The Slayer legion is organized and encountering mega-obstacles, while Twilight's threatening reach continues to expand. Buffy and her Slayers travel to Tokyo to face a new kind of vampire with powers they've only witnessed in Dracula . . . Then, Willow and Buffy head to New York to investigate the secrets behind Buffy's scythe; ever full of the unexpected, Buffy is transported to a dystopian future where her first chance meeting is with Fray, future Slayer! Collects Buffy the Vampire Slayer Season 8 #11-#20. \*Written by Joss Whedon! \*A New York Times bestseller! \*Includes never-before-seen sketch materials!

Daniel Pennac has never forgotten what it was like to be a very unsatisfactory student, nor the day one of his teachers saved his life by assigning him the task of writing a novel. This was the moment Pennac realized that no-one has to be a failure for ever. In *School Blues*, Pennac explores the many facets of schooling: how fear makes children reject education; how children can be captivated by inventive thinking; how consumerism has altered attitudes to learning. Haunted by memories of his own turbulent time in the classroom, Pennac enacts dialogues with his teachers, his parents and his own students, and serves up much more than a bald analysis of how young people are consistently failed by a faltering system. *School Blues* is not only universally applicable, but it is unquestionably a work of literature in its own right, driven by subtlety, sensitivity and a passion for pedagogy, while embracing the realities of contemporary culture.

A stunning visual history of the American Civil War Visually arresting and comprehensive, *The American Civil War* comes fully reviewed and updated, covering the history, causes and consequences of the conflict, providing eyewitness accounts by soldiers and civilians, key profiles of military leaders and clear timelines that give an instant overview of the developments during the tumultuous war. Packed with galleries of weaponry and equipment, and information on the treatment of wounded soldiers and slavery, this is a rich, detailed account of one of the most controversial conflicts of our time. This updated edition comes with new, highly illustrated pages on memorial sites associated with the Civil War. An invaluable resource for schools and libraries, as well as a perfect companion for anyone interested in military and social history.

Distributed for Mexican Museum, San Francisco, Text in English & Spanish, Exhibition catalog.

"With their intellectual brilliance, humor and wonderful eye for detail, Leonard Bernstein's letters blow all biographies out of the water."—*The Economist* (2013 Book of the Year) Leonard Bernstein was a charismatic and versatile musician—a brilliant conductor who attained international superstar status, and a gifted composer of Broadway musicals (*West Side Story*), symphonies (*Age of Anxiety*), choral works (*Chichester Psalms*), film scores (*On the Waterfront*), and much more. Bernstein was also an enthusiastic letter writer, and this book is the first to present a wide-ranging selection of his correspondence. The letters have been selected for the insights they offer into the passions of his life—musical and personal—and the extravagant scope of his musical and extra-

musical activities. Bernstein's letters tell much about this complex man, his collaborators, his mentors, and others close to him. His galaxy of correspondents encompassed, among others, Aaron Copland, Stephen Sondheim, Jerome Robbins, Thornton Wilder, Boris Pasternak, Bette Davis, Adolph Green, Jacqueline Kennedy Onassis, and family members including his wife Felicia and his sister Shirley. The majority of these letters have never been published before. They have been carefully chosen to demonstrate the breadth of Bernstein's musical interests, his constant struggle to find the time to compose, his turbulent and complex sexuality, his political activities, and his endless capacity for hard work. Beyond all this, these writings provide a glimpse of the man behind the legends: his humanity, warmth, volatility, intellectual brilliance, wonderful eye for descriptive detail, and humor. "The correspondence from and to the remarkable conductor is full of pleasure and insights."—The New York Times Book Review (Editors' Choice) "Exhaustive, thrilling [and] indispensable."—USA Today (starred review)

Before there was real estate tycoon cum President-Elect Donald J. Trump, there was Silvio Berlusconi, the billionaire media mogul turned prime minister who dominated Italian life for the past twenty years. In a candid, warts-and-all portrait of the leader who played hard in office and in private life. From the bunga-bunga parties to his most secret moments with world leaders, this biography is rich in anecdotes and revelations involving Barack Obama, Hillary Clinton, George W. Bush, Vladimir Putin, Mikhail Gorbachev, Tony Blair, Nicolas Sarkozy, Angela Merkel, and many others. Berlusconi's incredible rise to power started from nothing. A self-created man, he was a cruise ship crooner as a young man, became a real estate tycoon in the '70s, started the first commercial television network in history, and turned AC Milan into a world-class soccer club. And that was all before he survived the squalid swampland of Italian politics to become prime minister who has not only served the longest in Italian history, but also has generated the most controversy of arguably any world leader today.

It's Easy to Play Elton John is a fabulous collection of simplified, easy-to-read arrangements of 14 of the most-loved hits by Elton John for Piano - Perfect for the beginner pianist looking to bolster their repertoire and improve their playing. Song List: - Bennie And The Jets - Border Song - Candle In The Wind - Country Comfort - Crocodile Rock - Daniel - Don't Go Breaking My Heart - Ego - Goodbye Yellow Brick Road - Honky Cat - Island Girl - Rocket Man - Someone Saved My Life Tonight - Your Song

Prepared jointly with Her Majesty's Nautical Almanac Office, United Kingdom Hydrographic Office. Designed in consultation with other astronomers of many countries. Provides current, accurate astronomical data for use in the making and reduction of observations and for general purposes. The Astronomical Almanac Online extends the printed version by providing data best presented in machine-readable form. Online data are provided for several years. Contains data for astronomy, space sciences, geodesy, surveying, navigation, and other applications. Also used for navigation by air and water. The Astronomical Almanac is a joint publication of the U.S. Nautical Almanac Office, United States Naval Observatory (USNO), in the United States and Her Majesty's Nautical Almanac Office (HMNAO), United Kingdom Hydrographic Office (UKHO), in the United Kingdom. This annual publication contains precise ephemerides of the Sun, Moon, planets, and satellites, data for eclipses and other astronomical phenomena for a given year, and serves as a world-wide standard for such information."

'Old MacDonald' is a favourite nursery rhyme. This hand puppet features an adorable farm animal on each fingertip.

Drinking daily juices and smoothies is a great way to get all the vitamins and nutrients you need to maintain a balanced diet, as well as being an easy and delicious way to keep hunger at bay. Hamlyn All Color Cookbook: 200 Juices & Smoothies gives you a huge choice of quick, simple recipes that use all your favorite fruits and vegetables to ensure that your diet will never get dull! Every mouthwatering recipe is accompanied by fantastic color photography, and it's all bound in a handy format, making this great-value book ideal for all!

Advanced Customer Analytics provides a clear guide to the specific analytical challenges faced by the retail sector. The book covers the nature and scale of data obtained in transactions, relative proximity to the consumer and the need to monitor customer behaviour across multiple channels. The book advocates a category management approach, taking into account the need to understand the consumer mindset through elasticity modelling and discount strategies, as well as targeted marketing and loyalty design. A practical, no-nonsense approach to complex scenarios is taken throughout, breaking down tasks into easily digestible steps. The use of a fictional retail analyst 'Scott' helps to provide accessible examples of practice. Advanced Customer Analytics does not skirt around the complexities of this subject but offers conceptual support to steer retail marketers towards making the right choices for analysing their data.

This title in the popular 100 Words series is an informative and entertaining resource that can help anyone be right on the money when looking for words that will make a point, seal the deal, or just keep folks listening. Chosen by the editors of the American Heritage Dictionaries, these words will appeal to anyone who wants to be a more compelling communicator—as a worker, consumer, advocate, friend, dinner companion, or even as a romantic prospect. The book includes a colorful variety of words, including handy words of just one syllable (such as glib) and words derived from the names of famous people (such as Freudian slip and Machiavellian). There are expressions from popular culture (Catch-22) and words that date back to classical civilization (spartan and stoic). Each word is clearly defined and shown in context with quotations from magazines, newspapers, broadcast media, movies, and television. For many words, quotations from distinguished authors and speakers are also given and word histories are explained. 100 Words to Make You Sound Smart provides an affordable and enjoyable way to communicate more effectively. It offers the coveted gift of gab to anyone who needs to “say it right”—and to anyone who wants to sound more articulate.

A Day in the Death of Dorothea Cassidy is the third novel in the Inspector Ramsay series by Ann Cleeves, author of the Shetland and Vera Stanhope crime series. For Dorothea Cassidy Thursdays were special. Every week she would look forward to the one day she could call her own, and would plan to visit people she wanted to see as a welcome respite from the routine duties that being a vicar's wife entailed. But one Thursday in June was to be more special than any other. It was the day that Dorothea Cassidy was strangled. As the small town of Otterbridge prepares for its summer carnival, Inspector Stephen Ramsay begins a painstaking reconstruction of Dorothea's last hours. He soon discovers that she had taken on a number of deserving cases – a

sick and lonely old woman, a disturbed adolescent, a compulsive gambler, a single mother with a violent boyfriend and a child in care – and even her close family have their secrets to hide. All these people are haunted, in one way or another, by Dorothea's goodness. But which of them could have possibly wanted her dead? It is not until a second body is discovered that Ramsay starts to understand how Dorothea lived – and why she died. With the carnival festivities in full swing and dusk falling in Otterbridge, Ramsay's murder investigation reaches its chilling climax . . .

The BPRD struggles to keep the massive Ogdru Jahad, and the dozens of monsters it looses every hour, from destroying headquarters and the world, and desperate times lead Russian occult bureau Director Nichayko to ask a demon for help. This volume collects BPRD: Hell on Earth #143-147. Praise for the comics that comprise the B.P.R.D. series: "A wonderful throwback to the old spooky Hellboy storylines, this comic works wonderfully. The artwork is just plain awesome, and the writing as always top notch. If you are looking for a goodmystery/horror short story look no further than this. (And then read everything else of BPRD). My only gripe with the story was I wish it were longer." -Comic Addicts

Celebrate Christmas in 2016 with Southern Living

Louise L. Hay, the internationally renowned author and lecturer, brings you the companion book to her landmark bestseller, You Can Heal Your Life. Here, Louise applies techniques of self-love and positive thinking to a wide range of topics that affect us all on a daily basis, including health, fearful emotions, addictions, money and prosperity, sexuality, aging, love and intimacy, and more.

The autobiography of Natasha Vins, which describes the persecution of her Christian family while living in the Soviet Union.

The Ultimate Windows Vista Resource Take full advantage of the high-performance features available in Microsoft Windows Vista and experience the power of this integrated, next-generation operating system. Windows Vista: The Complete Reference shows you how to install and configure Windows Vista for optimal performance, customize the streamlined new desktop, display sidebars and gadgets, and enjoy all the entertainment capabilities, including music, movies, and games. Find out how to manage your files, install software and hardware, and use the latest Internet technologies. You'll also learn to secure your system, back up and restore your files, and set up a Local Area Network (LAN) so you can share resources. Filled with clear screenshots and detailed explanations, this is your one-stop guide to mastering Windows Vista. Customize your desktop with new UI components Use the new User Account Control (UAC) to prevent unauthorized changes to your computer Manage files and folders using Windows Flip 3D and Windows Live Taskbar thumbnails Protect your files using the Backup and Restore Center Manage and edit your photos with the new Windows Photo Gallery Keep track of your appointments with the new Windows Calendar Use Windows Media Center to record live TV and radio, view digital photos, play music, and burn CDs and DVDs Connect to the Internet and use Windows Mail, Internet Explorer 7, and Windows Live Messenger Secure your PC and use Windows Update Troubleshoot and tune Windows Vista for maximum performance

Explains how to develop programs in the UNIX operating system, discussing how to perform tasks including building, debugging, and understanding how shell scripts work.

Bluetooth Low Energy (BLE) is an exciting new technology that was introduced in 2010. It targets applications in the Internet of Things (IoT) space. With the recent release of Bluetooth 5 in late 2016 and Bluetooth mesh in mid-2017 (which builds on top of BLE), Bluetooth is now more capable than ever of becoming the standard wireless protocol used in many IoT applications including: smart homes, smart cities, medical devices, wearables, and sensor connectivity. Learning a new technology is always challenging and usually comes with a learning curve. Some technologies are easier to learn than others. Unfortunately, Bluetooth Low Energy (BLE) can be one of those hard ones. The lack of good resources including blogs, tutorials, and up-to-date books that help a beginner to learn BLE, makes the task even more difficult. That is, in fact, the primary goal of this book: to provide you with a complete understanding of the basics and core concepts of BLE that you can learn in a single weekend. Here's a tiny list of the benefits this book will help you achieve: Understand what Bluetooth Low Energy is and how it compares to Bluetooth Classic. Become better informed about the use cases where BLE makes the most sense. Learn all about Bluetooth 5 and the new features it brought us. Understand how two BLE devices discover and connect with each other. Understand how BLE devices exchange and transfer data between each other. Fully grasp concepts such as Peripherals, Centrals, Advertising, Connections, GATT,

GAP, and many others. Learn about the newly released Bluetooth mesh standard. What readers are saying "I bought your BLE book and I love it. I am an iOS developer and your material helped me understand some of the finer points of BLE" -Alex Carrizo, Senior iOS Developer, iOS SME at Mobile Apps Company Topics include: The basics of Bluetooth Low Energy & Bluetooth 5.0. The difference between BLE and Bluetooth Classic (the one used for streaming audio and connecting headsets). The benefits and limitations of using BLE and which use cases make the most sense for BLE. The difference between a BLE Central and a BLE Peripheral. All about GATT (Generic Attribute Profile) and GAP (Generic Access Profile). How Bluetooth 5 achieves double the speed, four times the range, and eight times the advertising capacity.- How BLE devices advertise and discover each other. How two BLE devices connect to each other. How BLE devices exchange and transfer data between each other. Profiles, Services, and Characteristics. How secure BLE is, and how BLE devices secure the communication channel between them. The different connection and advertising parameters and what each of them means. An introduction to Bluetooth mesh. About the Author Mohammad Afaneh has been an embedded engineer for over 10 years. Since 2014, he has focused solely on learning and developing Bluetooth Low Energy applications. He even spent days and weeks reading through the 2,800+ page Bluetooth specification document looking for answers to questions he couldn't find answers to in other books and resources. He shares everything he knows about development for BLE technology at his website [www.novelbits.io](http://www.novelbits.io), and via training classes around the world. Developmental theory is the essence of any psychodynamic psychotherapy, and certainly of psychoanalysis. It is through an understanding of progressive life events, and the way these events relate to associated biological and social events, that we come to understand both psychopathology and psychological strengths. For a long time we have needed a clinically oriented book that surveys normal development in both childhood and adulthood. This book should be particularly helpful to all mental health professionals whose daily work requires a constant awareness and appraisal of developmental issues. Dr. Colarusso has integrated and summarized a tremendous amount of theoretical, empirical, and clinical material in a format that makes it come alive through clinical examples. This book should be of great interest to all students of human behavior as well as to seasoned clinicians. SHERWYN M. WOODS, M. D. , PH. D. vii Preface Each year as I gave a lecture series on child and adult development to the adult and child psychiatric residents at the University of California at San Diego,

someone inevitably would ask, "Is there a book that I could understand that has all of this information in it?" I would reply that I did not know of any single source, but I could refer the person to many articles and books on development.

A collection of the trend-setting stories from "the Dean of Science Fiction" which opened and explored such topics as first contact with aliens, the Internet, transfers among parallel universes, and many more. "The best of [these stories] are remarkable inventions, providing a window on to science fiction's first Golden Age that demonstrates exactly what made it golden" - Kirkus Review

Expert military modeler Bill Horan shares his knowledge of materials and techniques. Illustrated with over 260 color photographs of models by the author and other leading miniaturists. Includes easy-to-follow instructions detailing the preparation and painting of figures, converting and scratch-building figures, creating small vignettes as well as major dioramas, and the special challenge of mounted cavalry figures.
