Kennedy will shock readers into understanding that greed and politics play a much greater role in causing obesity than do improper diet and lack of exercise. A must read for anyone that seeks to lose weight.

How to effectively use colloidal mineral and trace element supplements to compensate for the deficiencies in our diet that cause ill health • Includes a complete list of all trace elements and their ideal combinations for addressing health imbalances • Examines why our food is no longer nutritious enough to supply the body's mineral and trace element needs and how to address this problem Much of the ill health and lack of vitality people complain of today can be traced to a deficiency of minerals and trace elements in our diets. The food we eat is no longer keeping us healthy. Modern farming methods have depleted the natural mineral reserves of the soil, and as a result the foods we eat are increasingly deficient in the nutrients needed for proper functioning of the body. Minerals are essential catalysts that allow vitamins, enzymes, and other nutrients to perform their necessary roles in the body and promote proper mental function. Simply taking standard mineral supplements will not correct any imbalances we may experience because our bodies are designed to best absorb and use minerals that are in a colloidal form: the soluble suspended state in which plants absorb minerals from the soil. Colloidal mineral supplements, however, can increase vitality and strengthen the immune system because 98 percent of the supplement is incorporated

into the body as opposed to the 3-5 percent absorption of standard mineral supplements. Colloidal Minerals and Trace Elements details 55 trace elements and their beneficial effects and explains the ideal combinations of colloid supplements to use based on your health concerns.

I am Rod Czlonka and I survived terminal brain cancer. Every doctor I spoke to told me that I was going to die. All of them spewed the same dismal statistics and doomsday prophecies. But I chose not to accept that diagnosis or the conventional treatments which accompanied it. Instead, I made a decision to live, and to learn the secrets of cancer. This book is the culmination of that research and the blueprint for my life.

In this exciting new spin on the memoir, Bernie Smith takes the opportunity of a world cruise with his beloved wife Judy to reflect on his past, his professional success and his personal philosophy on life and faith, both in quiet moments by himself and in conversations with

fellow passengers on the trip. From a hardscrabble upbringing on Long Island, Smith eventually became a great success in the field of computer programming. It all started when he was accepted into Fairfield Prep in Connecticut even though his family could scarcely afford it, where the Jesuits taught him about faith in God that reinforced his childhood Catholicism and sustained him for the rest of his life. From there, he achieved all the status symbols a young boy from humble roots could hope for: an executive title, a mansion, a wife and kids. But it all began to seem much less important after a diagnosis of pancreatic cancer that nearly killed him in middle age. While recuperating in Florida, Bernie met Judy, a ray of Southern sunshine who gave his life new meaning. Instead of being afraid of germs, health problems and other threats to his health and wealth, Bernie undertakes a new adventure - all the while bringing with him the lessons and wisdom from his past. Skyrocketing health-care costs today are forcing many people to take another look at conventional medical treatment and determine how they can eliminate a major portion of costly medical expenses. Dr. Joel D. Wallach and Dr. Ma Lan discuss the importance of the ninety essential nutrients and sixty essential minerals and how they affect your body and health. Their principle medical axiom is this: It's not what you eat that kills you, it's what you don't eat. Dr. Wallach has been involved in biomedical research and clinical medicine for 30 years. He received his B.S. Degree from the University of Missouri. Dr. Ma Lan was educated in the Peoples Republic of China. She received her M.D. from Beijing

reached a worldwide vitamin D deficiency of epidemic proportions with more than 1 billion people at risk for associated illnesses. As soon as you understand how our modern way of life have influenced our digestion, absorption and transport of the essential fatty acid Omega 3 and the oil soluble vitamin D in the body, compared to previous generations, it should be easier to understand why many people get dry skin and body these days. With this knowledge, it should also be easier to understand what you need to do to obtain a healthy level of Omega 3 and vitamin D together with the other oil soluble vitamins to correct or avoid dry skin and body, and the associated illnesses. What are these associated illnesses? According to scientific research lack of these important lipids cause oxidative stress or inflammation at the cellular level. Most of our serious illnesses related to heart, arteries, arthritis, osteoporosis, lung, asthma, diabetes, kidney, eyes, cancer etc and the not so serious illnesses such as dry ski, dry hair, bleeding gums, depression, digestive problems, pain, hearing loss etc seem to develop because of oxidative stress or inflammation at the cellular level. Add fertility problems, autism and birth complications and... What is a healthy level of these important lipids and how can I be sure that I have a healthy level of these lipids? This is what the doctor in biochemistry discovered back in the 1940s. With this information your starting question could be: What changes have we made to our way of living and eating compared to previous generations which give us lack of the essential fatty acids Omega 3 and the oil soluble vitamin D? That information and much more is

the topic of the book!

Metabolic Mission""A lifelong endeavor with which an individual is "supernaturally" commissioned in order to propagate and lead humanity to the science of metabolic typing. It is this unique science that when applied, will rebuild and rebalance all metabolic systems within the human organism. "You're too sick to have cancer," stated Dr. Kelley. Those words shook me during that first metabolic seminar in Dallas 1985. After ten years of searching for answers to my medical problems, I had finally found the key to unlock that elusive door that would lead me on the path to health. My downward health spiral included high blood pressure, hypoglycemia, borderline diabetes, calcium deposits, fused spine, memory loss, depression, vision loss, sexual dysfunction, gallstones, candida albicans (yeast overgrowth), multiple allergies, pheochromocytoma, polycythemia, malignancy and liver dysfunction. That day in Dallas marked the beginning of a fascinating

This unique book is a biography that began in the pocket of Ruth by taking simple notes with pencil and paper, day or night, for seven years, discovering "100 peculiarities of Alzheimer's disease." Unlike other books on this subject, she prepares the caregiver for "What to expect next?" Each peculiarity illustrates the particular stage it occurred, and ways that help both patient and caregiver develop a good bond of friendship. You will learn her method of "Touch and Speak" when your patient is unmanageable to dress. Most of

all you will grow in faith with a new inimitable love, which became a growing experience for Ruth and Naomi. She chose the biblical characters of Naomi, Ruth, and Boaz for the many ways her book parallels the caring relationship during a crisis that occurs in the book of Ruth. Realizing the depth of depression that can happen, she addresses the Devil's goal to discourage believers and cause misery and doubt. Scriptures will encourage you while she takes you through many major decisions you may face until your patient's death. She has great empathy and admiration for caregivers since the majority of them never planned to be one. When your desires are to glorify our heavenly Father and His Son, and you find times when everything seems to go awry, it may be messengers of the Evil One, who do not want you to succeed. Be of good cheer. Jesus will lift your load and stand beside you all the way!

The writing of this book was both a spiritual and intellectual journey. It took more than ten years to complete while having to be revised and updated constantly. This is no-holds-barred literature where the author says what he means and means what he says! He does not mintz his words. The Conscious Planet thinks outside the box and breaks all the rules of traditional thinking. Sometimes this information can be brutally honest or painfully real. This author is not trying to win any popularity contest. He tells it like it really is and doesn't care what anyone thinks! The Conscious Planet is what the government and big corporations who control it don't want you to know! It is the truth about the truth and nothing but the truth, so help me ! In the modern world, people only know what multinational corporations want them to know, not what they should know! and it is this tainted knowledge which is creating a society of pathetic drones, who like poor doomed sheep, are too busy just trying to survive to see that the wool is being pulled over their eyes while being led to slaughter!

Because these corporate imperatives are being paid for at the expense of the future of mankind! Before you patronize any product, be conscious about what it's doing to your health, to the earth, and how it will affect future generations. Skeptics have warned the author that this book will receive nominal success, that it represents a small niche market, and not everyone would be interested in such literature. and in retort to this assertion, it should be acknowledged that yes, it is sadly true that not everyone would be interested in this book because the information herein may not pertain directly to their life or general well being. So in understanding, who would be interested in this book, let's narrow it down by eliminating the types of individual who would not directly benefit: x 1. People who are immortal: Yes, these people might not care about this book: heck, if you were immortal, you might eat Twinkies and cheese-burgers all day long. 2. People who have another planet to live on: This is true: why would they care if the world goes to hell in a hand basket? See Ya! Well, lucky them: however, for the other seven billion people who inhabit the planet earth who are not immortal, and who don't have another planet to live on --then this book is absolutely the most important book they may ever read! I had Arthritis in my hands. My knees were so bad that my only options were Cortisone shots and knee replacements. My large intestine expanded and ruptured my stomach muscle above my navel. It could have pierced my skin. I had Type II Diabetes. I did not begin the nutrition plan. I was convinced that my physicians knew best. I believed that other people who claimed good results from natural treatments, were flukes. A friend gave me a tape by Nobel Prize nominee Dr. Joel Wallach; titled "Dead Doctors Don't Lie," sparking a

curiosity for alternative health care. I met Dr. Wallach for lunch. That meeting and that cassette tape changed my life. Doc's message was totally logical, and I verified that what he said was fact. However, I hesitated to resolve my health concerns. Like most people, I believed my doctors knew best. Who was I to go against the established norm? Then with chest pains, I was rushed to the hospital with an anxiety attack. For months afterward, my doctors performed tests and prescribed various drugs. They were certain my condition would only deteriorate. That shook me to my core, so I began a nutrition program. In only eleven weeks, my Arthritis was history! I could do deep knee bends from a standing position. The intestinal problem stopped, however I still have a naval protrusion. A few months later, my doctor said "Whatever you are doing, don't stop. You're fine." With a smile, he said, "Get out of here, you healthy bum!" Most of the health problems I experienced were treated by some of the finest doctors at the prestigious La Jolla Scripps Greens Hospital. Since recovering, my goal has been to help others with their health needs. I thought of family, friends and numerous other people who could improve and reverse medical conditions by using the resources I found so beneficial. Most people I meet are comfortable with their short range view of their overall health. They believe whole-heartedly in the health care system, and rely on health insurance for all their health care needs. Most people exercise control of every area of their life, except when it comes to medical care. This amazes me. The experience of going from dismal health to great health has had a profound effect on my

life. At first I just wanted to save my life. I immersed myself in whatever I could find on pertinent health subjects. After my health turned around, my quest for information on diseases became insatiable. I routinely visited web-sites offering educational material on diseases or health issues, and over a dozen years learned much. I have come to understand that nothing on earth is more complicated than the human body, God's best creation. These twelve years of self-training on health care and wellness have given me a new outlook beyond our medical care system, to the natural ways to maintain health. I also came to understand the major impact of politics in fostering a medical monopoly upon America. Internationally, we are in 43rd place. This works. I tell doubters; I was born in 1940. Considering my medical history, how would you explain my results? I don't look my age, yet a few years ago, I looked much older. I feel younger. In fact, I work with 20-year olds. They typically get tired, call in sick or need to take a break. They are three and a half times younger than me. They call me the Energizer Bunny. Do not accept my words on face value; do your own research, learn some of what I have learned and form your own opinion. Your well being and that of your loved ones may benefit, as I have obviously benefited from diligent research. I know hundreds of people who do what I do nutritionally. They don't suffer the illnesses so common to our neighbors. I hope you will be enlightened by this writing, and will contact me with your comments and questions. No I'm not a doctor I'm a Marine Corps veteran, with an advanced degree from the school of hard knocks, and a

Description Cure your health problems the simple 'drug free' way! Gerard Kielty I.R.B, I.D.A, a Harley Street specialist has written this highly informative book about his work in the field of food intolerance. This fascinating book explains, in a down-to-earth and simple to understand way, just how we are all poisoning ourselves with the food we eat. Heroin grows in the ground, well so does a lettuce! So why is this not a drug also? It is a drug! Everything that enters our body is a drug and will have a positive or negative effect to our brains. Mr Kielty explains how more than 50 different health problems can easily be cured by avoiding the foods (drugs) that cause them in the first place. This book identified the major culprits, the everyday foods that generally cause most health problems. Through extracts from numerous testimonial letters Mr Kielty highlights many different health problems and explains how and why they happen. This book poses profound questions of the governing bodies within the medical profession and explains, in great depth, the considerable resistance that exists within the medical profession, the drug companies and many government agencies throughout the world to this advanced 'drug free' path to good health. This true, explosive and controversial book could change the face of medicine forever. It is packed with all the information you need to become seriously healthy within weeks About the Author Born in Southern Ireland in 1947 I

had a tough but exciting childhood. One of 11 children brought up in Portobello Road in the centre of London by hardworking and caring parents. My mum and dad were far from rich but they more than made up for that with the love they gave to each of us. In those days my idea of a treat was an Orange in my Xmas stocking and once a year if I was lucky a trip to the seaside. As time went on many of us children were bright enough to go to university but for us that was only a dream, what little money there was went into feeding and clothing the family and trying to keep up with the many other household bills. Mr Kielty is now qualified to American Food and Drug Administration (FDA) standards and is a leading specialist in the field of electro-dermal screening. His credentials have been signed by former US Secretary of State Madeleine Albright.

WHAT IS EPIGENETICS? Epigenetics is an emerging field of science that studies alterations in gene expression caused by factors other than changes in the DNA sequence. Epigenetics: The Death of the Genetic Theory of Disease Transmission is the result of decades of research and its findings that could be as critical to our understanding of human health as Pasteur's research in bacteriology. Dr. Joel "Doc" Wallach has dedicated his life work to identifying connections between certain nutritional deficiencies and a range of maladies, formerly
