Uncover the captivating history of the highest-performance cars in America, illustrated with beautiful photography. The American muscle car began not in the factories of the big three automakers, but in the garages and dealerships of a hot-rod subculture bent on making the hottest, highest-performance cars on the street. The Complete Book of American Muscle Supercars catalogs these amazing cars, along with the builders who unleashed them on the American scene. From Michigan's Royal Pontiac dealership and the souped-up Royal Pontiac Bobcats they built and sold, to the new cars from such fabled names as Carroll Shelby, Mr. Norm's Grand Spaulding Dodge, Nickey Chevrolet, Don Yenke, George Hurst, Baldwin-Motion, Calloway, SLP, and Steve Saleen. This gorgeously illustrated book chronicles the outstanding contribution of the tuner/builder to American automotive history through the amazing machines they created. From the oldest of these muscle tuners commanding top dollar at today's classic-car auctions, to the latest vehicles by Ford and Chrysler, with their SVT and SRT divisions, this book gives readers a full and fascinating look at American high-performance in its purest form.

The book covers my life growing up as a child in a poor neighborhood helping my single parent mom raise six sisters and brothers. I never lost sight of the challenges facing my family and doing whatever was necessary to help. Working after school was mandatory for our existence. I later went on to earn a BS in Electrical Engineering from Tennessee State University and and a Masters degree in Industrial Engineering from the University Of Toledo. I handled the opportunities as they presented them selves. The Corvette was suffering from poor quality and low customer satisfaction when I arrived and at my retirement we had achieved the highest quality and customer satisfaction ever experienced. August 29, 2013, I am being inducted into the Corvette Hall Of Fame of the National Corvette Museum.
