325 images, the book narrates Art Deco's evolution in 101 key works, carefully curated and chronologically organized to tell the story of not just a style but a set of sensibilities. Critical essays from leading figures in the field discuss the ways in which Art Deco created an entire visual universe that extended to architecture, advertising, household objects, clothing, and even food design. Through this comprehensive approach to one of the 20th century's most pervasive modes of expression in America, *Art Deco Chicago* provides an essential overview of both this influential style and the metropolis that came to embody it.

The 2020 Tokyo Olympic Games are likely to feature the first transgender athlete, a topic that will be highly contentious during the competition. But transgender and intersex athletes such as Laurel Hubbard, Tiffany Abreu, and Caster Semenya didn't just turn up overnight. Both intersex and transgender athletes have been newsworthy stories for decades. In *Sporting Gender: The History, Science, and Stories of Transgender and Intersex Athletes*, Joanna Harper provides an in-depth examination of why gender diverse athletes are so controversial. She not only delves into the history of these athletes and their personal stories, but also explains in a highly accessible manner the science behind their gender diversity and why the science is important for regulatory committees—and the general public—to consider when evaluating sports performance. *Sporting Gender* gives the reader a perspective that is both broad in scope and yet detailed enough to grasp the nuances that are central in understanding

In *Gangs and Organized Crime*, George W. Knox, Gregg W. Etter, and Carter F. Smith offer an informed and carefully investigated examination of gangs and organized crime groups, covering street gangs, prison gangs, outlaw motorcycle gangs, and organized crime groups from every continent. The authors have spent decades investigating gangs as well as researching their history and activities, and this dual professional-academic perspective informs their analysis of gangs and crime groups. They take a multidisciplinary approach that combines criminal justice, public policy and administration, law, organizational behavior, sociology, psychology, and urban planning perspectives to provide insight into the actions and interactions of a variety of groups and their members. This textbook is ideal for criminal justice and sociology courses on gangs as well as related course topics like gang behavior, gang crime and the inner city, organized crime families, and transnational criminal groups. *Gangs and Organized Crime* is also an excellent addition to the professional's reference library or primer for the general reader. From *The Wild Angels* in 1966 until its conclusion in 1972, the cycle of outlaw motorcycle films contained forty-odd formulaic examples. All but one were made by independent companies that specialized in producing exploitation movies for drive-ins, neighborhood theaters, and rundown inner city theaters. Despised by critics, but welcomed by exhibitors denied first-run films, these cheaply and quickly produced movies were made to appeal to audiences of mobile youths. The films are repetitive, formulaic, and eminently forgettable, but there is a story to tell about all of the above, and it is one worth hearing. *Hoodlum Movies* is not only about the films, its focus is on why and how these films were made, who they were made for, and how the cycle developed through the second half of the 1960s and came to a shuddering halt in 1972.

Behaviour that aims to understand, rather than control, human behaviour in organisations. This approach presents a side of management that reflects real-world experiences in the workplace by challenging the managerial perspective and discussing issues for employees.
