"There is no map for thriving as a dean, but this handbook offers an essential guidebook and compass for the journey. Both informed and inspired, it is above all humane in presenting the purpose, practice, and privilege of a dean's good work." —William J. Craft, president, Concordia College "Academic deans, both new and seasoned, will benefit enormously from this collection of ruminations by experienced and successful academic leaders on the issues that are most prominent and often most vexing for those who enter the arena of academic leadership. For newcomers to the deanery, this handbook will be an eye-opener; and for veteran deans, a helpful reminder of both first principles and best practices." —Richard Ekman, president, The Council of Independent Colleges "ACAD meetings and electronic communications are marked by collaboration and by sharing means for encouraging faculty and student

In this important study, Trevor Dean examines the history of crime and criminal justice in Italy from the mid-thirteenth to the end of the fifteenth century. The book contains studies of the most frequent types of prosecuted crime such as violence, theft and insult, along with the rarely prosecuted sorcery and sex crimes. Drawing on a diverse and innovative range of sources, including legislation, legal opinions, prosecutions, chronicles and works of fiction, Dean demonstrates how knowledge of the history of criminal justice can illuminate our wider understanding of the Middle Ages. Issues and instruments of criminal justice reflected the structure and operation of state power; they were an essential element in the evolution of cities and they provided raw material for fictions. Furthermore, the study of judicial records provides insight into a wide range of social situations, from domestic violence to the oppression of ethnic minorities. Draws on the insights of deans from leading American institutions to counsel recently accepted college students on how to make the most of the educational experience, sharing coverage of such topics as developing independence, focusing on learning and planning for life after school. Part memoir, part manifesto, *Soulbbatical* is an invitation to become Chief Soul Officer of your own life—and to open up a whole new world of possibility. Former Harley-Davidson executive Shelley Paxton did just that. She walked away at the peak of her twenty-six-year marketing career and embarked on a profoundly personal journey to reconnect with her true purpose and deepest desires. She called it her “Soulbbatical,” and it not only changed her life, it became her calling. Paxton had a wildly successful life by most definitions—iconic brands, executive titles, and a globe-trotting career that took her to over sixty countries. She had one of the coolest jobs in the world, yet couldn’t shake the feeling that she had lost herself along the way. Something was missing. Here, she takes you on a sometimes harrowing, often hilarious journey through the illness, divorce, addiction, and tragedy that finally woke her up. Suddenly she was rebelling for her best life, and embracing a new mission: to encourage others to live their most authentic, courageous, and purposeful lives—today. *Soulbbatical* is an unconventional, exhilarating, and totally badass road map to discovering what you really want—and getting it. Because no matter how far you’ve strayed from your soul’s true path, it’s never too late for transformation.

Say you want to start going to the gym or practicing a musical instrument. How long should it take before you stop having to force it and start doing it automatically? The surprising answers are found in *Making Habits, Breaking Habits*, a psychologist's popular examination of one of the most powerful and under-appreciated processes in the mind. Although people like to think that they are in control, much of human behavior occurs without any decision-making or conscious thought. Drawing on hundreds of fascinating studies, psychologist Jeremy Dean busts the myths to finally explain why seemingly easy habits, like eating an apple a day, can be surprisingly difficult to form, and how to take charge of your brain's natural "autopilot" to make any change stick. Witty and intriguing, *Making Habits, Breaking Habits* shows how behavior is more than just a product of what you think. It is possible to bend your habits to your will -- and be happier, more creative, and more productive.

What happens when you bring a looney Irishman into the British Army? Even more interesting, what happens when that army turns him loose on the French? Set during the Peninsular War, this is the rollicking story of an Irish dragoon, Charles O'Malley, and his equally uninhibited servant, Mickey Free. It is a mixture of riotous fun, humor, love-making, and military adventure; but it also shows the darker side of a very real, and very deadly, war. Volume One takes you from O'Malley's induction into the army, and through the British peninsular campaigns ending in the tragic and bloody Battle of Talavera (1809). Volume Two continues the story, and presents O'Malley's adventures up to and including the Battle of Waterloo in 1815. Taken together, they present both an entertaining and a sobering view of the war that finally ended the Napoleonic threat. 37 Illustrations "The great war amid which these scenes are enacted, and the romantic countries and inhabitants of Portugal, Spain, and France, afford a great variety of scenery, of adventure, and of comic and tragic incident. Your interest never flags for a moment." "With a combination of hilarious adventures and serious battle scenes, Charles O'Malley will charm you like no Irishman ever has."

This is a love story. It's the story of how The Clash fell in love with America, and how America loved them back. It situates the band amid the cultural skirmishes of the 1970s, and culminates with their September 1979 performance at the Palladium, in New York City. This concert, broadcast live on WNEW, concluded with Paul Simonon treating his Fender bass like a woodsman's axe.
