Benjamin Capps has been called the Texas author whose work will be read 100 years from now, but Clayton notes that Capps has not been the frequent subject of nationally disseminated critical interpretation, perhaps because he is an anomaly—a writer of serious, literary fiction set in the West. Notable are Capps's perceptive characterizations and his use of historical background and folklore. This is a translation (8th edition-2015) of The Aramaic New Testament (Aramaic was the language of Jesus and his countrymen of 1st century Israel) in an English prose translation of The Peshitta New Testament with Psalms & Proverbs at the end. This translation is derived from the author's Aramaic-English Interlinear New Testament + Psalms & Proverbs interlinears. Aramaic was used in Mel Gibson's film "The Passion of the Christ" to make the film as realistic and accurate as possible. This New Testament will surprise and thrill the reader with its power and inspiration coming from the words of "Yeshua" (?Jesus? in ancient Aramaic) as He originally spoke them, in a literal, accurate and readable English rendering. Abundant documentation of the Aramaic Peshitta as the original NT is included. 609 pages in B&W. 6 x 9" Hardcover. The author's web site is aramaicnt.com

Putting Greek writer Nikos Kazantzakis's output into the context of his lifelong spiritual quest and the turbulent politics of 20th century Greece, this title argues that he was a deeply flawed genius. It covers his life after 1938, the period in which he wrote 'Zorba the Greek' and 'The Last Temptation of Christ'.

Risk is not a one-dimensional problem cured by a single dose of diversification. It's a multidimensional problem, and diversification's passive risk reduction is only just the start. At least since Markowitz developed Modern Portfolio Theory 65 years ago, risk has generally been measured as the standard deviation from average return. However, Behavioral Economics (and even the dictionary) say risk is really about the loss of value, which is quite different from volatility. Risk has at least seven unique faces, including (1) Single-Stock Risk, (2) Market Volatility, (3) Bear Market Crash, (4) Momentum Loss, (5) Backtesting Deception, (6) Strategy Hired/Fired Late, and (7) Retirement Savings Will Not Be Enough. The elephant in the room for the majority of people facing retirement is a serious retirement savings shortfall - which makes their most serious risk about earning sufficient returns. Fortunately, a Royal Society Fellow, a National Medal of Science winner, and a trio of Nobel Laureates have laid the foundation for active risk reduction and forever changed the game. This book intends to shake the very foundation of the sleepy momentum mono-culture that seems happily mired in decades-old, simplistic, risk models that not only fail to treat momentum as the multi-faceted problem it is, but also fail to consider fundamental signal processing methods (older than Modern Portfolio Theory) that reduce the "random walk" part of the signal and improve the probability of making a better investment choice. The good news is two-fold: (1) the book's principles and methods are described in a manner most ordinary investors will easily grasp, and (2) while it is truly complicated under the hood (like my car), software tools make it easy to drive. So, buckle up, turn the page, and let's go for a ride!

The present Dictionary is designed to meet the long-felt need of the English knowing reader, who is interested in the study of classical as well as modern Sanskrit. It covers a very large field—epics such as the Ramayana and Mahabharata, Puranas and Upapuranas, Smṛti and Nīti literature, Darsanas or Systems of Philosophy, such as Nyaya, Vedānta, Mīmāṃsā, Sāṅkhya and Yoga, Grammar, Rhetoric, Poetry in all its branches, Dramatic and Narrative literature, Mathematics, Medicine, Botany, Astronomy Music and other technical or scientific branches of learning. Thus it embraces all words occurring in the general post-Vedic literature. It includes most of the important terms in Grammar. It gives quotations and references to the peculiar and remarkable meaning of words, especially such as occur in books prescribed for study in the Indian and foreign universities. It also renders explanation of important technical terms occurring in different branches of Sanskrit learning. To add to its usefulness,

The history of Bible translation within the Catholic Church is characterized by a rich tradition of rendering the Scriptures into the language of the faith community. The CCNT features eight complete Catholic New Testaments that show the full range of expression for this central text of study, worship, prayer, and contemplation. A wide spectrum of people - including new and experienced Bible readers, homilists, and teachers - will gain from having this resource on their bookshelves. The Douay-Rheims, RSVCB, NRSVCB, and NAB are called formal equivalent translations (popularly referred to as "word-for-word" translations). This means that scholars rendered the New Testament's original language into English that is as close as possible to its original wording. The result is a translation that is particularly valuable for careful analysis of the text. Meanwhile, the JB, GNB, NJB, and Christian Community Bible represent the "thought-for-thought" school of Bible translation (technically described as dynamic or functional equivalent). This method places the priority on the intended meaning of the original vocabulary, adapting it to English syntax and grammar. Such a translation tends to be easier to read and understand. The texts are conveniently displayed on facing pages (four translations per page), with the same set of verses on each one. The order in which the translations appear on the pages demonstrates a progression in translation philosophy from formal to functional equivalency.

Selected from rare portfolios, this collection of 256 sacred Christian motifs will spark ideas for an array of inspirational projects. The finely detailed, black-and-white illustrations include angels, saints, and a variety of biblical images — the Good Shepherd, the serpent in the Garden of Eden, St. Mark as a winged lion, and more.

Both novice and expert fundraisers will find this framework a valuable supplement to existing strategies and techniques.

Bill Mosley believes the book of Revelation has had a bad rap--while it has the reputation of being a gloomy diatribe about a terrible Day of Judgment and Wrath, it is actually full of action and praise of God. Paradise Restored is a set of 15 practical and positive meditations that invites readers to take a new look at this most misunderstood book in the Bible. Focusing on how Revelation proclaims the cross and celebrates salvation rather than on dreary apocalyptic adventures, these uplifting messages emphasize the message of Christ's redemptive power that lies at the core of all its colorful symbolism. Paradise Restored provides a complete integrated preaching program that ties together the Lenten pilgrimage with the Easter celebration. Seven sermons for Ash Wednesday and Lent examine each of the letters to the seven churches in Asia Minor that comprise the second and third chapters, while additional messages for Good Friday and the seven Sundays of Easter are based on other texts from Revelation (mostly lectionary pericopes). John's vision thus moves from the practical considerations of the seven churches to the glorious sight of the New Heaven and the New Earth. But this book isn't only for preachers--it's also great for devotional reading or as a user-friendly way to dip your toes in the book of Revelation.

There is a widespread consensus amongst people in business that the future can't be an extrapolation of the past. What's more, organizational life today is complex, often unpredictable, volatile, high risk and at the same time full of opportunities never dreamt of before. However, companies are by and large still hooked on the old sets of skills and competences that worked well for many years. A small percentage of the workforce has the key to success. A selected group of managers make all the difference. In the current business environment, success requires different skills, different mental models and different approaches to reality. Some of those new skills are counterintuitive and not often described in job advertising pages. This is a self-perpetuating way of producing perhaps moderate success. But a quantum leap can only be obtained by an 'internal engine' of people who think and behave differently. You can't afford to ignore the question of who these people are or where they may be, whether you have them

already or whether you need to find them! New Leaders Wanted explores those new mental models and new skills that, together, have the power to create the conditions for success in the modern organization. It maps the 12 kinds of people that can literally make or break a company's success and will guide you in your search to find those people. New Leaders Wanted will help you create the conditions for extraordinary success in your organization.

* A well-loved, classic tale of adventure * Read this and you'll find yourself recommending it to friends again and again This is the story of Barbara and Larry Savage's sometimes dangerous, often zany, but ultimately rewarding 23,000 miles global bicycle odyssey, which took them through 25 countries in two years. Miles From Nowhere is an adventure not to be missed! Along the way, these near-neophyte cyclists encountered warm-hearted strangers eager to share food and shelter, bicycle-hating drivers who shoved them off the road, various wild animals (including a roof ape and an attack camel), sacred cows, rock-throwing Egyptians, overprotective Thai policeman, motherly New Zealanders, meteorological disasters, bodily indignities, and great personal joys. The stress of traveling together constantly for two years tested and ultimately strengthened the young couple's relationship. As their trip ends you'll find yourself yearning for Barbara and Larry to mount back up and keep pedaling. It's a story that makes you feel like you've grown right along with the author.

Biographical novel of the controversial wife of John C. Fremont. Quick-tempered, strong-willed, and fiercely in love with her husband, Jessie aided him in his great accomplishments.

High on a remote butte, a young Sioux waits. Though daring in battle, skillful, and strong, he cannot be a man until his spiritual vision comes. When it appears, he must interpret it correctly to know who he is, and he must deserve it, or continue to be called No Name. No Name has his vision, a glowing white mare who walks among the stars. She tells No Name his destiny and how to achieve it. He must pass through hostile camps, storm, and fire, risk his life many times to become Conquering Horse, chief of the Sioux.

Conquering Horse is the first of Frederick Manfred's five volume series, the Buckskin Man Tales.

While full victory in that challenge has been slow to come, Diversity in Mind and in Action makes it clear that there are success stories to be shared?and new avenues to be spotlighted.
