Silent short films practically vanished from the movie screen with the advent of sound. Despite their relatively short existence, an enormous number of them were made, and on a very wide range of topics. Presented in this book, reorganized, are the extensive working papers of Richard E. Braff (at the time of his death in 2001) detailing split-reel and one, two, and three reel films produced or released in the United States between 1903 and 1929--over 25,000 films in all. It lists (in alphabetical order) short silent films that have cast or production credits. Each entry includes to the extent possible the following elements: title, release date, producing company, director, script writer, author of story, length of film in reels, and cast credits.

The Code of Federal Regulations is the codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government.

ICSE Geography is a series based on the latest syllabus for ICSE schools. They cover all aspects of the subject, such as practical geography, continents and water bodies, their physical features, climate, natural vegetation, resources, utilization and life of the people. Large-sized maps make learning geography a hands-on experience. Exercises on the pattern of the board exams will help children to prepare for them.

Special edition of the Federal Register, containing a codification of documents of general applicability and future effect ... with ancillaries.
