A first-hand exploration of the diverse roles music plays in people's lives. *My Music* is a first-hand exploration of the diverse roles music plays in people's lives. "What is music about for you?" asked members of the Music in Daily Life Project of some 150 people, and the responses they received — from the profound to the mundane, from the deeply-felt to the flippant — reflect highly individualistic relationships to and with music. Susan Crafts, Daniel Cavicchi, and Project Director Charles Keil have collected and edited nearly forty of those interviews to document the diverse ways in which people enjoy, experience, and use music. CONTRIBUTORS: Charles Keil, George Lipsitz.

In *Families* Jane Howard informally visits many dozens of families and tries to discover what makes the best ones work so well. Families are not dying, she finds, although they are evolving in various ways. From the tightest-knit nuclear family or extended clan to the most fragile new commune, the family in one guise or another remains everybody's most basic hold on reality. We may run away from our families as many do, but no sooner do we escape than we find another one, often very much like it. Millions of clans and families all over the United States continue to celebrate, quarrel, disband, reunite, and endure Jane Howard makes us realize how our lives are interwoven both with the families we are born into and with those we invent as we go through life.

Historically, it has been believed that Christian formation occurs primarily in the context of worship. Because both traditional and contemporary worship services are routinely structured around the skills of persuasive rhetoric and logic, most worship services effectively ignore the impact of experiential, embodied knowledge. Recent research in neuroscience has proven that humans are sensory-motor-emotional-thinking beings who learn best when body, brain, and emotions are simultaneously engaged. A fresh paradigm for teaching, brain-based learning, is proving to result in learning that is more memorable, more likely to result in long-term change in the behavior of the learner, and more likely to spur the learner to investigate the subject further. The Church needs to employ brain-based teaching methods in order to more effectively transmit the Gospel. Established in 1911, *The Rotarian* is the official magazine of Rotary International and is circulated worldwide. Each issue contains feature articles, columns, and departments about, or of interest to, Rotarians. Seventeen Nobel Prize winners and 19 Pulitzer Prize winners – from Mahatma Ghandi to Kurt Vonnegut Jr. – have written for the magazine. In this unique book, David Fillingim explores country music as a mode of theological expression. Following the lead of James Cone's classic, "The Spirituals and the Blues," Fillingim looks to country music for themes of theological liberation by and for the redneck community. The introduction sets forth the book's methodology and relates it to recent scholarship on country music. Chapter 1 contrasts country music with Southern gospel music--the sacred music of the redneck community--as responses to the question of theodicy, which a number of thinkers recognize as the central question of marginalized groups. The next chapter "The Gospel according to Hank," outlines the career of Hank Williams and follows that trajectory through the work of other artists

whose work illustrates how the tradition negotiates Hank's legacy. "The Apocalypse according to Garth" considers the seismic shifts occurring during country music's popularity boom in the 1980s. Another chapter is dedicated to the women of country music, whose honky-tonky feminism parallels and intertwines with mainstream country music, which was dominated by men for most of its history. Written to entertain as well as educate and advance, "Redneck Liberation will appeal to anyone who is interested in country music, Southern religion, American popular religiosity, or liberation theology. An appreciation of Rock-n-Roll, song by song, from its roots and its inspirations to its divergent recent trends. A work of rough genius; DeanOCO's attempt to make connections though time and across genres is laudable."

This beautiful book of essays, illustrated by Mississippi's premier watercolorist Wyatt Waters, will ring true with treasured recollections of Christmases past. Remember the Christmas it snowed on the Mississippi Coast? Glen Allison recalls that miracle. Richard Ford and Waters tell exactly what they felt when they first laid eyes on a bicycle left under the tree by Santa Claus. These Mississippians celebrate Christmas pageants, the decorating, the family dinners—even as they recognize war and loss as part of our lives and sometimes part of our holidays. Christmas Memories from Mississippi looks at the holidays from the early 20th century through the present and offers the celebrations from various points of view, both religious and secular. This book makes an ideal memento of shared traditions and lovingly extends the spirit of the season across the state's diversity.

Kelly Irvin, author of the Bliss Creek Amish series, brings the story of the New Hope Amish to a dramatic conclusion in *A Plain Love Song*. Adah Knepp wants nothing more than to make music. It's all she's ever desired--to sing and play the guitar and write her own songs. That's a dream that will never come true in the confines of her strict Amish community. But then she meets Jackson Hart, and all of a sudden she finds the chance for a different kind of life. A real stage, a real guitar, and a real opportunity to sing her songs to a real audience! But pursuing her dreams means turning her back on her family and community--and saying goodbye to Matthew, the gentle Amish farmer she can't get out of her mind. Is it worth giving up the only home she's ever known to pursue her dreams?

In this wide-ranging collection of essays, Pius Adesanmi explores what Africa means to him as an African and as a citizen of the world. Examining the personal and the political, tradition and modernity, custom and culture, Adesanmi grapples with the complexity and contradictions of this vast continent, zooming in most closely on Nigeria, the country of his birth. The inspiration for the title of the collection, *You're Not a Country, Africa*, comes from a line of poetry: 'You are not a country Africa, you are a concept, fashioned in our minds, each to each'. The Africa fashioned in our minds - with our fears and our dreams - is the Africa that the reader will encounter in these essays. Through narratives and political and cultural reflections, Pius Adesanmi approaches the meaning of Africa from the perspective that you never actually define Africa: rather, it defines you in various contexts and for various people.

Dolly Parton lends the lyrics of her classic song "Coat of Many Colors" to this heartfelt picture

appeared on TV at age 10. She began recording at age 13. 2) Dolly's mother was very musical and encouraged her to pursue music early on. Dolly's first song, which she wrote as a child, is "Little Tiny Tasseltop." It's based on handmade corn cob dolls. Her mother wrote down many of her childhood songs and saved them.

Country music legend Roland Kane's rural upbringing in the Smoky Mountains of Tennessee provides the backdrop for this special picture book. Using lyrics from her classic song "Coat of Many Colors," the book tells the story of a young girl in need of a warm winter coat. When her mother sews her a coat made of rags, the girl is mocked by classmates for being poor. But Parton's trademark positivity carries through to the end as the girl realizes that her coat was made with love "in every stitch.

In this volume, Gronas addresses the full range of psychological, social, and historical issues that bear on the mnemonic existence of modern literary works, particularly Russian literature. He focuses on the mnemonic processes involved in literary creativity, and the question of how our memories of past reading experiences shape the ways in which we react to literary works. The book also examines the concrete mnemonic qualities of poetry, as well as the social uses to which poetry memorization has historically been put to use. This study will appeal to scholars of cognitive poetics, Russian literature, and cultural studies.

This four-volume work provides provocative critical analyses of 160 of the best popular music albums of the past 50 years, from the well-known and mainstream to the quirky and offbeat.

From the middle of the 19th century to the end of the 20th, the garment industry was the largest manufacturing industry in New York City. For generations, the industry employed more New Yorkers than any other and was central to the city's history, culture, and identity. Today, although no longer the big heart of industrial New York, the needle trades are still an important part of the city's economy. In

this valuable book, historians, sociologists, and economists explore the rise and fall of the garment industry and its impact on New York and its people.

A history of country music includes discussions of the careers and recordings of musicians, such as Roy Acuff, Hank Williams, Johnny Cash, and Willie Nelson

A Concise Survey of Music Philosophy helps music students choose a philosophy that will guide them throughout their careers. The book is divided into three sections: central issues that any music philosophy ought to consider (e.g., beauty, emotion, and aesthetics); secondly, significant philosophical positions, exploring what major thinkers have had to say on the subject; and finally, opportunities for students to consider the ramifications of these ideas for themselves. Throughout the book, students are encouraged to make choices that will inform a philosophy of music and music education with which they are most comfortable to align. Frequently, music philosophy courses are taught in such a way that the teacher, as well as the textbook used, promotes a particular viewpoint. A Concise Survey of Music Philosophy presents the most current, prevalent philosophies for consideration. Students think through different issues and consider practical applications. There are numerous musical examples, each with links from the author's home website to online video performances.

Examples are largely from the Western classical canon, but also jazz, popular, and world music styles. In the last two chapters, students apply their views to practical situations and learn the differences between philosophy and advocacy.

"Hodges has written an excellent resource for those wanting a short—but meaningful—introduction to the major concepts in music philosophy. Applicable to a number of courses in the music curriculum, this much-needed book is both accessible and flexible, containing musical examples, tables and diagrams, and additional readings that make it particularly useful for a student's general introduction to the topic. I especially like the emphasis on the personal development of a philosophical position, which makes the material especially meaningful for the student of music." —Peter R. Webster, Scholar-in-Residence, Thornton School of Music, University of Southern California, USA

A patriotic argument for multiculturalism in America.

"Every time I hear stories about trials, tribulations and God's mercy and grace I stand in awe of His love for the whole world. Product of Love is not just another book to choke the already glutted shelves in bookstores; it is a true life adventure that needs to be read and passed around to as many people as possible... Thank you Dennis and Diana for sharing your soul with us...For those who take the time to read Product of love closely, and apply the lessons written on the pages, they are in store for some pleasant surprises..." Chuck Dean Author of "Nam Vet: Making Peace With Your Past" "I read the entire book in one long night! Great-Powerful-Wonderful. I can't see how anyone would not be deeply moved. Thanks for impacting my life" ... "This is real adventure as one moment you laugh, the next you weep, the next life's difficulties seem impossible then all works out in glory." "These are two people you will grow to feel close to. The end? The book is

not the end- they still go on with the Lord today," "Be blessed, read it! Give it to someone else." Arthur Blessitt

In this edited volume, science education scholars engage with the constructs of identity and identity construction of learners, teachers, and practitioners of science. Reports on empirical studies and commentaries serve to extend theoretical understandings related to identity and identity development vis-à-vis science education, link them to empirical evidence derived from a range of participants, educational settings, and analytic foci, examine methodological issues in identity studies, and project fruitful directions for research in this area. Using anthropological, sociological, and socio-cultural perspectives, chapter authors depict and discuss the complexity, messiness, but also potential of identity work in science education, and show how critical constructs—such as power, privilege, and dominant views; access and participation; positionality; agency-structure dialectic; and inequities—are integrally intertwined with identity construction and trajectories. Chapter authors examine issues of identity with participants ranging from first graders to pre-service and in-service teachers, to physics doctoral students, to show ways in which identity work is a vital (albeit still underemphasized) dimension of learning and participating in science in, and out of, academic institutions. Moreover, the research presented in this book mostly concerns students or teachers with racial, ethno-linguistic, class, academic status, and gender affiliations that have been long excluded from, or underrepresented in, scientific practice, science fields, and science-related professions, and linked with science achievement gaps. This book contributes to the growing scholarship that seeks to problematize various dominant views regarding, for example, what counts as science and scientific competence, who does science, and what resources can be fruitful for doing science.

Dolly Parton is instantly recognizable for her iconic style and persona, but how did she create her enduring image? Dolly crafted her exaggerated appearance and stage personality by combining two opposing stereotypes—the innocent mountain girl and the voluptuous sex symbol. Emerging through her lyrics, personal stories, stage presence, and visual imagery, these wildly different gender tropes form a central part of Dolly's media image and portrayal of herself as a star and celebrity. By developing a multilayered image and persona, Dolly both critiques representations of femininity in country music and attracts a diverse fan base ranging from country and pop music fans to feminists and gay rights advocates. In *Dolly Parton, Gender, and Country Music*, Leigh H. Edwards explores Dolly's roles as musician, actor, author, philanthropist, and entrepreneur to show how Dolly's gender subversion highlights the challenges that can be found even in the most seemingly traditional form of American popular music. As Dolly depicts herself as simultaneously "real" and "fake," she offers new perspectives on country music's claims of authenticity.
