Since October 15, 1970, Tommy Douglas, Peter C. Newman, Eric Kierans, Don Jamieson, Margaret Atwood, Desmond Morton, Brian Moore and many others have denounced what Robert Fulford described as the “totalitarian spirit” of the Trudeau government when it sent the army into Quebec. But have we heard them? Have we taken the full measure of the violation of human rights when for the first time in history the government of Canada proclaimed the War Measures Act in peacetime? “Our common sense went out the window,” as Trudeau cabinet minister Eric Kierans wrote, is a rigorously researched and brilliantly presented anthology of documents and declarations of many leading Canadian thinkers and political leaders. From the prize-winning screenwriter of *The Theory of Everything*, this is a cinematic, behind-the-scenes account of a crucial moment which takes us inside the mind of one of the world's greatest leaders - and provides a revisionist, more rounded portrait of his leadership. May, 1940. Britain is at war, European democracies are falling rapidly and the public are unaware of this dangerous new world. Just days after his unlikely succession to Prime Minister, Winston Churchill, faces this horror - and a sceptical King and a party plotting against him. He wonders how he can capture the public mood and does so, magnificently, before leading the country to victory. It is this fascinating period that Anthony McCarten captures in this deeply researched, gripping day-by-day (and often hour-by-hour) narrative. In doing so he revises the familiar view of Churchill - he made himself into the iconic figure we remember and changed the course of history, but through those turbulent and dangerous weeks he was plagued by doubt, and even explored a peace treaty with Nazi Germany. It's a scarier, and more human story, than has

ever been told.

Kenneth W. Thompson was director emeritus of the White Burkett Miller Center of Public Affairs and J. Wilson Newman Professor Emeritus of government and foreign affairs at the University of Virginia. He was the author of many books on international relations, including *Fathers of International Thought: The Legacy of Political Theory*.> Winston Churchill's place in modern history is assured. As a statesman and world leader, he towers above his contemporaries. As a historian, his reputation is equally secure. But little attention has been given to Churchill's stature as a political theorist, to the ideas and principles that he developed, tested, and followed throughout his long career as a soldier, military correspondent, politician, world leader, and author. *Winston Churchill's World View* is a study of the underlying principles and goals that shaped the actions of one of the most influential men of our time. Kenneth Thompson traces the genesis and elaboration of Churchill's views from his youth at the fringes of the British Empire through his rise as a politician, his years of determined struggle and final triumph as the prime minister of England in its darkest hour, and the time of reflection that followed his departure from his active political life. Thompson works closely with Churchill's writing to identify and assess his concepts of power, authority, politics, and diplomacy, as well as his thoughts on international organization and law, collective security, and practical morality. Churchill firmed

believed that an effective foreign policy must be based on a set of well-defined but flexible organizing principles. “Those who are possessed of a definite body of doctrine and of deeply rooted convictions,” he wrote in the first volume of his history of World War II, “will be in a much better position to deal with the shifts and surprises of daily affairs.” It was the lack of such a set of principle, Churchill contended, that led the Allies into the conflagration of World War II and that in the postwar era threatened to bring about an even more destructive conflict between the West and the Soviet Union. Churchill’s own plan to avert that peril, Thompson shows, was based on the twin pillars of diplomacy and strength. He insisted that peace must be negotiated. But only could a lasting settlement be concluded, a settlement that was not based on weakness and fear. Churchill’s political philosophy was rooted in his own experience and in an awareness of the course of man’s history. It is a perspective at odds with prevailing viewpoints—based not in history, but in a shifting tide of facts and statistics—and with the current perception of a world with problems too complex and numerous to be solved through the simple application of doctrine and conviction. But this complex age, Thompson argues, is one sorely in need of the lessons of history and the wisdom of experienced statesmen. With this study, Thompson demonstrates the relevance of Winston Churchill’s views to the present world situation, and shows the current need for a steady, principled, pragmatic approach to maintaining world peace.

In Dawn and the Darkest Hour, poet and author George Woodcock explores the famously complex life and career of Aldous Huxley. A brilliant and satirical novelist of ideas; a popular journalist and essayist on scientific and political subjects; a prophet of the future (Brave New World); a pioneer of psychedelic experimentation (The Doors of Perception), Huxley was a man plagued by excessive intellectual curiosity and a withdrawn melancholic nature. In the dramatic range of his characters and the encyclopedic quality of his thought, Huxley expressed some of the most interesting and disturbing commentary about the condition of human beings and their relationship to society. As Woodcock traced the progress of Huxley's works, he recognized attempts to bring about a synthesis of knowledge “that would give total meaning to existence.” In this striking and encompassing critical biography, Woodcock persuasively asks

us to reconsider Huxley's works as the stages of “a spiritual pilgrimage,” as he demonstrates that Huxley's entire remarkable oeuvre must be taken as a whole, as a unified “movement out of darkness toward light.” It is a fascinating journey that provides a window into Huxley's life and character, that shows an intellectual continually striving for knowledge—intuitive, scientific and otherwise—and as such, is certain to renew interest in one of the most the most important and influential minds of the twentieth century. George Woodcock (1912 1995)—award-winning poet, author, essayist and widely known as a literary journalist and historian—published more than 90 titles on history, biography, philosophy, poetry and literary criticism.

No one is immune to crime. Behind the Darkest Hours is the realization that the road back into living a new life is a process. Victims lives aren't neatly wrapped up in a one-hour drama and a myth called closure. You never forget the loss. It is a true inspirational and powerful story of prayer, faith, and forgiveness that brought us from personal tragedies to public triumphs. The general public only gets a glimpse of real-life tragedies from media visualization and media sensationalism, without a real understanding of daily living for the families involved. When bystanders turn off the news, they go to sleep and forget, while those families weep. Behind the Darkest Hours is a source of encouragement and strength to victims and their families to survive beyond the pain and agony of victimization. It's an encouragement for everyone to hold on to hope. Even in the most horrific circumstances, we can still survive. Most importantly, God is still present. Readers should be encouraged to know that God is trustworthy and he honors faith.

The first two pieces, especially Hamilton's, explain the baffling phenomenon of Aryan ethnosuicide. However, I must say that I not only abridged Hamilton's piece for this collection but other essays as well. In this compilation, there are two fundamental texts. The first one, a book review by J.A. Sexton of Tom Goodrich's Hellstorm: The Death of Nazi Germany, 1944-1947, informs us about a Dantesque, heart-breaking Holocaust committed by the Allies on the Germans even after the war was over. The second is a translation from Spanish of an online book authored by a Catalonian blogger who uses the penname Evropa Soberana: Rome contra Judea; Judea contra Rome. The Eternal Conflict between the Light and Dark once again blackens the skies and blights the land. On one side stand the Tuatha de Danaan, golden-skinned and beautiful, filled with all the might of angels. On the other are the Fomorii, monstrous devils hell-bent on destroying all human existence. And in the middle are the Brothers and Sisters of Dragons, determined to use the strange power that binds them to the land in a last, desperate attempt to save the human race. Reprint. On Wednesday 18th February 1942 the Japanese air force bombed Darwin. This fact is known to most Australians, but very few know exactly what happened. The War Cabinet immediately ordered a news black-out, and the propaganda they released at the time has since become part of Australia's verbal history. But the sequence of events in Darwin that day certainly did not reflect the military honour that the War cabinet wished Australians to believe. On the contrary, for what really happened was a combination of chaos, panic and in most cases, cowardice on an unprecedented scale. During that day most of the RAAF ran into the bush and took days to round up, one man even turned up in Melbourne, and after the raid the city was looted by the provosts, the very people who were supposed to be protecting the property of those who had been evacuated. From the acclaimed novelist and screenwriter of *The Theory of Everything* comes a revelatory look at the period immediately following Winston Churchill's ascendancy to Prime Minister—soon to be a major motion picture starring Gary Oldman. “He was speaking to the nation, the world, and indeed to history...”

May, 1940. Britain is at war. The horrors of blitzkrieg have seen one western European democracy after another fall in rapid succession to Nazi boot and shell. Invasion seems mere hours away. Just days after becoming Prime Minister, Winston Churchill must deal with this horror—as well as a skeptical King, a party plotting against him, and an unprepared public. Pen in hand and typist-secretary at the ready, how could he change the mood and shore up the will of a nervous people? In this gripping day-by-day, often hour-by-hour account of how an often uncertain Churchill turned Britain around, the celebrated Bafta-winning writer Anthony McCarten exposes sides of the great man never seen before. He reveals how he practiced and re-wrote his key speeches, from ‘Blood, toil, tears and sweat’ to ‘We shall fight on the beaches’; his consideration of a peace treaty with Nazi Germany, and his underappreciated role in the Dunkirk evacuation; and, above all, how 25 days helped make one man an icon. Using new archive material, McCarten reveals the crucial behind-the-scenes moments

that changed the course of history. It's a scarier—and more human—story than has ever been told. “McCarten's pulse-pounding narrative transports the reader to those springtime weeks in 1940 when the fate of the world rested on the shoulders of Winston Churchill. A true story thrillingly told. Thoroughly researched and compulsively readable.”—Michael F. Bishop, Executive Director of the International Churchill Society
