A grasslands nature trek that “weaves together spiritual insight, plant biology, geology lessons and American history—and a plethora of bird sightings” (Publishers Weekly, starred review). A nature writer and avid birder offers a portrait of a season in the heartland of North America as he and his wife travel through the country and share stories of all that they encounter: people putting their lives back in place after a tornado, volunteers giving their time to conservation efforts, and the drive of all species to move their genes to the next generation, which manifests itself so abundantly in spring. “Their journey begins in New Jersey and continues to Nebraska, their arrival timed to witness the annual migration of half a million northbound sandhill cranes. Next come Colorado and a primer on how homesteading sodbusters transformed an ocean of vibrant prairie grasses into a devastating dustbowl; New Mexico and the Sixth Annual High Plains Lesser Prairie-Chicken Festival; back through Colorado and the Pawnee National Grasslands for a glimpse of the threatened prairie dog, once (along with bison) among the environmental engineers of the 19th century Western plains; and into South Dakota, home to between 800 and 1,400 free-ranging bison. Dunne’s melodic prose and rhapsodic connection with the natural world brilliantly entice an estranged audience to explore a . . . now alien environment.” —Publishers Weekly, starred review “Although a theme of humanity’s effects on the prairie runs as an undercurrent throughout the narrative, it never overwhelms the sense of awe and wonder at the natural beauty of the grasslands and their inhabitants.”

How Long is Life? By: Joseph F. Schillaci At sixty-six years old, you can’t help but reflect back on your youth. For all of us it was a time of youthful adventure. Joseph F. Schillaci truly believes that his younger years made him the person he is today. The people, experiences, the places he’s been to, are all parts of his persona. How Long is Life? was the foundation of Schillaci’s growing years. He has a great desire to share those wonderful years with all who are willing to read about them. He is certain that those who have been lucky enough to have shared these years with him feel the same as he does about the How Long Is Life?

experience. It was a time of innocence. It was a time when family was the only thing you knew. Friends were close and enemies few. There was an unspoken bond that was taken for granted. When Schillaci spoke to others about writing this book, he received their stories in return. It brought a smile to all the faces he encountered. They all look forward to reading this book. Here the book is, for all to enjoy. Schillaci hopes it allows all his readers to reflect on their youth. He hopes the years past are as much fun to reach as they were to live.

Over one million young men and women play high school football in the United States each year. Many of these athletes will be diagnosed with a concussion. Others may suffer from a concussion but are not aware or do not report it. The story of Cody Lehe is a cautionary tale of the dangers of playing with concussive symptoms. Written from the perspective of his physical therapist, *The Impact of Cody Lehe* examines Cody's injury in an Indiana high school football game. Following only minor contact in practice four days later, a cascade of chemical events inside Cody's brain altered Cody's life forever. This insightful story offers a look into the sacrifices that Cody's family has made to help him adapt to his new life, after injury. It also displays Cody's determination and sense of humor as he struggles to stand, transfer, walk, and especially carve out a new identity for himself. Cody's story is inspiring and educational. The goal of this story and of the Lehe family is to raise concussion awareness so that athletes can continue to safely play the sports that Cody loves. Cody's warning to every young athlete is: "If you ever have a headache (or other symptom) in a game (or practice), sit out, Bub, right now, or you are going to regret it!" Net Proceeds from the sale of this book will help fund concussion education and research in honor of Cody Lehe.
