How to Market Your School is a comprehensive guide that provides school administrators with tools to help them create, implement, and maintain a successful marketing program. Topics covered include developing a marketing strategy, marketing research, communications, media relations, building beneficial partnerships, public relations, and fund raising. Explicit in this book is the author's belief that it is not enough to say that Americans live in culturally diverse and stratified communities in which educational opportunities are not distributed fairly; nor is it enough to reiterate that most educational opportunities are not based solely on students' academic abilities. Rather, elementary and secondary school personnel must be involved in abating these problems. The book is not meant to be read passively by teachers and teacher candidates; it is intended to be a dialogue that encourages discussion and, when possible, action. Explicit throughout each chapter is the belief that how teachers teach a course matters as much as what is taught. Each chapter

is written to achieve four major objectives: (1) to discuss key societal factors that positively or negatively affect the quality of instruction students receive in elementary and secondary schools; (2) to discuss selected racial and ethnic groups' beliefs, attitudes, and behaviors that characterize teaching personnel, students, and parents; (3) to present seminal research studies and their implications for educating elementary and secondary students; and (4) to provide practical suggestions for abating or preventing selected human relation problems in schools. Chapters include: Challenges for Educators; Human Relations in Education; Caring About All Students; Teachers as Professional Helpers; Stress, Anxiety, and Coping; Parents Are People, Too; and Student Teachers. In addition, the text seeks to: (1) discuss educational reforms that served well in the past but must be altered or abandoned to fit current educational imperatives; (2) discuss a wide variety of issues, problems, and strategies for change that offer readers a balanced view of challenges affecting administrators, teachers, counselors, students, and parents; (3) employ a scaffolding, or spiral, approach to topics; and (4) offer special attention to the effects of race, ethnicity, gender, sexual orientation, nationality, and family income on students, their parents, and teachers. Although the book is written primarily for students interested in pursuing careers as elementary or secondary school teachers, it should also be of value to experienced teachers, as well as school administrators, counselors, parents, and policy makers. The text may also complement and supplement other textbooks used in university courses focused on human relations-related topics.

How children are taught to control their feelings and how they resist this emotional management through cultural production Today, even young kids talk to each other across social media by referencing memes, songs, and movements, constructing a common vernacular that resists parental, educational, and media imperatives to name their feelings and thus control their bodies. Over the past two decades, children's television programming has provided a therapeutic site for the processing of emotions such as anger, but in doing so has enforced normative structures of feeling that, Jane Juffer argues, weaken the intensity and range of children's affective experiences. *Don't Use Your Words!* seeks to challenge those norms, highlighting the ways that kids express their feelings through cultural productions including drawings, fan art, memes, YouTube videos, dance moves, and conversations while gaming online. Focusing on kids between ages five and nine, *Don't Use Your Words!* situates these productions in specific contexts, including immigration policy referenced in drawings by Central American children just released from detention centers and electoral politics as contested in kids' artwork expressing their anger at Trump's victory. Taking issue with the mainstream tendency to speak on behalf of children, Juffer argues that kids have the agency to answer for themselves: what does it feel like to be a kid?

Use Your Words examines the ways early childhood teachers talk to children, pointing out commonly missed opportunities to support

cognitive development, develop receptive and expressive language, and aid children in their primary developmental task of making sense of the world. From the author of *Theories of Childhood*, this humorous and thoughtful guide contains a wealth of classroom examples, as well as clear alternatives for transforming the language teachers use in the classroom.

USE YOUR WORDS introduces the art of creative nonfiction to women who want to give written expression to their lives as mothers. Written by award-winning teacher and writer, Kate Hopper, this book will help women find the heart of their writing, learn to use motherhood as a lens through which to write the world, and turn their motherhood stories into art. Each chapter of *USE YOUR WORDS* focuses on an element of craft and contains a lecture, a published essay, and writing exercises that will serve as jumping-off points for the readers' own writing. Chapter topics include: the importance of using concrete details, an overview of creative nonfiction as a genre, character development, voice, humor, tense and writing the "hard stuff," reflection and back-story, structure, revision, and publishing. The content of each lecture is aligned with the essay/poem in that chapter to help readers more easily grasp the elements of craft being discussed. Together the chapters provide a unique opportunity for mother writers to learn and grow as writers. *USE YOUR WORDS* takes the approach that creative writing can be taught, and this underscores each chapter. When students learn to read like writers, to notice how a piece is put together, and to question the choices a writer makes, they begin to think like writers. When they learn to ground their writing in concrete, sensory details and begin to understand how to create believable characters and realistic dialogue, their own writing improves. *USE YOUR WORDS* reflects Kate's style as a teacher, guiding the reader in a straightforward, nurturing, and passionate voice. As one student noted in a class evaluation: "Kate is a born writer and teacher, and her enthusiasm for essays about motherhood and for teaching the nuts and bolts of writing so that ordinary mothers have the tools to write their stories is a gift to the world. She is raising the value of motherhood in our society as she helps mothers build their confidence and strengthen their game as writers."
