Have you ever questioned God's righteousness and judgment? If you have ever wondered why something bad happened to someone good, then the answer is yes, and that probably means the book of Job has often left you puzzled. Ezekiel makes reference to a righteous man named Job, and scholars have often assumed this Job and the protagonist of the book of Job were one in the same. But once he's subjected to dreadful trials and tribulations, does Job truly behave in a manner that would please God? Has the intended message of Job been distorted? God Always Makes Sense will challenge your belief in Job's character and renew your confidence in God's righteousness. Join Naomi Westbrook Martinez in this illuminating study of the book of Job to discover new and fresh lessons about how we should respond to life's trials.
