting and the new SAP S/4HANA Asset Accounting. Review organizational setup requirements and learn how to classify assets according to fiscal and company requirements. Clarify how asset-related transactions are posted in the general ledger. Delve into asset master data, including the organizational structure, integration with the general ledger, and the creation and maintenance of asset master data. Identify how to disinvest assets and adjust their values. Find out what options are available for asset depreciation. Learn how to calculate depreciation, how to post in the ledgers according to accounting principles, and how G/L accounts are determined for the postings. Dive into asset reporting functionality, including key tools, as well as depreciation simulation to predict future depreciation costs. Look at migration requirements and considerations. By using practical examples, tips, and SAP Fiori screenshots, this book: - Describes SAP Fixed Asset Accounting functionality in SAP S/4HANA with SAP Fiori examples - Explores the complete lifecycle of an asset in SAP - Identifies differences between classic Fixed Asset Accounting and the new SAP S/4HANA Fixed Asset Accounting - Examines how Fixed Asset Accounting is integrated with other SAP modules

This practical manual guides you step by step through the flows of actual values into SAP Profitability Analysis (CO-PA) and the forms these flows take in S/4HANA, including the account-based CO-PA required there. The book presents the technical prerequisites and changes that SAP S/4HANA brings compared to the previous product, ERP, and discusses whether there is any truth in rumors such as “The Controlling module will no longer exist.” Using a simple, continuous example, the authors, who have many years of experience with SAP Controlling, illustrate how an SAP value flow progresses through the individual stages of the process: from a sales order, through production, right up to the issue of goods and invoicing. The book shows where you will find these values at each respective point in time in Financials (FI) and Controlling (CO). The authors explain both the business and the SAP technical view in detail and highlight the benefits of the innovative approach under S/4HANA, now known under the new name of “SAP Margin Analysis.” Furthermore, the book delivers a plea for CO-PA to be used as a tool for sales management — a tool that allows the widest possible variety of business analyses. - Value flows based on the logistical sales and production process - Comparison of costing-based and account-based CO-PA - Presentation of the changes in the value flow compared to SAP ERP - Continuous numerical example right up to closing activities

Dive into Cash Management and Liquidity Planning in SAP. Explore each area of S/4HANA Cash Management, including business functionality and configuration. Understand the many changes users need to be aware of in moving from SAP ERP Central Component (ECC) to S/4 HANA Cash Management. Find out what has changed, and what has stayed the same. Explore Bank Communication Management and Multi-Bank Connectivity. Identify the initial steps required for basic management of banks, house banks, and house bank accounts in S/4 HANA. Take a detailed look at cash operations. Learn more about One Exposure, the data storage structure for the data that feeds cash management reports. Get an overview of release 1809 and identify some of the new functionality delivered with SAP Cash Management powered by SAP HANA in release 1809. - Principle areas of Cash Management powered by S/4HANA - Comparison between ECC and SAP S/4HANA functionality, including an overview of release 1809 - Deployment options and implementation steps - SAP Cash Management implementation tips and tricks

With their latest product, SAP S/4HANA, SAP is revolutionizing how we approach finance by re-architecting data persistency and merging accounts and cost elements. This book offers a fundamental introduction to SAP S/4HANA Finance. Dive into the three pillars of innovation including SAP Accounting powered by SAP HANA, SAP Cash Management, and SAP BI Integrated Planning. Find out about the new configuration options, updated data model, and what this means for reporting in the future. Get a first-hand look at the new user interfaces in SAP Fiori. Review new universal journal, asset accounting, material ledger, and account-based profitability analysis functionality. Examine the steps required to migrate to SAP S/4HANA Finance and walk through the deployment options. By using practical examples, tips, and screenshots, this book helps readers to: - Understand the basics of SAP S/4 Finance - Explore the new architecture, configuration options, and SAP Fiori - Examine SAP S/4 Finance migration steps

- Assess the impact on business processes

An introductory guide for professionals and end-users of SAP and the Business Information Warehouse (BW) data warehouse, this book outlines SAP and BW features and functions, then discusses how to plan and implement a project. Complete information on ERP systems and the characteristics of SAP R/3 software are provided, as well as tips for avoiding common mistakes. The modular format allows users to move easily among chapters that cover SAP R/3 and BW topics.

"The benefits Carrefour achieved have been substantially in excess of predictions. The Shared Service accounting centers enabled streamlined processes, lowered costs, and introduced standard processes, a standard system, and standard data for a global company. The new infrastructure can support rapid expansion and can add new stores with the flip of a switch. From a systems point of view, Carrefour now has a 'factory' in place to deliver high-efficiency systems, tools, processes, and training." --From Chapter 9, Implementation and Operational Imperatives for ERP "The benefits of efficient information delivery are demonstrated by the results of one of the world's largest mySAP.com implementations. Siemens achieved a twenty-five percent cost reduction through streamlined information delivery and improved access to financial information. It also enhanced its reporting capabilities from seventy percent to nearly 100 percent through increased intranet availability." --From Chapter 3, Financial and Management Reporting Research shows that high-performance businesses and governments use finance technology as one of the capabilities to help executives make better decisions for resource allocation, while at the same time increasing productivity. CFO Insights: Enabling High Performance through Leading Practices for Finance ERP includes a number of case studies and lessons learned from Accenture clients across a variety of industries that have implemented, upgraded, and operated Oracle/PeopleSoft and SAP. Each case study highlights vital thoughts, benefits, and considerations and provides relevant guidance as one proceeds with an ERP on the journey toward high performance.

This book provides a review and an in-depth understanding of SAP/ERP systems application in business, and addresses issues relating to the successful implementation of these systems. Articles cover the history of SAP to the availability of a strategic implementation plan to ensure a successful and effective implementation approach.

Incorporate the Benefits of Activity-Based Costing into the Efficiencies of Your SAP R/3 System Given SAP's dominance in the enterprise resource planning (ERP) market, many companies and their managers encounter SAP AG applications in some form or another. Many of these organizations have recognized the value of utilizing Activity-Based Costing/Management concepts to perform more accurate cost assignments or drive performance initiatives. Managers are then faced with trying to determine how Activity-Based Costing can be incorporated into the SAP environment. The 123s of ABC in SAP is the first book of its kind designed to help business managers understand the capabilities of the SAP R/3 business application to support Activity-Based Costing, Management, and Budgeting. Divided into three parts—the conceptual foundation, the capabilities of SAP ABC, and integration with other tools—the book provides readers with the following: An explanation of how Activity-Based Costing can be used with SAP Helpful hints for implementing ABC into SAP Insights into the most common difficulties and potential solutions when implementing ABC into SAP Summary tables that highlight key decisions to be made, implementation hints, and organizational challenges Detailed descriptions of SAP software applications to support the Activity-Based Costing approach as well as the integration of SAP R/3 with Oros software Examples of the tandem usage of Resource Consumption Accounting with Activity-Based Costing

Cash Management with SAP S/4HANASAP Press

SAP ERP modules are notoriously hard to configure and use effectively without a lot of practice and experience. But as SAP ERP Financial Accounting and Controlling: Configuration and Use Management shows, it doesn't have to be so difficult. The book takes a systematic approach that leads SAP Financial Accounting and Controlling (FICO) users step by step through configuring and using all the program's facets. This approach makes configuration complexities manageable. The book's author—SAP expert, trainer, and accountant Andrew Okungbowa—ensures that both you and your end users are up and running quickly and confidently with FICO. He also provides sound and tested procedures that ensure your implementation works without error. SAP ERP Financial Accounting and Controlling: Configuration and Use Management is in fact the most comprehensive and easy-to-follow SAP FICO configuration book in the market. It incorporates a hands-on approach, with hundreds of screen shots and practical examples, that allows a person without prior configuration training to make SAP FICO ready for use in the enterprise. You'll find that you don't need to be a rocket scientist to grasp the concepts explained and apply them to your work—even when the finances are complicated, such as with the ins and outs of taxes, currency conversions, or special general ledger entries such as down payments or bills of exchange. Providing an in-depth coverage of both configuration and end user procedures, the book covers most aspects of the SAP FICO certification syllabus—SAP's view of the module's key tasks and procedures—including: Configuring and using the general ledger and accounts payable and receivable screens Configuring and completing closing procedures, asset accounting, and financial reporting Configuring global settings and enterprise variables Accounting for both profit and cost centers Creating a house bank Integrating FICO with other SAP modules Taking a jargon-free tone and providing an abundance of examples, Andrew Okungbowa provides a clear understanding of configuration techniques and the breadth of functionalities encompassed by SAP FICO. And as an accountant, Okungbowa understands the needs of end users as well as of those answering to the CIO.

Sie arbeiten zum ersten Mal mit der SAP-Software oder sind als Umsteiger von SAP ERP erstmalig mit SAP S/4HANA konfrontiert? Dann ist dieser Schnelleinstieg mit seinem kompakten Überblick über den Funktionsumfang und einer anschaulichen Einführung in die neue Benutzeroberfläche SAP Fiori für Sie genau richtig. Was sich hinter den Begriffen ERP, HANA und S/4HANA verbirgt, wird ebenso skizziert wie die beiden Lizenzmodelle von S/4HANA, On-Premise und Cloud. Sie lernen die wesentlichen integrierten Geschäftsprozesse kennen und wie diese mithilfe der Fiori-Apps in SAP S/4HANA abgebildet werden. Dazu nehmen die Autoren Sie mit in die Module rund um die Logistik wie Materialwirtschaft, Vertrieb und Versand sowie Produktionsplanung und -steuerung, um anschließend die Integration in die Finanzbuchhaltung und das Controlling aufzuzeigen. Sie lernen jeweils die wichtigsten Funktionen sowie Organisations- und Stammdatenobjekten kennen und wissen am Ende auch, welche Komponenten welchen Modulen zuzuordnen sind. Anhand von Fallbeispielen verfolgen Sie schließlich den integrativen Durchlauf der drei wichtigsten End-to-End-Prozesse in SAP S/4HANA: Order to Cash, Purchase to Pay und Forecast to Fulfill. - Modulübergreifende Darstellung der Geschäftsprozesse - SAP-Grundbegriffe einfach und verständlich erklärt - Einführung in die neue Benutzeroberfläche SAP Fiori - Inklusive 4 Stunden Videomaterial

InfoWorld is targeted to Senior IT professionals. Content is segmented into Channels and Topic Centers. InfoWorld also celebrates people, companies, and projects.

Mit der zunehmenden Digitalisierung im Zahlungsverkehr steigen auch die Anforderungen an die Finanzverwaltung und Steuerung der Liquidität in Unternehmen. Entsprechend wurde das Cash Management in SAP S/4HANA Finance grundlegend reformiert. Zahlreiche neue Funktionalitäten und Apps unterstützen Sie bei Ihren täglichen Prozessen und ermöglichen ein detailliertes Reporting. Eine entscheidende Änderung ergibt sich außerdem aus dem One Exposure from Operations Hub, der nun als zentraler Speicherort für alle operativen Daten des SAP Cash Managements dient. Lernen Sie anhand dieses anschaulichen Leitfadens vom Finanzprofi Claus Wild, wie Sie die einzelnen Komponenten Bankkontenverwaltung (BAM), Cash Operations, Elektronische Kontoauszugsverarbeitung und Liquiditätsmanagement zielbringend in Ihrem Unternehmen einsetzen und welche Einstellungen im Customizing dazu notwendig sind. Der abschließende Ausblick auf die Roadmap der SAP gewährt Ihnen bereits heute Einblicke in die zu erwartenden Neuerungen in Release SAP S/4HANA Finance OP 1809. - Grundlagen der neuen Bankkontenverwaltung (BAM) - Funktionsmerkmale von Cash Operations, ELKO und Liquiditätssteuerung - One Exposure from Operations als zentraler Datenspeicherort - inkl. grundlegender Einstellungen im SAP S/4HANA-Customizing

· Includes real-world strategies for implementing SAP ERP cash management components · Provides business users with an explanation of SAP's liquidity management solutions · Features practical coverage of Cash Management, In-House Cash, Bank Communication Management, and more This book explains the functionality of all key SAP cash management components, including best practices, real-world business scenarios, key configuration, and master data information. It explains how all the components can be integrated, and how both the individual components and the integrated solution can be maximized for optimal performance. Topics covered include electronic banking, Cash Management, Liquidity Planner, In-House Cash, Bank Communication Management, and integration with SAP ERP Financials. Optimal Cash Management Processes Learn how you can optimize the performance of your SAP cash management processes to be as efficient and accurate as possible. Configuration Information Take advantage of screenshots and step-by-step instructions that will help you maximize the configuration of your SAP cash management systems to meet your needs. Trends and Best Practices Discover the trends and best practices of cash management with SAP. Extensive Coverage of SAP Components Maximize your cash management processes for electronic banking, Cash Management, Liquidity Planner, In-House Cash, and Bank Communication Management. Integration Information Explore how SAP's cash management offerings integrate with SAP ERP Financials processes, such as procure-to-pay and order-to-cash. Highlights · Cash Management · Electronic banking · Bank Communication Management · In-House Cash · Liquidity Planner · Business process integration · Cash position report Get greater insight into your cash operations with this comprehensive guide to cash management in SAP S/4HANA! Start by configuring bank account management (BAM), cash positioning, and liquidity management. Then perform your key processes: maintaining banks, processing cash transactions, forecasting liquidity, and more. Choose your deployment model, dive into the new One Exposure from Operations data model, and see what it takes to migrate your cash data. Cash in on SAP S/4HANA!

This book provides guidance and examples to help you optimize your daily processing of the electronic bank statement component in SAP. In addition to covering electronic bank statement basics in SAP, you will get tips and tricks for post-processing bank statements and integrating payment advices. You will learn more about advanced features and get tips on how to use search patterns. In this book, we will also provide an overview of the cash application as part of the order-to-cash process, including lockbox, dispute management and collections management. We will go into detail on lockbox functionality, including the posting process and configuration. Familiarize yourself with lockbox file record formats and learn more about the importance of customer master records in the lockbox process. This book covers the following topics: * Processing the Electronic Bank Statement in SAP for advanced users * Integrating payment advices as of SAP EhP 5 * New functionality for post-processing as of SAP EhP 6 * Lockbox process overview and configuration

* Detailed instructions on configuring SAP ERP Financials module * Examples to clarify the tricky areas in a configuration * Supported by screenshots to explain configuration of SAP financial module This book introduces business users, SAP support, and SAP consultants to the SAP In-House Cash (IHC) and In-House Bank (IHB) modules. Learn how to efficiently and effectively optimize payments in SAP. Walk through In-House Cash processes, key configuration, and transaction codes for corporate and shared service centers. Get a list of considerations you need to know before starting an IHC implementation and review required master data. Obtain tips and tricks on how to resolve specific errors and get a list of relevant transaction codes. By using a detailed example scenario, the author expertly brings readers up to speed on the fundamentals of SAP IHC and IHB. - SAP payment management fundamentals and tools - In-House Cash and In-House Bank functionality scenarios - Useful transaction codes and reports - Tips and tricks for resolving common errors

Today's managers are increasingly expected to successfully oversee and understand information systems -- even when it is an area in which they have had little formal training or expertise. INFORMATION TECHNOLOGY FOR MANAGERS is targeted at these future managers who are expected to understand the business implications of information technology. Real world examples show future managers how information technology can be applied to improve their organization. INFORMATION TECHNOLOGY FOR MANAGERS provides a framework for managers to understand their important role vis-a-vis information technology and it emphasizes the importance of working effectively with all members of the organization to achieve results. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Are you working with SAP software for the first time, or are you switching from SAP ERP and are confronted with SAP S/4HANA for the first time? Then this quick start guide with its concise overview of the functional scope and a clear introduction to the new SAP Fiori user interface is right for you. Clarify the terms ERP, HANA and S/4HANA, as well as the two licensing options for S/4HANA, on-premise and cloud. You will learn about the essential integrated business processes and how they are mapped in SAP S/4HANA using the Fiori apps. To do this, the authors take you through the modules related to logistics, such as materials management, sales and distribution, and production planning and control, and then demonstrate the integration with financial accounting and controlling. You will learn about the most important functions as well as organizational and master data objects, and by the end of the book you will also know which components are assigned to each module. Finally, using case studies, you will walk step by step through the three most important end-to-end processes in SAP S/4HANA: Order to Cash, Purchase to Pay and Forecast to Fulfill. - Cross-module presentation of business processes - SAP basic terms explained in a simple and understandable way - Introduction to the new user interface SAP Fiori - Includes 4 hours of video material

This book provides an overview of Financial Accounting in SAP S/4HANA across the key process areas — General Ledger, Accounts Payable, Accounts Receivable, and Fixed Assets. Explore the user experience in SAP S/4HANA and learn how to navigate the SAP Fiori front-end and obtain details on the various reporting methods available in SAP S/4HANA. Explore Financial Accounting Master Data to obtain an overview of the core master data elements a user needs to understand within Financial Accounting. Dive into each of the core process areas of Financial Accounting for an overview of what is included in the end-to-end business process, how SAP S/4HANA has improved upon these processes, and which SAP Fiori applications can be utilized to facilitate both day-to-day tasks and closing tasks for accountants. - Explore key process areas in Financial Accounting in SAP S/4HANA - Delve into key SAP Fiori applications - Look at key SAP S/4HANA concepts such as master data, SAP Fiori screens, the universal journal, Central Finance, and reporting tools - Learn how to tailor the user experience in SAP Fiori
