

## Czerny Selected Piano Studies Vol 1 Alfred Masterwork

As there are several hundred piano studies by Czerny, it might become confusing to attempt to pick out the most effective exercises. To overcome this problem, Heinrich Germer, the original editor, chose those he thought were best. Willard A. Palmer has made several changes to metronome markings, fingerings and pedal indications where he felt certain passages needed clarification.

Book 4 is filled with tuneful and challenging etudes that are sure to please while focusing on specific concepts such as melody voicing in chords, tone production, phrase shaping with disjunct melody, chord leaps, arpeggios, trills, melody shared between the hands, chromatic scales, parallel motion scales, shaping melody in a complex texture, octave tremolos and so on. Composers featured are J. C. Bach, Burgmüller, Gurlitt, Reinhold, Gasparini, Rebikov, Czerny, Streabbog, Schumann, Duvernoy and more. Polish composer Moritz Moszkowski (1854-1925) wrote brilliant piano music similar to the early-Romantic style of Chopin, Mendelssohn and Schumann. Written for advancing pianists, each etude is a study in drama, mood and expression as well as finger technique. Hinson's edition contains a biographical sketch of the composer, a discussion of his style, and a helpful performance analysis of each etude.

Mozart's four sonatas for one piano, four hands, are the first important works in the piano duet literature. This carefully researched edition contains historical information, in-depth notes on performing Mozart's piano music, editorial fingering and metronome marks, as well as realizations of many ornaments. Titles: \* Sonata in D Major, K. 381 (123a) \* Sonata in B-flat Major, K. 358 (186c) \* Sonata in F Major, K. 497 \* Sonata in C Major, K. 521

Book 3 includes attractive musical etudes by Carl Czerny, Johann F. Burgmüller and Stephen Heller and select exercises by Charles-Louis Hanon. The studies are organized into four units, each focusing on mastering a particular skill. Performance suggestions for each study are included, along with composer biographies and suggested practice alternatives for the Hanon etudes. Includes 16 studies by Czerny, 5 by Burgmüller (including "The Pearls" and "The Storm"), and 8 by Heller (including "Through Wind and Rain" and "Novelette"). 80 pages.

Czerny's Op. 718 is a set of 24 studies that emphasize training of the left hand. The work is not a collection of left-hand solo studies as one might guess from the title, though it focuses on the dexterity of the left hand. The studies include the following types of technique: scales, double thirds, full (four-note) chords, arpeggios, skips, melody and accompaniment in the left-hand part, and many others.

Op. 261 is a set of studies that covers a wide range of technical problems in a short, clear manner. They are appropriate for both early and advanced pianists. Techniques include arpeggios, change of fingers on repeated notes, change of hand position, chords, and many others. This collection is very suitable for students with small hands because exercises in octave playing are not included.

Brahms brilliantly captured the spontaneity and passion of Hungarian gypsy music in his 21 Hungarian Dances. In this volume containing the first 10 dances, editors Carol Ann Bell and Digby Bell have scrutinized all available autograph manuscripts of the duet, solo and orchestral versions and compared them with the earliest printed editions to produce the most scholarly, critical body of these works available today. Performance notes, helpful fingering suggestions, ornament realizations, and a wealth of historical background are provided.

Because it deals effectively and practically with technical problems found in virtuoso keyboard music, Op. 849 has remained one of the most widely used of Czerny's collections. Each of the 30 exercises for advanced level pianists is preceded by instructions on how it should be played and the specific goal of that exercise. This book is a necessary tool for practicing pianists. 64 pages.

This Masterwork collection, edited by Maurice Hinson, contains performance analysis for each of the 20 studies.

Biographical and historical information are also included. 56 pages.

Split into two volumes (item 29 and 107), this edition concentrates on areas of performance practice such as dynamics, expressive character, fingering, ornamentation, phrasing, rhythmic treatment and tempo. This collection has been compiled for intermediate to moderately advanced students, and to assist the teacher and performer, utilizes four levels of grading (early intermediate, intermediate, late intermediate and early advanced.)

With a steady progression of difficulty, these rigorous studies also strengthen the hand, build greater flexibility and enhance finger dexterity. The exercises are transposed and written out in every key. Notations for fingering, dynamics and tempo have been included by the editor.

Etudes are musical compositions that focus on improving technique. Book 1 in this series features high quality elementary piano

etudes by famous pianist-teachers in a variety of styles. Each etude is prefaced with useful composer facts and practice advice. Technical study at the elementary level is characterized by playing in parallel motion and contrary motion in five-finger patterns, simple hands-together coordination, two-note slurs, three-note slurs, basic articulations (staccato, legato, repeated notes), broken chords, and more.

Scriabin was the precursor of many trends in 20th-century music-chord clusters, melodic fragmentation, serialism, and the psychedelic combination of sounds and colors now called "mixed media." In this compilation of 30 contrasting pieces, the editor has included notations on fingering, pedaling and phrasing.

This edition contains 13 of the most beautiful and useful movements from Beethoven's most popular sonatas. These intermediate to early advanced piano sonata movements are expertly edited by Dr. Maurice Hinson. This volume includes helpful performance suggestions, a suggested order of study, and editorial markings that are easily distinguished from Beethoven's notations.

Re-engraved, corrected editions by Artur Schnabel, with Schnabel's notes and comments in five languages. Volume One contains Sonatas One through Seventeen and Volume Two contains Sonatas Eighteen through Thirty-Two.

Vorschule Im Klavierspiel, Op. 101, by Ferdinand Beyer (1803--1863) was first published in 1860. Since that time, it has been used by piano students throughout the world, especially in Asian countries. When compared with piano methods written in the 20th and 21st centuries, it appears more like a technique book than a piano method. This edition has been edited to be useful for today's piano students, either as a method (with teacher guidance) or as a supplementary book.

This collection contains some of the greatest melodic treasures from the piano repertoire, with special emphasis on Chopin, Grieg, Schubert and Tchaikovsky. The collection is organized in progressive order of difficulty, beginning with easier selections and progressing to the more difficult.

When pupils are assigned good-quality etudes, their technique improves dramatically. Book 2 in this series features late elementary piano etudes by such noted composers as Czerny, Gurlitt, Köhler, Löschnorn, Rebikov and Schytte. The compilation concentrates on level-appropriate essentials such as shaping phrases with two and three voices, playing a left hand melody with right hand chords, extended hand positions, melodic octaves, Alberti bass, descending scales and more. Each etude is prefaced with concise composer facts and helpful practice advice.

In 1845, Robert Schumann embarked on an intense course of contrapuntal studies. This led him to rent a pedalboard attachment for his piano, inspiring him to write pieces specifically for pedal piano, including these etudes. The great French composer Georges Bizet arranged the Six Etudes in Canon Form, Op.56 for one piano, four hands. These etudes are not simply technical finger exercises like Hanon or Czerny, but true works of art like the Chopin etudes. They make wonderful music while working the muscles of the hands and fingers.

Norwegian composer Edvard Grieg wrote many small masterpieces. Included in this 144-page edition are 45 of his most popular and useful works, including "Anitra's Dance," "Peer Gynt Suite,": "March of the Dwarfs," and "Wedding-Day in Troldhaugen." Fingering, phrasing, pedaling and dynamics that underscore the musical structure have been added by editor Henry Levine. Included is a very insightful biography on Grieg as well as a thematic index.
