Organized by such common subject categories as home, health, and work, a colorful, illustrated bilingual dictionary covers more than six thousand words and phrases.

Peterson's Graduate Programs in Engineering & Applied Sciences contains a wealth of information on colleges and universities that offer graduate degrees in the fields of Aerospace/Aeronautical Engineering; Agricultural Engineering & Bioengineering; Architectural Engineering, Biomedical Engineering & Biotechnology; Chemical Engineering; Civil & Environmental Engineering; Computer Science & Information Technology; Electrical & Computer Engineering; Energy & Power engineering; Engineering Design; Engineering Physics; Geological, Mineral/Mining, and Petroleum Engineering; Industrial Engineering; Management of Engineering & Technology; Materials Sciences & Engineering; Mechanical Engineering & Mechanics; Ocean Engineering; Paper & Textile Engineering; and Telecommunications. Up-to-date data, collected through Peterson's Annual Survey of Graduate and Professional Institutions, provides valuable information on degree offerings, professional accreditation, jointly offered degrees, part-time and evening/weekend programs, postbaccalaureate distance degrees, faculty, students, degree requirements, entrance requirements, expenses, financial support, faculty research, and unit head and application contact information. As an added bonus, readers will find a helpful "See Close-Up" link to in-depth program descriptions written by some of these institutions. These Close-Ups offer detailed information about the specific program or department, faculty members and their research, and links to the program Web site. In addition, there are valuable articles on financial assistance and support at the graduate level and the graduate admissions process, with special advice for international and minority students. Another article discusses important facts about accreditation and provides a current list of accrediting agencies.

Para quem precisa se preparar para prestar o exame de proficiência TOEFL (Test of English as a Foreign Language), seja como pré-requisito para ingressar em curso de graduação, especialização, MBA, mestrado acadêmico, doutorado ou pós-doutorado no exterior, é sabido que existe uma miríade de guias de estudo. No entanto, no mercado editorial (sobretudo em português) há uma carência de títulos que exponham com clareza e objetividade como se preparar adequadamente para prestar este exame, sobretudo para quem opta pelo estudo independente, mas não exclusivamente. Escrito por quem efetivamente prestou o exame em duas ocasiões e obteve pontuação elevada em ambas, este livro tem por objetivo compartilhar esta experiência em uma linguagem acessível e de fácil assimilação que mais se parece com uma conversa entre amigos e muito menos um denso tratado acadêmico.

"Biomedical Graduate School: A Planning Guide to the Admissions Process is an indispensable resource for college students aspiring to a PhD or MD-PhD. It helps students identify the structure of advanced degree programs and how these degrees can enhance their potential career options. The book discusses how students can optimize selection of academic courses, research experiences, and extracurricular

activities during their undergraduate education to make them more competitive candidates for graduate and medical school programs. It guides students through the many facets of the admissions process, including criteria for selecting where to apply, how to prepare an application that maximizes their academic credentials, how to prepare for the interview process, how faculty evaluate applicants, and how to utilize a rational process to select a graduate school or medical school that will enable students to meet their academic goals." -- Back cover.
