A remarkable array of people have been called shamans, while the phenomena identified as shamanism continues to proliferate. This second edition of the Historical Dictionary of Shamanism contains with examples from antiquity up to today, and from Siberia (where the term “shaman” originated) to Amazonia, South Africa, Chicago and many other places. Many claims about shamans and shamanism are contentious and all are worthy of discussion. In the most widespread understandings, terms seem to refer particularly to people who alter states of consciousness or enter trances in order to seek knowledge and help from powerful other-than-human persons, perhaps “spirits”. But this says only a little about the artists, community leaders, spiritual healers or hucksters, travelers in alternative realities and so on to which the label “shaman” has been applied. This second edition contains a chronology, an introduction, and extensive bibliography. The dictionary contains over 500 cross-referenced dictionary entries on individuals, groups, practices and cultures that have been called “shamanic”. “Every time we raise our voices, we hear echoes.” Jo-Anne Elder, from the Foreword Through short stories, journal entries and poetry, the women in *Voices and Echoes* explore the changing landscape of their spiritual lives. Experienced writers such as Lorna Crozier, Di Brandt and Ann Copeland, as well as strong new voices, appear to speak to each other as they draw from a wealth of personal resources to find a way to face life’s questions and discover meaning in their lives. There is something familiar about these stories and poems — they echo those we’ve heard before and those we’ve half forgotten. Whether they search for a voice in a world where men monopolize or journey into painful memories to free the self from the past, they do not despair, they do not end. Individual entries become the whole story — an unending story of rebirth and reaffirmation. The book begins with an illuminating foreword that introduces readers to the cultural and philosophical background of many of the stories, and concludes with the reflections of scholars, writers and artists that are intended to provoke further discussion.

Iraq. She was revered as the goddess of fertility, of rhythm and the seasons. She represents many opposites, light and dark, life and death, body and spirit, passivity and action.

The Mistress of Heaven, the goddess Ishtar, stands in a unique position of supremacy among the goddess figures of the world; and her descent into the underworld is her essential distinctive myth. The primacy of the goddess and her lover, Dumuzi, to the seasonal cycle, and the ritual marriage which was a ceremony of the union essential to civilized life, was not retained within the textual Judeo-Christian tradition. As a result this mythological cycle of the goddess restores the expressive sexual metaphor of agricultural fertility, which merges the domestic concerns of womanhood with the essential productive forces of nature. Included along with this essential seasonal myth are two entirely dissimilar tales concerned with military valor, heroic conquest, and the assumption of absolute power; the partially incomplete Mesopotamian tales of 'The Epic of Anzu' and 'Erra and Ishum'.
