

## Chorus Praise Song And Other Songs Book Good News Gospel

One of the first books to shine a light on the broad scope of translation studies, this Routledge Translation Classic is widely regarded as a pillar of the discipline. Authored by one of the most influential translation theorists of the twentieth century, *Translation, Rewriting, and the Manipulation of Literary Fame* shows how rewriting – translation, anthologization, historiography, criticism, editing – influences the reception and canonization of works of literature. Firmly placing the production and reception of literature within the wider framework of a culture and its history, André Lefevere explores how rewriting manipulates works of literature to ideological and artistic ends, and demonstrates how rewriting a text can give it a new, sometimes subversive, historical or literary status. Ranging across various literatures, including Classical Latin, French, and German, and here reissued with a new foreword by Scott G. Williams, this is a seminal text for all students and specialists in translation studies, literary theory, and comparative and world literature.

*Psalms for Preaching and Worship* a key addition to the critically acclaimed three-volume *Lectionary Commentary* / Despite the rich resources available for studying the Psalms, few are as focused on their place in worship and preaching as is this volume. The responsorial Psalms of the Revised Common Lectionary are here taken up in careful and often illuminating interpretation with attention also to their interaction with other lectionary texts. The many ways that psalms can function meaningfully in the liturgical life of congregations are explored especially in John Witvliet's concluding section. I know of no work that combines practice and substance better than this lectionary commentary. Patrick D. Miller / Princeton Theological Seminary / A fascinating book well organized, well written and edited, thorough, and informative. . . . An excellent resource not only for preachers using the Revised Common Lectionary but also for those wishing to preach a series of sermons on the Psalms. In addition, worship leaders and worship committees will appreciate the many excellent ideas for using the Psalms in worship. Highly recommended. Sidney Greidanus / author of *Preaching Christ from the Old Testament* and *Preaching Christ from Genesis* / Here is something even better than a simple completion of *The Lectionary Commentary*, which would be cause enough for gratitude. . . . Serious attention paid to this one book could go a long way toward remedying the scandalous neglect of the treasure of the Psalms in too much contemporary worship. Marguerite Shuster / Fuller Theological Seminary / Contributors: Nancy R. Bowen, William P. Brown, Walter Brueggemann, Richard J. Clifford, Nancy L. deClaiss-Walford, Jennifer S. Green, Karl N. Jacobson, Rolf A. Jacobson, Melody D. Knowles, Eunny P. Lee, Joel M. LeMon, James Limburg, J. Clinton McCann, James K. Mead, Carol A. Miles, Luke A. Powery, Stephen Breck Reid, Sandra L. This book analyses the most sung contemporary congregational songs (CCS) as a global music genre. Utilising a three-part music semiology, this research engages with producers, musical texts, and audiences/congregations to better understand contemporary worship for the modern church and individual Christians. Christian Copyright Licensing International data plays a key role in identifying the most sung CCS, while YouTube mediations of these songs and their associated data provide the primary texts for analysis. Producers and the production milieu are explored through interviews with some of the highest profile worship leaders/songwriters including Ben Fielding, Darlene Zschech, Matt Redman, and Tim Hughes, as well as other music industry veterans. Finally, National Church Life Survey data and a specialized survey provide insight into individual Christians' engagement with CCS. Daniel Thornton shows how these perspectives taken together provide unique insight into the current global CCS genre, and into its possible futures.

*The Hidden Chorus* investigates the relationship between the chorus of Greek tragedy and other types of choral song in Greek society. Choruses performed on a range of occasions in Greek culture, ranging from private weddings and funerals to large-scale religious festivals, yet the relationship between these everyday or 'ritual' choruses and the choruses of tragedy has never been systematically examined. L. A. Swift discusses choruses from five ritual genres: paian (religious songs of celebration or healing), epinikion (songs for athletic victors), partheneia (songs for the transitions of young girls), hymenaios (wedding song), and thrênos

(funerary song), and explores how these choral forms are evoked in tragedy. By examining the relationship between tragic and non-tragic choral song, she not only provides new insights into individual plays, but also enriches our understanding of the role poetry and song played in Greek life.
