Wenn jeder Gedanken liest, kann ein Geheimnis eine gefährliche Sache sein. Die sechzehnjährige Kira Moore ist eine Null, jemand der weder Gedanken lesen, noch von anderen gelesen werden kann. Nullen sind Außenseiter, denen man nicht vertrauen kann, weswegen sie auch keine Chancen bei ihrem besten Freund Raf hat, einem normalen Gedankenleser, in den sie heimlich verliebt ist. Als sie aus Versehen die Kontrolle über Rafs Verstand übernimmt und ihn dadurch beinahe umbringt, versucht Kira ihre unheimliche, neue Fähigkeit vor ihrer Familie und dem zunehmend misstrauischer werdenden Raf zu verbergen. Aber sie verstrickt sich in ihren Lügen und wird immer tiefer in eine geheime Unterwelt voller Gedankenkontrollierer gezogen. Den Verstand all derer zu kontrollieren, die ihr am Herzen liegen, ist dabei nur eine von vielen gefährlichen Entscheidungen, die noch vor ihr liegen. Open Minds war TOP 5 FINALIST in der Kategorie "Best Indie Book 2012, Young Adult Fiction" bei "The Kindle Book Review." Leserstimmen: „Open Minds hat mich vollkommen umgeworfen.“ - Buchjunkies, „Eine Mischung aus Dystopie und Fantasy, die einen mitreißt und die Spannung durchgehend aufrechterhält.“ - Buchzeiten, „Ich hasse Bücher, die im Voraus eine geniale Idee versprechen und mich dann einfach nur enttäuschen. Open Minds konnte mich dagegen auf ganzer Linie positiv überraschen.“ - Jack, In Flagranti Books, „Wenn man sich einmal in Kiras Welt auskennt, wird man von den Geschehnissen total gefangen genommen.“ - Süchtig nach Büchern, Monis Buchblog „Zum Schluss konnte ich nicht mehr aufhören es zu lesen. Sogar Nachts davon geträumt.“ - Bookrecession, „'Open Minds' ist ein großartiges Beispiel dafür, dass auch unabhängige Autoren fantastische Bücher schreiben können!“ - Mikka liest Die MINDJACK Reihe Kiras Geschichte Gedankenspiele (Prequel) Open Minds - Gefährliche Gedanken (Buch #1) Closed Hearts - Gefährliche Hoffnung (Buch #2) Free Souls - Gefährliche Träume (Buch #3) Zephs Geschichte Der Schlosser (Prequel) Locked Tight - Gefährliches Misstrauen (Buch #4) Cracked Open - Gefährliche Spaltung (Buch #5) Broken Wide - Gefährliche Freiheit (Buch #6)

The 1990s was the decade when Marvel Comics sold 8.1 million copies of an issue of the X-Men, saw its superstar creators form their own company, cloned Spider-Man, and went bankrupt. The 1990s was when Superman died, Batman had his back broken, and the runaway success of Neil Gaiman's Sandman led to DC Comics' Vertigo line of adult comic books. It was the decade of gimmicky covers, skimpy costumes, and mega-crossovers. But most of all, the 1990s was the decade when companies like Image, Valiant and Malibu published million-selling comic books before the industry experienced a shocking and rapid collapse. American Comic Book Chronicles: The 1990s is a year-by-year account of the comic book industry during the Bill Clinton years. This full-color hardcover volume documents the comic book industry's most significant publications, most notable creators, and most impactful trends from that decade. Written by Keith Dallas and Jason Sacks.

Closed Hearts (Mindjack: Kira Book Two) Twisted Space LLC

For better, for worse. In sickness and in health. It's a legal vow of care for families in 2050, a world beset by waves of climate-driven plagues. Power engineer Lucía Ramirez long ago lost her family to one—she'd give anything to take that vow. The

Power Islands give humanity a fighting chance, but tending kelp farms and solar lilies is a lonely job. The housing AI found her a family match, saying she should fit right in with the Senegalese retraining expert who's a force of nature, the ex-Pandemic Corps cook with his own cozy channel, and even the writer who insists everything is stories, all the way down. This family of literal and metaphorical refugees could be the shelter she's seeking from her own personal storm. She needs this one to work. Then an unscheduled power outage and a missing turtle-bot crack open a mystery. Something isn't right on Power Island One, but every step she takes to solve it, someone else gets there first—and they're determined to make her unsee what she's seen. Lucía is an engineer, not a detective, but fixing this problem might cost her the one thing she truly needs: a home. When You Had Power is the first of four tightly-connected novels in a new hopepunk series. It's about our future, how society will shift and flex like a solar lily in the storms of our own making, and how breaks in the social fabric have to be expected, tended to, and healed. Because we're in this together, now more than ever before. Keywords: hopepunk, climate fiction, Puerto Rico, Puerto Rican, Latino, Hispanic, solarpunk, climate change, climate crisis, solar energy, green energy, clean energy, global warming, pandemic, plague, underwater adventure, kelp farming, fusion engineering, wind energy, literary science fiction, mystery, suspense, hard science fiction, dystopian, heroine's journey

When you control minds, only your heart can be used against you. Eight months ago, Kira Moore revealed to the mindreading world that mindjackers like herself were hidden in their midst. Now she wonders if telling the truth was the right choice. As wild rumors spread, a powerful anti-jacker politician capitalizes on mindreaders' fears and strips jackers of their rights. While some jackers flee to Jackertown--a slum rife with jackworkers who trade mind control favors for cash--Kira and her family hide from the readers who fear her and jackers who hate her. But when a jacker Clan member makes Kira's boyfriend Raf collapse in her arms, Kira is forced to save the people she loves by facing the thing she fears most: FBI agent Kestrel and his experimental torture chamber for jackers. AUTHOR BIOGRAPHY Susan Kaye Quinn is a rocket scientist turned speculative fiction author who now uses her PhD to invent cool stuff in books. Her works range from young adult science fiction to adult future-noir, with side trips into royal fantasy romance and middle grade. Her bestselling novels and short stories have been optioned for Virtual Reality, translated into German and French, and featured in several anthologies. She writes full-time from Chicago, inventing mind powers and dreaming of the Singularity. See her website for free stories, trailers, and links to social media.

Warrior faery princes can be very stubborn. Especially when they possess your body. Fourteen-year-old Finn just wants to keep his little sister out of Child Protective Services—an epic challenge with their parentally-missing-in-action dad moving them to England, near the famous Stonehenge rocks. Warrior faery Prince Zaneyr just wants to

escape his father's reckless plan to repair the Rift—a catastrophe that ripped the faery realm from Earth 4,000 years ago and set it adrift in an alternate, timeless dimension. When Zaneyr tricks Finn into swapping places, Finn becomes a bodiless soul stuck in the Otherworld, fighting spriggans with sharp teeth and rival faery Houses. Back on Earth, Zaneyr uses Finn's body to fight off his father's seekers and keep the king's greatest weapon—himself—out of his hands. Between them, they have two souls and only one body... and both worlds to save before the dimensional window between them slams shut. Faery Swap is an action and druid-magic filled portal fantasy, told by both a runaway faery prince and the boy he's tricked into taking his place. This Prince and the Pauper meets Warrior Faeries tale is suitable for all ages. Includes four interior illustrations. KEYWORDS: middle grade fantasy, sword, sorcery, magic, quest, action, adventure, preteen

Wenn du Gedanken kontrollierst, kann nur dein Herz dir zum Verhängnis werden. Vor acht Monaten hat Kira Moore einer Welt von Gedankenlesern offenbart, dass es mitten unter ihnen auch Mindjacker wie sie gibt, die die Gedanken anderer Menschen kontrollieren können. Jetzt fragt sie sich, ob es wirklich die richtige Entscheidung war, die Wahrheit öffentlich zu machen. Während sich wilde Gerüchte verbreiten, nutzt ein mächtiger Anti-Jacker Politiker die Angst der Gedankenleser aus, um die Rechte der Jacker zu beschneiden. Während manche von ihnen nach Jackertown fliehen - einem Slum voller Jacker, die ihre Fähigkeiten gegen Bares eintauschen - verstecken sich Kira und ihre Familie vor den Lesern, die sie fürchten, und den Jackern, die sie hassen. Doch nachdem das Mitglied eines Jacker-Clans Kiras Freund Raf in ihren Armen zusammenbrechen lässt, hat Kira keine Wahl mehr. Sie ist gezwungen, die Menschen, die sie am meisten liebt, zu retten, indem sie sich dem stellt, das sie am meisten fürchtet: FBI Agent Kestrel und seiner experimentellen Folterkammer für Jacker. "Diese Geschichte ist ein wahrer Pageturner." - Manus Tintenkleckse "Wie auch Band 1 (der mich einfach umgehauen hat! ;)) überzeugte nun Band 2 der Mindjack-Triologie von Anfang an mit einer fesselnden Geschichte und einem rasanten Tempo" - Natzes Lesecke "Ich wollte immerzu wissen wie es weitergeht, war bereits nach kurzer Zeit vollkommen im Geschehen gefangen." - Manjas Buchregal "Die Mindjack-Reihe war der Überraschungserfolg des letzten Jahres, und obwohl der zweite Teil oftmals schwächelt, ist es hier zum Glück nicht der Fall!" - Fairy-Book Blog "Der zweite Band ist richtig spannend, ständig passiert irgendwas mit dem man nicht rechnet und das einen als Leser nur noch neugieriger macht wie es den weiter geht." - Nadines Lesewelt "Die 'Mindjack'-Trilogie ist für mich eine Buchreihe, die viel zu wenig Aufmerksamkeit bekommt, denn die Bücher sind einfach grossartig." - Lovelybookblog Die MINDJACK Reihe Kiras Geschichte Gedankenspiele (Prequel) Open Minds - Gefährliche Gedanken (Buch #1) Closed Hearts - Gefährliche Hoffnung (Buch #2) Free Souls - Gefährliche Träume (Buch #3) Zephs Geschichte Der Schlosser (Prequel) Locked Tight - Gefährliches Misstrauen (Buch #4) Cracked Open - Gefährliche Spaltung (Buch #5) Broken Wide - Gefährliche Freiheit (Buch #6) Über die Autorin Susan Kaye Quinn wuchs in Kalifornien auf, wo sie schon als Schülerin Zettelchen mit Geschichten in der Klasse herumreichte. Ihre Lehrer gaben meistens vor, nichts davon mitzubekommen und beschlagnahmten ihre Arbeiten nur ein paar Mal. Sie ging einer Reihe von Ingenieursstudiengängen nach (Luft- und Raumfahrt, Maschinenbau, Umwelttechnik) und arbeitete in einer Menge von Streber-Jobs, unter anderem bei GE Aircraft Engines,

augmented humans to fight the ascenders—with herself as the next Offering. The ascenders are lining up in a death cult based on the charismatic ascender Eli accidentally released from storage—and all the restraints that have kept the ascender world in balance are now off. Everyone is rushing to be the first to bring a Second Singularity—to reach the numinous world from which Eli just returned—regardless of the cost. And the chaos and bloodshed of the first Singularity show just how high that cost can be. How can he stop the world from hurtling off the cliff when he's the one who proved there's something to reach, if only you could learn how to fly? The Last Mystic is the thrilling conclusion to the Singularity series. This philosophical, HopePunk sci-fi series explores the intersection of mind, body, and soul in a post-Singularity world. Keywords: Robots, androids, artificial intelligence, singularity, cyborg, spiritual, religion, AI, cyberpunk, dystopian

Decker Thorne learned early life-lessons on the streets of London, stealing to earn his way. That devil-to-pay existence does not prepare him for someone like Jonna Remington, a fiercely independent woman who is not impressed with his charm or cunning. As owner of Remington Shipping, what Jonna needs is Decker's deft touch at the helm of her finest clipper. With the Remington fortune riding on Decker's success, Jonna is vulnerable and beholding, and when her daring plan gives rise to new dangers, it is Decker who puts his life on the line to save hers. On board Huntress, the clipper she owns but where he is master, Decker can keep her safe from everyone but himself. As they make the Atlantic crossing from Boston to London, Jonna must decide how safe she wants to be, or if Decker has stolen the one thing she did not know she had to give...her own reckless heart. AWARDS: USA Today bestselling Author

REVIEWS: "...a fabulous read. Jo Goodman writes with a unique and impressive style" ~Virginia Henley "Jo Goodman hooks you and keeps you glued to the pages." ~Kat Martin "...a treasure. The characters are guaranteed to steal your heart." ~Lisa Jackson

THE THORNE BROTHERS TRILOGY, in series order: My Steadfast Heart My Reckless Heart With All My Heart

When mindreaders run the world, being a jacker makes you a weapon. Zeph can break open the toughest minds—or lock the weakest—which only means every Clan leader wants to own him. He did as he was told, kept his head down, and tried to shut out the screams. But when they came after his family, he hugged his kid sister goodbye and ran away to keep them safe. For two years, he's passed as a reader. Then his family disappears, readers start changing into super jackers, and Zeph is forced to return to a city filled with jackers who hate him. To find his family, he must trick a mindware CEO into helping him, avoid a girl who knows him too well, and spy on the most powerful jacker in the state. All without dying or revealing his abilities—or being caught in the firestorm of hate between jackers and readers that's threatening to pull the world apart. The bestselling Mindjack Series continues with an all new character and a world of mindreaders and mindjackers as you've never seen it before. LOCKED TIGHT is the first of three Mindjack novels from Zeph's perspective. (See The Locksmith for Zeph's origin story.) MINDJACK: KIRA Open Minds (Book 1) Closed Hearts (Book 2) Free Souls (Book 3) Mindjack Short Story Collection (Book 4) MINDJACK: ZEPH Locked Tight (Book 1) Cracked Open (Book 2) Broken Wide (Book 3) The Locksmith (Book 4) FORMATS AND TRANSLATIONS Mindjack available in ebook, print, audiobook, French and German LIVE ACTION TRAILER Voted Best Trailer at the 2014 Illinois

Humanity is trapped in a loop. As the world heats, it takes more energy to keep humanity from dying—a feedback loop that makes net-zero carbon increasingly impossible to reach. Akemi’s job on the Public Utilities Commission has its own daily disasters—making sure the infrastructure of civilization keeps running is the most thankless job on the planet. When a double event hits—heatwave plus viral breakout—keeping the power on is an all-out battle. It doesn’t help that he’s distracted by his elderly father, who was struck down and neuro-compromised by the same virus that killed his mother the year before. Now his father is living in Akemi’s attic. They’d never had a relationship before, and that was a fair description of the state of things now. Then an old friend’s daughter shows up with a mystery of physics... and a tale of stolen kilowatts and deadly intrigue. He would dismiss it outright, except she’s also the Regional Director of the power grid. Something isn’t right, and the Governor won’t accept excuses when the power goes out. Sometimes, you’re the right person in the right place, whether you want to be or not. Of Kindness and Kilowatts is the third of four tightly-connected novels in a new hopepunk series. It’s about our future, how the world is always more complicated than it seems, and how just when it seems like things couldn’t possibly get worse, they invariably do... and that’s when we discover kindness and quantum entanglement are what hold everything together. Keywords: hopepunk, climate fiction, Japan, Japanese American, Asian American, quantum physics, solarpunk, climate change, climate crisis, solar energy, green energy, clean energy, global warming, pandemic, plague, underwater adventure, kelp farming, fusion engineering, wind energy, literary science fiction, mystery, suspense, hard science fiction, dystopian, heroine's journey

Sneaking out of the palace wasn’t one of Aniri’s best ideas. But she’s the Third Daughter of the Queen of Dharia—zero responsibilities and zero royal duties. She’s just the backup daughter, in case her older sisters’ arranged marriages—to take the crown or broker an alliance—don’t quite work out. But once Aniri reaches her 18th birthday, she’ll be truly free... and then she can marry the charming fencing instructor she meets for fevered kisses in the forest. But then the impossible happens—a marriage proposal. From a barbarian prince in the north, no less. And if Aniri refuses, the threat of their new flying weapon might bring war. So she agrees to the young prince’s proposal, but only as a subterfuge to spy on him, find the weapon, and hopefully avoid both war and an arranged marriage to a man she doesn’t love. But once she arrives in the sweeping mountains of the north, she discovers the prince has his own secrets... and saving her country may end up breaking her heart. This Bollywood-style royal romance takes you to an alternate East Indian world filled with skyships, saber duels, and lots of royal intrigue. THIRD DAUGHTER is the first book in the Royals of Dharia trilogy.

"Steampunk fans will appreciate the airships, swordfights, illicit romance, fantastical technology, desperate escapes, last-minute rescues, and breathtaking scenery, all pulled together by a genuine sense of fun." - Publisher's Weekly "One of the Top 10 E-Romances for 2014." - Library Journal THE ROYALS OF DHARIA Third Daughter (Book One) Second Daughter (Book Two) First Daughter (Book Three) KEYWORDS:

The Mining Master of Thebe is all alone—not counting the scavenger drones, foundry nanites, and magtread tractors buzzing across the tiny Jovian moon. When a spindly tower of rocks mysteriously appears at the pole, it's enough to vex the Mining Master's machine intelligence like dust trapped in a harvester joint. Reporting it could mean reassignment to the Outer Belt, but probing deeper into the mystery threatens to unlock something better left... contained. Containment is a standalone short novella that takes place in the world of the Singularity novels. Start the novel series with The Legacy Human (Singularity 1). Keywords: Robots, androids, artificial, intelligence, singularity, cyborg, spiritual, religion, AI, cyberpunk, dystopian

Restorative Human Medical Care Unit 7435, sentience level fifty, is happiness level five out of ten to serve and heal the human master it loves. But Unit 7435 finds there is a price to be paid for love... and for failing in its primary mission. Restore is a standalone short story that takes place in the world of the Singularity novels. Start the novel series with The Legacy Human (Singularity 1). A NOTE FROM THE AUTHOR The future is... unsettling. Technology isn't just racing forward, it's accelerating. This isn't just our imagination, it's a natural consequence of innovation building upon innovation. The gap between what we can imagine and reality shrinks every day. Our relationship with technology is already one of the defining issues of the 21st century. As we integrate it ever-more-intimately into our lives and bodies and brains—as we mold our creations in our own image, not only physically, but mentally and emotionally—our tech will shape us in ways we will barely understand. The 21st century will challenge us to remember what it means to be only human. But creating a truly sentient Artificial Intelligence is far more complicated than first dreamed in Asimov's Bicentennial Man. As we learn more about the three pounds of meat and electricity between our ears, as well as consciousness itself, we are realizing how difficult the job is. In a sense, creating an AI will force us to answer some of the deepest questions humanity has ever asked... about ourselves and our place in the universe. What does it mean to create intelligence if you intentionally limit it? Is it cruel or compassionate to keep your tech from evolving above a certain sentience level? I hope Restore will provoke a bit of thought in your own personal set of three pounds of meat and electricity. Keywords: Robots, androids, artificial, intelligence, singularity, cyborg, spiritual, religion, AI, cyberpunk, dystopian, free science fiction

When your mind is a weapon, freedom comes at a price. Four months have passed since Kira left home to join Julian's Jacker Freedom Alliance, but the hole in her heart still whistles empty where her boyfriend Raf used to be. She fills it with weapons training, JFA patrols, and an obsessive hunt for FBI agent Kestrel, ignoring Julian's worries about her safety and repeated attempts to recruit her for his revolutionary chat-casts. When anti-jacker politician Vellus surrounds Jackertown with the National Guard, Kira discovers there's more to Julian's concerns than she knew, but she's forced to take on a mission that neither want and that might be her last: assassinating Senator Vellus before he can snuff out Julian's revolution and the

jackers she's come to love. The choice you make is the future you create. Climate-driven plagues haunt humanity, and it's Regional Director Zuri Hill-Gray's job to keep the clean-energy grid running. Zuri has the perfect life—a beautiful home on the Hillstead, a loving family, and a powerful job keeping the LA Basin's grid humming. If only she didn't see the ghost of her dead twin in the mirror. Her grief-counselor husband understands too much, her Aunties Cora and Vivian smother her to excess, and her mother can't look at her daughter without seeing the half that's missing. Zuri can't begin to face her sister's little daughter—to Ruby, Zuri is the ghost. Which is why she's running away to work, again, on the anniversary of her sister's death. Then a power engineer walks into Zuri's office and claims someone is stealing energy from Power Island One—and they've tried to kill her to cover it up. The more Zuri digs, the more it's clear someone's been tinkering in the shut-down fusion labs. They're going to dangerous lengths to hide it, and it's been happening right under her nose. Which is how Regional Directors lose their jobs. Zuri's already lost her better half—she can't afford to lose this, too. You Knew the Price is the second of four tightly-connected novels in a new hopepunk series. It's about our future, how society lives on invisible things, like electricity and trust, that are far too easy to break... and how our most difficult moments are often when we discover the only path forward is healing not just ourselves but the world. Keywords: hopepunk, climate fiction, Black novels, African American fiction, solarpunk, climate change, climate crisis, solar energy, green energy, clean energy, global warming, pandemic, plague, underwater adventure, kelp farming, fusion engineering, wind energy, literary science fiction, mystery, suspense, hard science fiction, dystopian, heroine's journey
