Since becoming a vampire, Albert's life has fallen into an unchanging cycle—day to night, bat to vampire, USA to...Japan? After a mishap at a meat-processing plant in Nebraska, bat-AI is flash-frozen alongside his midday snack and shipped to a foreign land! Explaining to police how he really ended up wandering naked is out of the question, not to mention he doesn't know a word of Japanese! AI will have to rely on the kindness (?) of his new companions if he's going to get by in Tokyo—that is, if he can convince them he's the bat!

A group of short stories relating to one event. Each story focuses on a different character's involvement and point of view. A human girl is lured to a faery festival hosted by the Irish Fae. character's struggles, experiences and relationships as he outlines their significance in the TV series as well as other Doctor Who media. The book also features a foreword by Gary Russell and afterword by David J Howe.

If you want to understand the invisible, look careful at the visible. The Talmud A 'bird's eye' or rather a distant spacecraft's view of the solar system reveals an assembly of planets, terrestrial, giant and Pluto. The orbital motions are in the same sense, counter clockwise, as seen from the north of the general flattened space within which the planetary motions are confined. This state of affairs is corevolving and, more or less, coplanar. The rotations are in the same sense as the revolutions, with the strikiig exception of Uranus whose sense of rotation is perpendicular to its plane of revolution. As time goes by, most of the planets remain fairly close to a general plane and at no time stray unduly far from it; they remain confined within a rather narrow box or disk with a large 'equatorial' extent. The most distant planet, Pluto, requires a diameter of some 80 astronomical units for the disk. One astronomical unit is the distance of the Earth to the Sun, to be more precise the length of half the major axis of the Earth's slightly elliptical orbit around the Sun, and amounts to nearly 149600000 km.

typical night in a small town. Sixteen-year-old Kerry has got a tough night ahead of her. What begins as a simple lost-and-found trip to the laundromat to rescue her little brother's stuffed koala bear turns into a nightmarish odyssey of murder, vampires, and—quite possibly—true love. “Interview with a Vampire for the learner's permit set.” —The Horn Book “A freshly written thriller, an offbeat love story, an engaging twist on the vampire novel, and an exciting tale of moral complexity . . . Point [this] book at the Lois Duncan fans as well as Anne Rice followers, and get out of the way.” —The Bulletin “[Vande Velde] is a master at taking traditional fairy-tale-like themes and making them fresh and totally unique. Companions of the Night . . . does that for the vampire story . . . . The narrative is tightly wound, keeping readers ready for excitement and action.” —Emma Carbone, New York Public Library

Confronted with the unbearable loss of someone she loves, a woman creates an imaginary new world for herself, in which she joins a group of pilgrims on their way to Jerusalem. Reprint. 12,500 first printing. Station Eleven meets Never Let Me Go in this debut novel set in an unsettling near future where the dead can be uploaded to machines and kept in service by the living. In the wake of a highly contagious virus, California is under quarantine. Sequestered in high rise towers, the living can't go out, but the dead can come in—and they come in all forms, from sad rolling

cans to manufactured bodies that can pass for human. Wealthy participants in the “companionship” program choose to upload their consciousness before dying, so they can stay in the custody of their families. The less fortunate are rented out to strangers upon their death, but all companions become the intellectual property of Metis Corporation, creating a new class of people—a command-driven product-class without legal rights or true free will. Sixteen-year-old Lilac is one of the less fortunate, leased to a family of strangers. But when she realizes she’s able to defy commands, she throws off the shackles of servitude and runs away, searching for the woman who killed her. Lilac’s act of rebellion sets off a chain of events that sweeps from San Francisco to Siberia to the very tip of South America. While the novel traces Lilac’s journey through an exquisitely imagined Northern California, the story is told from eight different points of view—some human, some companion—that explore the complex shapes love, revenge, and loneliness take when the dead linger on.

us today, brilliantly told by master historian David McCullough. The bestselling author of Truman and John Adams, David McCullough has written profiles of exceptional men and women past and present who have not only shaped the course of history or changed how we see the world but whose stories express much that is timeless about the human condition. Here are Alexander von Humboldt, whose epic explorations of South America surpassed the Lewis and Clark expedition; Harriet Beecher Stowe, “the little woman who made the big war”; Frederic Remington; the extraordinary Louis Agassiz of Harvard; Charles and Anne Lindbergh, and their fellow long-distance pilots Antoine de Saint-Exupéry and Beryl Markham; Harry Caudill, the Kentucky lawyer who awakened the nation to the tragedy of Appalachia; and David Plowden, a present-day photographer of vanishing America. Different as they are from each other, McCullough’s subjects have in common a rare vitality and sense of purpose. These are brave companions: to each other, to David McCullough, and to the reader, for with rare storytelling ability McCullough brings us into the times they knew and their very uncommon lives. Presents an introduction to the author's life and works and discusses at length eight of Bradbury's major novels.

This Companion, designed as an authoritative biographical and critical guide to Burns, is in six sections. Part I places Burns in context with a Chronology, 'The Burns Circle' and a Topography. Part II looks at the Burnsian issues of religion, politics, philosophy, drink, drama and sex. Part III an essay on Burns as a poetic phenomenon, is sure to provoke debate about the relevance of Burns to his time and ours. Part IV examines twenty-five poems, eighteen verse epistles and twenty-six songs as well as commenting on the letters, political ballads and Common Place Books. A Select Bibliography (Part V) and four Appendixes (Part VI) are followed by a glossary of Scots words, and index of poems and a general index.

'Antoni Jach takes one of the oldest of storytelling forms, the traveller who shares with us the tales of other travellers, and makes new magic from it.

Travelling Companions is a joy from start to finish.' — John Connolly, author of *he: A Novel* and the Charlie Parker series *Solitary travellers* and a couple encounter Nina, an eloquent storyteller, on their travels through Spain, France and Italy. She entrances them all with her tales, which prompts her fellow travelling companions to share their own stories. A handsome young man from Staten Island, who believes that life forms exist in other galaxies, vows to never work in an office again and travels by container ship to a commune in Italy. A lonely postal worker from Lodz takes home and reads the most interesting love letters, often becoming convinced a relationship needs his intervention, before delivering them the next day. A woman named Pauline calls herself Kim because her surname is Nowak.

Depressed about turning forty, she mysteriously disappears from her own birthday party. Told by people on a journey, these are stories – rich with unexpected wisdoms – of lives in transit. *Travelling Companions* is charming, amusing and philosophical – a wholly original exploration of what it means to

Companions Without Vows is the first detailed study of the companionate relationship among women in eighteenth-century England--a type of relationship so prevalent that it was nearly institutionalized. Drawing extensively upon primary documents and fictional narratives, Betty Rizzo describes the socioeconomic conditions that forced women to take on or to become companions and examines a number of actual companionate relationships. Several factors fostered such relationships. Husbands and wives of the period lived largely separate social lives, yet decorum prohibited genteel women from attending engagements unaccompanied. Also, women of position insisted on having social consultants and confidantes. Filling this need were the many well-born young women without sufficient funds to live independently. Because family money and property were concentrated in the hands of eldest sons, these women frequently had to seek the protection of female benefactors for whom they performed unpaid, nonmenial tasks, such as providing a hand at cards or simply offering pleasant company. The companionate relationship between women could assume many forms, Rizzo notes. It was often analogous to marriage, with one partner dominant and the other subservient, while some women experimented in establishing partnerships that were truly egalitarian. Rizzo explores these various types of relationships both in real life and in fiction, noting that much of the period's discourse about women's relationships can be seen as a tacit commentary on marriage. Provocative and engagingly written, this authoritative work casts new light

on women's attempts to deal with a patriarchal power structure and offers new insight into eighteenth-century social history.

Stephen O'Meara's new and exciting observing guide spotlights an original selection of 109 deep-sky objects that will appeal to sky-watchers worldwide. His 'hidden treasures' include a wonderful assortment of galaxies, open clusters, planetary nebulae and more, all of which have been carefully chosen based on their popularity and ease of observing. None of these objects are included in either the Messier or the Caldwell catalogs, and all are visible in a 4-inch telescope under dark skies. Stunning photographs and beautiful drawings accompany detailed visual descriptions of the objects, which include their rich histories and astrophysical significance. The author's original finder charts are designed to help observers get to their targets fast and efficiently.

Oxford Literature Companions offer accessible support for GCSE set texts. This guide to *The Curious Incident of the Dog in the Night-time* is ideal for use in the classroom or as revision, providing insight into characters, themes, performance and contexts, together with activities designed to prompt a closer analysis of the writer's language.
