But sport also needs numbers. Without them, we have no idea who has won. We need numbers to tell which team is top of the table, or who is the world champion. Sports Geek is a visual and numerical tour through sporting debates and ideas. Teams in all sports use data to create extraordinary analysis of how their players perform, to assess tactics and to get an edge over arch rivals; but fans are rarely presented with challenging and informative data that would help them to further understand sport. You'll never see sport the same way again.
