A true 20th-century classic: Faulkner's famed harrowing account of the Bundren family's odyssey across the Mississippi countryside to bury Addie, their wife and mother. *As I Lay Dying* is one of the most influential novels in American fiction in structure, style, and drama. Narrated in turn by each of the family members, including Addie herself as well as others, the novel ranges in mood from dark comedy to the deepest pathos. "I set out deliberately to write a tour-de-force. Before I ever put pen to paper and set down the first word I knew what the last word would be and almost where the last period would fall." —William Faulkner on *As I Lay Dying* This edition reproduces the corrected text of *As I Lay Dying* as established in 1985 by Noel Polk. Global warming continues to gain importance on the international agenda and calls for action are heightening. Yet, there is still controversy over what must be done and what is needed to proceed. *Policy Implications of Greenhouse Warming* describes the information necessary to make decisions about global warming resulting from atmospheric releases of radiatively active trace gases. The conclusions and recommendations include some unexpected results. The distinguished authoring committee provides specific advice for U.S. policy and addresses the need for an international response to potential greenhouse warming. It offers a realistic view of gaps in the scientific understanding of greenhouse warming and how much effort and expense might be required to produce definitive answers. The book presents methods for assessing options to reduce emissions of greenhouse gases into the atmosphere, offset emissions, and assist humans and unmanaged systems of plants and animals to adjust to the consequences of global warming.

Along the way, she tells them of the story of Phoebe Winterbottom, who received mysterious messages, who met a "potential lunatic," and whose mother disappeared. As Sal entertains her grandparents with Phoebe's outrageous story, her own story begins to unfold—the story of a thirteen-year-old girl whose only wish is to be reunited with her missing mother.
