From the acclaimed author of the Morgan Kingsley, Exorcist books comes the gripping first novel in a new series about a private eye who discovers, to her surprise, that she's an immortal huntress. Nikki Glass can track down any man. But when her latest client turns out to be a true descendant of Hades, Nikki now discovers she can't die. . . . Crazy as it sounds, Nikki's manhunting skills are literally god-given. She's a living, breathing descendant of Artemis who has stepped right into a trap set by the children of the gods. Nikki's new "friends" include a descendant of Eros, who uses sex as a weapon; a descendant of Loki, whose tricks are no laughing matter; and a half-mad descendant of Kali who thinks she's a spy. But most powerful of all are the Olympians, a rival clan of immortals seeking to destroy all Descendants who refuse to bow down to them. In the eternal battle of good god/bad god, Nikki would make a divine weapon. But if they think she'll surrender without a fight, the gods must be crazy. . . .

This book examines how African-American writers and visual artists interweave icon and inscription in order to re-present the black female body, traditionally rendered alien and inarticulate within Western discursive and visual systems. Brown considers how the writings of Toni Morrison, Gayl Jones, Paule Marshall, Edwidge Danticat, Jamaica Kincaid, Andrea Lee, Gloria Naylor, and Martha Southgate are bound to such contemporary, postmodern visual artists as Lorna Simpson, Carrie Mae Weems, Kara Walker, Betye Saar, and Faith Ringgold. While the artists and authors rely on radically different media—photos, collage, video, and assembled objects, as opposed to words and rhythm—both sets of intellectual activists insist on the primacy of the black aesthetic. Both assert artistic agency and cultural continuity in the face

of the oppression, social transformation, and cultural multiplicity of the late twentieth and early twenty-first centuries. This book examines how African-American performative practices mediate the tension between the ostensibly de-racialized body politic and the hyper-racialized black, female body, reimagining the cultural and political ground that guides various articulations of American national belonging. Brown shows how and why black women writers and artists matter as agents of change, how and why the form and content of their works must be recognized and reconsidered in the increasingly frenzied arena of cultural production and political debate.

This comprehensive textbook, intended for graduate students in couple and family therapy programs as well as for clinicians of diverse orientations, offers descriptive discussions of sex therapy based on the Intersystem Approach, as developed by Gerald Weeks. The Intersystem Approach considers the biology, psychology, couple dyad, family-of-origin, and larger contextual factors of any sexual disorder or issue. It is grounded in systems theory and represents a new understanding of human sexuality and sexual problems. Appropriate for anyone who wants to progress to a more comprehensive and integrative understanding of sexual dysfunctions, this text will teach the reader how to treat the couple, rather than the individual. Now in a second edition, Systemic Sex Therapy presents 12 updated chapters and two new chapters, bringing the material up-to-date with the DSM-5. Each chapter examines the definition and description of a disorder, its etiology, assessment, treatment, research, and future directions. Experts in the field discuss issues ranging from pharmacology, sexual

compulsivity, therapy with lesbian and gay couples, to chapters on male and female lack of desire. A standard text in the field, *Systemic Sex Therapy* integrates couple and sex therapy to inform the treatment of sexual problems, and to give beginning and experienced clinicians the abilities and confidence they need to produce viable change in their patients' lives.

Is the drop-dead gorgeous psychiatrist in love or is some other far more nefarious plot afoot? *The Journey* pulls us in and leaves us wondering. Told she was schizophrenic at 19, it takes a trip to an unexpected homeland for the real truth to sink in: she is not crazy, but psychic. Raised by a degreed registered nurse and thus devoted to Western medicine, the hardest person to convince is herself, but by the end of *Detective Fiction*, the game between her self, her spiritual helpers, and the doppelganger who refuses to leave her alone becomes cold, calculating, and a clear risk to her survival.

This book draws out a number of unexpected connections between chocolate and blackness as both idea and reality. Silke Hackenesch builds her argument around four main focal points. First is the modes of production of chocolate--the economic realities of the business and the material connection between blackness and chocolate. Second is the semantics of chocolate, while its iconography is analyzed third. Finally, she addresses the use of chocolate as a racial signifier, showing that it is deployed differently by African Americans and Afro-Germans, for example.

way to a Ph.D. and in love for the first time? The Journey presents us with exactly this young woman. The pivotal question becomes is she sane and he deceitful, or has she lost her mind? The answer is both. Not an easy, cohesive ride, the narrative thread of an African American female mystic falling deeply in love with a white psychiatrist is complicated by a gently suggested history of abuse, graduate school, and the subtle racism of still largely white academia. The Journey strokes the American psyche from within a very personal story of love and vision: she is in love; he is not, but he leads her in a merry dance, never quite revealing what emotion lies behind his warm brown eyes.

messenger. From the beginning with "Schindler's List," Dr. Williams asks the film's director to explain, "robbing a people of their origins." She poignantly points out that Middle Passage descendants live without a traceable identity and unlike the majority, "cannot fabricate what was deliberately stamped out of existence." Dr. Williams' text provides a tracing of the indelible markings each of us makes on the other, and on the collective consciousness of American society.

In African American fiction, Richard Wright was one of the most significant and influential authors of the twentieth century. *Richard Wright in a Post-Racial Imaginary* analyses Wright's work in relation to contemporary racial and social issues, bringing voices of established and emergent Wright scholars into dialogue with each other. The essays in this volume show how

Wright's best work asks central questions about national alienation as well as about international belonging and the trans-national gaze. Race is here assumed as a superimposed category, rather than a biological reality, in keeping with recent trends in African-American studies. Wright's fiction and almost all of his non-fiction lift beyond the mainstays of African-American culture to explore the potentialities and limits of black trans-nationalism. Wright's trans-native status, his perpetual "outsidedness" mixed with the "essential humanness" of his activist and literary efforts are at the core of the innovative approaches to his work included here.
