FEATURES 7 Practice Tests Online Expert Strategies 500 Flashcards Videos
Get the military career you really want Want to join the military or advance your military career? Your first stop is the ASVAB. This complete study guide includes flashcards, videos, and additional practice tests online to help you get the score you need for the job you want. You'll get in-depth reviews of all nine subject areas, strategies for tackling each section, and tips to hone your test-taking skills—everything you need to perform your best on test day! Inside... Understand the ASVAB Know what it takes to get your dream job Learn test-taking strategies Take complete practice tests Avoid common pitfalls Brush up on your math skills Access online resources with your computer, smartphone, or tablet
Get on the right college path with the next-generation ACCUPLACER The next-generation ACCUPLACER is a compilation of computerized assessments that's designed to evaluate a student's skills in reading, writing, mathematics, and computer abilities. Next-generation ACCUPLACER determines how prepared students are for college courses, and places them in the appropriate course level where they will best succeed and grow as a learner. Next-Generation ACCUPLACER For Dummies with Online Practice is the one-stop guide for students who want to get a head start on scoring well on the important college placement tests for reading, writing, and math. With tips, tricks, and plenty of practice questions in the book, plus two full-length practice tests online, it helps you know what to expect and perform your absolute best on test day. Identify knowledge gaps and areas of strength Find skill-building support with tools that improve your readiness for college Get placed into the right college course Discover preparation tactics and opportunities for individual success If you're looking for a one-stop resource for preparing for the next-generation ACCUPLACER, the book starts here!

A nationally known test-prep teacher gives you the edge over the SSAT/ISEE McGraw-Hill's SSAT/ISEE offers complete coverage of both forms (grades 6-8 and 9-12) of the Secondary School Admission Test (SSAT) and all three forms (grades 5-6, 7-8, and 9-12) of the Independent School Entrance Examination (ISEE), the two exams required for admission by more than 2,000 private high schools nationwide and overseas. Inside you'll find 5 full-length sample tests--two practice SSATs and three practice ISEEs--with complete answer explanations Top 30 Tips for higher scores on test day Step-by-step review of all topics covered on the two exams Practical information for test-takers Foreword by the Dean of Admission, the Lawrenceville School

Exam board: Edexcel Level: A-level Subject: Mathematics First teaching: September 2017 First exams: Summer 2018 Target success in Edexcel A Level Mathematics with this proven formula for effective, structured revision; key

content coverage and plentiful worked examples are combined with exam-style and multiple choice questions to create a revision guide that students can rely on to review, strengthen and test their knowledge. - Help develop the key skills needed for success with skills-focused questions around problem-solving, proof, modelling and the use of ICT (spreadsheets, graphing software and graphing calculators). - Strategically target revision with diagnostic questions to establish which areas need focus. - Get assessment-ready with exam-style questions and advice on common examination pitfalls. - Embed knowledge and identify weaknesses with hundreds of multiple choice 'Test Yourself' questions, all carefully written to elicit misconceptions; full worked solutions online offer detailed, instructive explanations for all choices (whether they are correct or incorrect) - Consolidate revision with summaries for each topic that focus on what to concentrate on in the build-up to exams, with special focus on common pitfalls such as how to show correct workings. -Access answers at the back of the book, with detailed step-by-step worked solutions for ALL questions available for free online.

SBB Olympiad Workbook helps students to prepare for Olympiad exams through meticulously designed contents. The workbook helps the child to focus on the basics of the subject and promotes logical brain development that improves child overall logical thought process and problem-solving skills. Feature List:

-Olympiads Question Bank -Preparatory book for class -8 students -Prepared based on NCERT/CBSE/ICSE/IGCSE/IB and state board syllabus -Questions patterned for Science Olympiad Foundation, Indian Talent Olympiad, SilverZone, ASSET, EduHeal & NSTSE -Contains chapter wise MCQs -2 Model test papers -Answers Keys Tags: Math Olympiad Books For Class 8, Olympiad IMO Class 8, Olympiad Workbook Class 8, Olympiad Previous Years Book With Answer Class 8, Olympiad Active Mathematics Class 8, Maths Olympiad Class 8, Olympiad 8th Class Maths Workbook

ALGEBRA AND TRIGONOMETRY: REAL MATHEMATICS, REAL PEOPLE, 6th Edition, is an ideal student and instructor resource for courses that require the use of a graphing calculator. The quality and quantity of the exercises, combined with interesting applications and innovative resources, make teaching easier and help students succeed. Retaining the series' emphasis on student support, selected examples throughout the text include notations directing students to previous sections to review concepts and skills needed to master the material at hand. The book also achieves accessibility through careful writing and design--including examples with detailed solutions that begin and end on the same page, which maximizes readability. Similarly, side-by-side solutions show algebraic, graphical, and numerical representations of the mathematics and support a variety of learning styles. Reflecting its new subtitle, this significant revision focuses more than ever on showing students the relevance of mathematics in their lives and future careers. Essential strategies, practice, and review to ace the SAT Subject Test Mathematics Level 2 Getting into a top college has never been more difficult. Students need to distinguish themselves from the crowd, and scoring well on an SAT Subject Test gives students a competitive edge. Kaplan's SAT Subject Test Mathematics Level 2 is the most up-to-date guide on the market with complete coverage of both the content review and strategies students need for success on Test Day. Kaplan's SAT Subject Test Mathematics Level 2 features: * A full-length diagnostic test * 4 full-length practice tests * Focused chapter summaries, highlights, and quizzes * Detailed answer explanations * Proven score-raising strategies * End-of-chapter quizzes Kaplan is serious about raising students' scores—we guarantee students will get a higher score, or get their money back.

Algebraic statistics uses tools from algebraic geometry, commutative algebra, combinatorics, and their computational sides to address problems in statistics and its applications. The starting point for this connection is the observation that many statistical models are semialgebraic sets. The algebra/statistics connection is now over twenty years old, and this book presents the first broad introductory treatment of the subject. Along with background material in probability, algebra, and statistics, this book covers a range of topics in algebraic statistics including algebraic exponential families, likelihood inference, Fisher's exact test, bounds on entries of contingency tables, design of experiments, identifiability of hidden variable models, phylogenetic models, and model selection. With numerous examples, references, and over 150 exercises, this book is suitable for both classroom use and independent study.

Multiply your chances of success on the ACT Math Test The ACT Mathematics Test is a 60-question, 60-minute subtest designed to measure the mathematical skills students have typically acquired in courses taken by the end of 11th grade, and is generally considered to be the most challenging section of the ACT. ACT Math For Dummies is an approachable, easy-to-follow study guide specific to the Math section, complete with practice problems and strategies to help you prepare for exam day. Review chapters for algebra, geometry, and trigonometry Three practice tests modeled from questions off the most recent ACT tests Packed with tips, useful information, and strategies ACT Math For Dummies is your one-stop guide to learn, review, and practice for the test! Includes subject review, practice quizzes, test-taking strategies, and four full-length sample tests with answers and explanations.

The Mechanics of Adhesion shows that adhesion science and technology is inherently an interdisciplinary field, requiring fundamental understanding of mechanics, surfaces, and materials. This volume comprises 19 chapters. Starting with a background and introduction to stress transfer principles; fracture mechanics and singularities; and an energy approach to debonding, the volume continues with analysis of structural lap and butt joint configurations. It then continues with discussions of test methods for strength and constitutive properties; fracture; peel; coatings, the case of adhesion to a single substrate; elastomeric adhesives such as sealants. The role of mechanics in determining the locus of failure in bonded joints is discussed, followed by a chapter on rheology relevant to adhesives and sealants. Pressure sensitive adhesive performance; the principles of tack and tack measurements; and contact mechanics relevant to wetting and surface energy measurements are then covered. The volume concludes

with sections on fibermatrix bonding and reinforcement; durability considerations for adhesive bonds; ultrasonic non-destructive evaluation of adhesive bonds; and design of adhesive bonds from a strength perspective. This book will be of interest to practitioners in the fields of engineering and to those with an interest in adhesion science.

ENGINEERING DRAWING AND DESIGN, 5E provides your students with an easy-to-read, A-to-Z coverage of drafting and design instruction that complies with the latest (ANSI & ASME) industry standards. This fifth edition continues its twenty year tradition of excellence with a multitude of actual quality industry drawings that demonstrate content and provide problems for real world, practical application. The engineering design process featured in ENGINEERING DRAWING AND DESIGN, 5E follows an actual product design from concept through manufacturing, and provides your students with a variety of design problems for challenging applications or for use as team projects. Also included in this book is coverage of Civil Drafting, 3D CADD, solid modeling, parametric applications, and more. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Select topics according to your mathematical ability and chosen health care profession. Begin with a basic math review or move right to deeper concepts, including algebra and geometry, linear equations and graphing, dilutions, solutions, and concentrations, dosage calculations and more! Learn at your own pace with this easy to use math text specifically for the health sciences. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. As in previous editions, the focus in PREALGEBRA remains on the Aufmann Interactive Method (AIM). Students are encouraged to be active participants in the classroom and in their own studies. For the first time in this edition, How To examples appear before the paired Examples and You Try It problems—a hallmark feature found in all other books in the Aufmann series. Presenting students with worked examples, and then providing them with the opportunity to immediately solve similar problems, helps them build their confidence and eventually master the concepts. Simplicity is key in the organization of this edition, as in all other editions. All lessons, exercise sets, tests, and supplements are organized around a carefully constructed hierarchy of objectives. Each exercise mirrors a preceding objective, which helps to reinforce key concepts and promote skill building. This clear, objective-based approach allows students to organize their thoughts around the content, and supports instructors as they work to design syllabi, lesson plans, and other administrative documents. New features like Focus on Success, Apply the Concept, and Concept Check add an increased emphasis on study skills and conceptual understanding to strengthen the foundation of student success. The Sixth Edition also features a new design, enhancing the Aufmann Interactive Method and making the pages easier for both students and instructors to follow. Available with InfoTrac Student Collections <http://gocengage.com/infotrac>. We want to help you succeed on the GMAT math section. If math is the hardest part of the GMAT for you, we're here to help. McGraw-Hill's Conquering GMAT Math is packed with strategies for answering every kind of GMAT math question. You'll also get intensive practice with every question type to help you build your test-taking confidence. With McGraw-Hill's Conquering GMAT Math, you'll have everything you need to get ready for test day-- and achieve your best GMAT math score. Includes 3 full-length practice GMAT math tests with complete solutions. Hundreds of additional practice questions. Coverage of all math topics, including algebra, geometry, and data sufficiency and interpretation. Studying and test-day strategies. Information on the format and structure of the GMAT math section. More help online.

The perfect way to review for the AFQT whether you have two months, one month, or even one week left to prepare! The AFQT consists of four critical subtests of the ASVAB which count toward the AFQT (Armed Forces Qualifying Test) score. This score determines which U.S. service a test taker is eligible to enlist in. More than one million people per year participate in the ASVAB qualifying program. Features of this plan-to-ace-the-test product include: Timed, boxed calendars for preparing to take the test--two-month study calendar, one-month study calendar, and one-week study calendar. Diagnostic test that helps test-takers pinpoint strengths and weaknesses so they can focus their review on topics in which they need the most help. Subject reviews that succinctly cover need-to-know topics on the test. Model practice test with answers and explanations.

Get the Targeted Practice You Need to Ace the Pre Algebra Exam! Pre-Algebra for Grade 6 and 7, includes easy-to-follow instructions, helpful examples, and plenty of algebraic practice problems to assist students to master each concept, brush up on their problem-solving skills, and create confidence. The Pre-Algebra practice book provides numerous opportunities to evaluate basic skills along with abundant remediation and intervention activities. It is a skill that permits you to quickly master intricate information and produce better leads in less time. Students can boost their test-taking skills by taking the book's two practice college algebra tests. All test questions answered and explained in detail. Important Features of the Pre-Algebra Book: A complete review of pre-algebra exam topics, Over 2,500 practice problems covering all topics tested, The most important concepts you need to know, Clear and concise, easy-to-follow sections, Well designed for enhanced learning and interest, Hands-on experience with all question types, 2 full-length practice tests with detailed answer explanations, Cost-Effective Pricing, Powerful algebra exercises to help you avoid traps and pacing yourself to beat the Pre-Algebra exam. Students will gain valuable experience and raise their confidence by taking pre-algebra practice tests, learning about test structure, and gaining a deeper understanding of what is tested in pre-algebra. If ever there was a book to respond to the pressure to

increase students' exam scores, this is it. Published By: The Math Notion
www.mathnotion.com

This book has been specifically designed to help Year 12 students who roughly revise all topics in the HSC Mathematics course and prepare for class assessments, trial HSC and HSC exams. Together with the Year 11 Preliminary Revision Exam Workbook, the whole senior Mathematics course is covered. The book includes: topics covering the complete HSC Mathematics course 200 pages of practice exercises, with topic tests for all chapters cross-references to relevant pages in the HSC Mathematics study guide topic tests for all chapters two sample examination papers answers to all questions

SAT Subject Test Mathematics Level 2 Simon and Schuster

Sharpen your ACT test-taking skills with this updated and expanded premier guide premier guide with online links to BONUS tests and study aids Are you struggling while studying for the ACT? ACT For Dummies, Premier Edition is a hands-on, friendly guide that offers easy-to-follow advice to give you a competitive edge by fully preparing you for every section of the ACT, including the writing test. You'll be coached on ways to tackle the toughest questions and how to stay focused and manage the time available for each section. This test guide includes three tests in the book plus two more and 50 interactive math formula flashcards that can be accessed online. ACT For Dummies, Premier Edition with CD, gives you the skills you need to get your best possible score! Get a grip on grammar — prepare yourself for the English portion of the ACT and get a refresher on the grammar rules you once knew but may have forgotten You can count on it — discover time-tested strategies for scoring high on the math portion — from basic math and geometry to algebra and those pesky word problems — and formulate a strategy to memorize lengthy formulas with 50 flashcards online Read all about it — save time and brain cells with helpful tips on how to get through the reading passages — and still have enough time to answer the questions Blinded by science? — learn to analyze the various science passages and graphs and get proven techniques on how to tackle each type Practice makes perfect — take three practice tests in the book, plus two more on online, complete with answers and explanations Open the book and find: An overview of the exam and how it's scored Tips to help you gauge your strengths and weaknesses How to make the best use of your time Ways to sharpen essential grammar, writing, math, and science skills Practice essay questions and guidance for the optional writing test Five full-length practice tests with complete answer explanations Reasons not to believe common myths about the ACT

New Syllabus Additional Mathematics (NSAM) is a series of textbooks and workbooks designed to prepare students for the Singapore-Cambridge GCE O-level examination in Additional Mathematics. Together with the textbook, the workbook will provide students with ample practice to apply the various skills and concepts learnt to solving problems in both examination and real-life situations.

The workbook contains the following features: **REVISION NOTES** Revision Notes are found at the start of each chapter. They emphasise the important concepts and formulae in the chapter. **PRACTICE QUESTIONS** Practice Questions provide students with a wide range of questions for further practice. The questions are classified into three levels of difficulty. **questions require students to use specific skills and concepts in the chapter directly to solve problems.** **questions require students to apply their skills and concepts to solve problems.** **questions require students to apply various skills and concepts, including the use of problem-solving skills, to solve problems.** **Revision Exercise** The Revision Exercise is found after every few chapters to help students to recall and consolidate all the concepts learnt in these chapters. **Mid-Year Specimen Papers and End-of-Year Specimen Papers** The Mid-Year Specimen Papers and End-of-Year Specimen Papers have been written to follow closely to the format of schools Mid-Year and End-of-Year examinations. It is hoped that when students use this book, to reinforce the concepts that they are weak in, they will eventually gain success in Additional Mathematics.

With the Spectrum Math grade 8 workbook you can expect your child to develop skills in problem solving, addition, subtraction, multiplication, division, equations, ratio, proportion, percent, simple and compound interest, metric measurement, geometry, graphs, and probability.

This is the brand-new Australian Curriculum Edition—a revised and extended edition with over fifty extra pages of work for students to complete. This book will challenge and extend students studying Year 8 Mathematics. It has been specifically written to help students revise their work and succeed in all their class tests, half-yearly and yearly exams. In this book you will find: Topics covering the complete Year 8 Australian Curriculum Mathematics course Over 170 pages of practice exercises Thirteen Topic Tests Four Practice Exams Answers to all questions **CHAPTERS:** 1. Rational numbers 2. Integers 3. Indices 4. Percentages 5. Basic Algebra 6. Length, mass and time 7. Area, volume and capacity 8. Circles 9. Linear relationships 10. Equations 11. Reasoning in geometry 12. Probability 13. Statistics Exam papers Answers

Get your ACT together with this smart study guide! For over 20 years, the fun-and-friendly Dummies ACT guides have helped college hopefuls like you crush it on test day and get into the schools of their dreams! ACT 2022 For Dummies makes it easy to pump up your English, math, science, and readings scores, and to write circles around the graders, if you choose to take the optional writing test. You're about to launch into the rest of your life! With book's straight-to-the-point explanations, practice questions, and full-length tests—and a side of laughter, courtesy of the teen-approved Dummies style—you can ace the ACT and start your college career with confidence. Forgot how to solve for x ? Can't tell your hyphens from your hypotheses? No worries! Review it all—or maybe figure it out for the first time—in no time with explanations that complement your teachers' lessons—and are definitely funnier. Then, figure out what you'll face on the ACT

with practice exams, including explanations of every answer. By the time you make it to test day, you'll be stress-free and ready to succeed! Boost your chances of getting into the college of your dreams by earning higher scores on the ACT entrance exam Hit the books, Dummies style, with clear explanations of what's on the ACT and tips for smarter studying Practice till you're ready with flash cards, online practice tests, and drills on all the subject areas Understand the college admissions process and make sure your application stands out Begin your post-high school journey on the right foot with ACT 2022 For Dummies! Kaufmann and Schwitters have built this text's reputation on clear and concise exposition, numerous examples, and plentiful problem sets. This traditional text consistently reinforces the following common thread: learn a skill; practice the skill to help solve equations; and then apply what you have learned to solve application problems. This simple, straightforward approach has helped many students grasp and apply fundamental problem solving skills necessary for future mathematics courses. Algebraic ideas are developed in a logical sequence, and in an easy-to-read manner, without excessive vocabulary and formalism. The open and uncluttered design helps keep students focused on the concepts while minimizing distractions. Problems and examples reference a broad range of topics, as well as career areas such as electronics, mechanics, and health, showing students that mathematics is part of everyday life. The text's resource package—anchored by Enhanced WebAssign, an online homework management tool—saves instructors time while also providing additional help and skill-building practice for students outside of class. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Kaplan's GRE Math Workbook includes more than 1,000 realistic practice questions to help you get comfortable and confident with the Quantitative section of the test. We're so confident that GRE Math Workbook offers all the practice you need to excel on the GRE that we guarantee it: After studying with our book, you'll score higher on the GRE—or you'll get your money back. The Best Practice More than 1,000 practice questions and drills, including new questions for this edition 6 full-length Quantitative Reasoning practice sets Diagnostic tool for even more targeted Quantitative practice Review of crucial math skills and concepts, including arithmetic, algebra, data interpretation, geometry, and probability Key strategies for all Quantitative Reasoning question types An advanced practice section for those aiming for a very high score Expert Guidance We know the test: The Kaplan team has spent years studying every GRE-related document available to ensure our practice materials are true to the test Our books and practice questions are written by veteran GRE teachers who know students—every explanation is written to help you learn We invented test prep—Kaplan (www.kaptest.com) has been helping students for 80 years, and our proven strategies have helped legions of students achieve their dreams Prepare for exams and succeed in your mathematics course with this

comprehensive solutions manual! Featuring worked out-solutions to the problems in TOPICS IN CONTEMPORARY MATHEMATICS, 10th Edition, this manual shows you how to approach and solve problems using the same step-by-step explanations found in your textbook examples. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

As in previous editions, the focus in PREALGEBRA & INTRODUCTORY ALGEBRA remains on the Aufmann Interactive Method (AIM). Students are encouraged to be active participants in the classroom and in their own studies as they work through the How To examples and the paired Examples and You Try It problems. Student engagement is crucial to success. Presenting students with worked examples, and then providing them with the opportunity to immediately solve similar problems, helps them build their confidence and eventually master the concepts. Simplicity is key in the organization of this edition, as in all other editions. All lessons, exercise sets, tests, and supplements are organized around a carefully constructed hierarchy of objectives. Each exercise mirrors a preceding objective, which helps to reinforce key concepts and promote skill building. This clear, objective-based approach allows students to organize their thoughts around the content, and supports instructors as they work to design syllabi, lesson plans, and other administrative documents. New features like Focus on Success, Apply the Concept, and Concept Check add an increased emphasis on study skills and conceptual understanding to strengthen the foundation of student success. The Third Edition also features a new design, enhancing the Aufmann Interactive Method and making the pages easier for both students and instructors to follow. Available with InfoTrac Student Collections <http://gocengage.com/infotrac>. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Spectrum Math for grade 4 keeps kids at the top of their math game using progressive practice, math in everyday settings, and tests to monitor progress. The math workbook covers multiplication, division, fractions, geometric figures, and preparing for algebra. --A best-selling series for well over 15 years, Spectrum still leads the way because it works. It works for parents who want to give their child a leg up in math. It works for teachers who want their students to meet and surpass learning goals. And it works to help children build confidence and advance their skills. No matter what subject or grade, Spectrum provides thorough practice and focused instruction to support student success.

Accessible to students and flexible for instructors, COLLEGE ALGEBRA AND TRIGONOMETRY, Eight Edition, incorporates the dynamic link between concepts and applications to bring mathematics to life. By integrating interactive learning techniques, the Aufmann team helps students to better understand concepts, work independently, and obtain greater mathematical fluency. The text also includes technology features to accommodate courses that allow the option of using graphing calculators. The authors' proven Aufmann Interactive Method allows students to try a skill as it is presented in example form. This interaction between the examples and Try Exercises serves as a checkpoint to students as they read the textbook, do their homework, or study a section. In the eighth edition, Review Notes are featured more prominently throughout the text to help students recognize the key prerequisite skills needed to understand new

concepts. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Subject review materials for every subject discipline tested on the ACT Extensive math review aimed at what test-takers will encounter when taking the ACT Three full-length ACT practice tests, with answers and detailed answer explanations

The bestselling ASVAB study guide—now updated and improved for 2019/2020! More than 1 million students and potential recruits take the ASVAB every year, including 400,000 recruits and 900,000 high school students. Since the test was first introduced in 1968, more than 40 million people have taken the exam. 2019/2020 ASVAB For Dummies is packed with practice questions, an in-depth review of each of the nine subtests, strategy cheat sheets, proven study tips, and so much more. New for this edition, potential recruits will find expanded math coverage, with more content review and practice questions for the Math Knowledge and Arithmetic Reasoning sections of the exam. Score high and qualify for the military job you want Boost your math, science, and English performance Review all nine subject areas to prepare for test day Take three full-length ASVAB practice tests and two AFQT practice tests If you're preparing for this all-important exam, this hands-on study guide makes it easier than ever to take your military career to new heights.

Own the ASVAB test with the #1 guide on the market! Passing the ASVAB test is the essential ticket to getting into your dream branch of the military—and a good score can determine the shape of your career. A stellar performance can also help you get grants and bonuses for school, so—no pressure! But don't be daunted: like any military operation, having the right plan of attack and equipment are key—and as the number-one-selling guide year after year that's packed with all the information you need to win, the latest edition ASVAB For Dummies takes care of both of these in one! In a friendly, straightforward style, Angie Papple Johnston—who passed the test herself in 2006 to join the Army—provides in-depth reviews of all nine test subjects. Don't worry if you slept through some of this material in school; you'll find a complete refresher on everything you'll be expected to know—plus full explanations for every answer, drill exercises, and strategy cheat sheets for verbal, math, and general sciences. You'll also get tips on how to pinpoint areas where you need to develop mental muscle and to strengthen your test-taking skills. And if this weren't already giving you some pretty awesome firepower, you can also go online to reinforce your game using flashcards and customizable practice tests calibrated to address areas where you need help the most. Match your skills against practice problems Drill your math, science, and English knowledge to perfection Master test strategy and tactics Get one-year access to additional practice tests, flashcards, and videos online Whatever your aim for your military career, this book provides the perfect training ground for you to be the very best you can be on the day of the test!

Unlike competing books, it covers both forms (grades 6-8 and 9-12) of the SSAT and all three forms (grades 5-6, 7-8, and 9-12) of the ISEE Includes five full-length sample tests—two practice SSATs and three practice ISEEs—with complete answer explanations Bonus chapter: “What to Expect at a Private High School” by Gregg W. M. Maloberti, Dean of Admission at the elite Lawrenceville School
