

## Dictionary Of The Old Testament Wisdom Poetry Writings The Ivp Bible Dictionary Series

Volume XII of the highly respected Theological Dictionary of the Old Testament expands the scope of this fundamental reference tool for biblical studies. Ranging from pasah, pesah ("Passover") to qûm ("stand, rise"), these eighty-six articles include thorough etymological analysis of the Hebrew roots and their derivatives within the context of Semitic and cognate languages, diachronically considered, as well as Septuagint, New Testament, and extracanonical usages. Among the articles of primary theological importance included in Volume XII are these: par'oh ("Pharaoh"), pasa, pesa; ("sin, offense, crime"), sebaôt ("Sabaoth"), sadaq, sedeq, sedaqâ ("[be] righteous, righteousness"), qds, aodes ("holy"), and qahal ("congregation"). Each article is fully annotated and contains an extensive bibliography with cross-references to the entire series.

Volume XII of the highly respected Theological Dictionary of the Old Testament expands the scope of this fundamental reference tool for biblical studies. Ranging from p?sah, pesah ("Passover") toqm ("stand, rise"), these eighty-six articles include thorough etymological analysis of the Hebrew roots and their derivatives within the context of Semitic and cognate languages, diachronically considered, as well as Septuagint, New Testament, and extracanonical usages. Among the articles of primary theological importance included in Volume XII are these: par'?h ("Pharaoh"), p?sa, pesa' ("sin, offense, crime"), seb?t ("Sabaoth"), s?daq, sedeq, sed?q ("[be] righteous, righteousness"), qds, q?des ("holy"), and q?h?l ("congregation"). Each article is fully annotated and contains an extensive bibliography with cross-references to the entire series.

This respected volume is the Old Testament counterpart to Colin Brown's New International Dictionary of the New Testament Theology.

Volume XVI concludes the monumental, critically acclaimed Theological Dictionary of the Old Testament with an Aramaic dictionary. This latest and last TDOT volume incorporates nearly the complete lexicon of Biblical Aramaic as well as a major portion of the theologically, culturally, and historically relevant terms in other ancient Aramaic writings. Each article provides information on the term's meaning and usage, is fully annotated, and contains a bibliography with cross-references to the entire TDOT series. Further enhancing this volume are an introductory overview of the history of Aramaic and a comparative grammatical outline of ancient Aramaic at the end of the book.

Tremper Longman III and Peter E. Enns edit this collection of 148 articles by over 90 contributors on Job, Psalms, Proverbs, Ecclesiastes, Song of Songs, Lamentations, Ruth and Esther.

This multivolume work is still proving to be as fundamental to Old Testament studies as its companion set, the Kittel-Friedrich Theological Dictionary of the New Testament, has been to New Testament studies. Beginning with father, and continuing through the alphabet, the TDOT volumes present in-depth discussions of the key Hebrew and Aramaic words in the Old Testament. Leading scholars of various religious traditions (including Roman Catholic, Lutheran, Reformed, Anglican, Greek Orthodox, and Jewish) and from many parts of the world (Denmark, France, Germany, Great Britain, Greece, Israel, Italy, the Netherlands, Norway, Sweden, Switzerland, and the United States) have been carefully selected for each article by editors Botterweck, Ringgren, and Fabry and their consultants, George W. Anderson, Henri Cazelles, David Noel Freedman, Shemaryahu Talmon, and Gerhard Wallis. The intention of the writers is to concentrate on meaning, starting from the more general, everyday senses and building to an understanding of theologically significant concepts. To avoid artificially restricting the focus of the articles, TDOT considers under each keyword the larger groups of words that are related linguistically or semantically. The lexical work includes detailed surveys of a word's occurrences, not only in biblical material but also in other ancient Near Eastern writings. Sumerian, Akkadian, Egyptian, Ethiopic, Ugaritic, and Northwest Semitic sources are surveyed, among others, as well as the Qumran texts and the Septuagint; and in cultures where no cognate word exists, the authors often consider cognate ideas. TDOT's emphasis, though, is on Hebrew terminology and on biblical usage. The contributors employ philology as well as form-critical and traditio-historical methods, with the aim of understanding the religious statements in the Old Testament. Extensive bibliographical information adds to the value of this reference work. This English edition attempts to serve the needs of Old Testament students without the linguistic background of more advanced scholars; it does so, however, without sacrificing the needs of the latter. Ancient scripts (Hebrew, Greek, etc.) are regularly transliterated in a readable way, and meanings of foreign words are given in many cases where the meanings might be obvious to advanced scholars. Where the Hebrew text versification differs from that of English Bibles, the English verse appears in parentheses. Such features will help all earnest students of the Bible to avail themselves of the manifold theological insights contained in this monumental work.

To ascertain the exact meaning of the words and phraseology of the originals of the Holy Scriptures is of great importance, particularly those which have a variety of meanings in English. The research work of the past fifty years, with the discovery of a large number of inscriptions and documents, and especially of the non-literary writings. The present volumes are produced especially for the help of those who do not study Hebrew, though it is hoped that those who are familiar with the original will find them useful. The work is of an expository character, comments being given on various passages referred to under the different headings. The doctrines of Scripture are dealt with at some length, and notes are provided on matters historical, and technical.

W.E Vine

Analyzes the meaning of Hebrew terms used in the Old Testament, considering their occurrences in ancient Near Eastern texts

Exploring the major themes and issues of the Pentateuch, this encyclopedic work offers authoritative overviews, detailed examinations and new insights from the world of the ancient Near East. Edited by T. Desmond Alexander and David W. Baker.

Analyzes the meaning of Hebrew terms used in the Old Testament, considering their occurrences in ancient Near Eastern texts.

The Eerdmans Dictionary of the Bible gathers nearly 5,000 alphabetically ordered articles that thoroughly yet clearly explain all the books, persons, places, and significant terms found in the Bible. The Dictionary also explores the background of each biblical book and related writings and discusses cultural, natural, geographical, and literary phenomena matters that Bible students at all levels may encounter in reading or discussion. Nearly 600 first-rate Bible authorities have contributed to the Eerdmans Dictionary of the Bible. Intended as a tool for practical Bible use, this illustrated dictionary reflects recent archaeological discoveries and the breadth of current biblical scholarship, including insights from critical analysis of literary, historical, sociological, and other methodological issues. The editorial team has also incorporated articles that explore and interpret important focuses of biblical theology, text and transmission, Near Eastern

archaeology, extrabiblical writings, and pertinent ecclesiastical traditions - all of which help make the Eerdmans Dictionary of the Bible the most comprehensive and up-to-date one-volume Bible dictionary on the market today.

With this new volume, IVP's Black Dictionary series completes its coverage of the Old Testament canonical books. A true compendium of recent scholarship, the volume includes 115 articles covering all aspects of Isaiah, Jeremiah, Ezekiel, the twelve "minor prophets" and Daniel.

A Bible dictionary provides information about biblical terms, themes, people, and places, including Aaron, architecture, bitumen, and Cyrene.

Examines the major themes of the first five books of the Old Testament.

The Dictionary of the Old Testament: Pentateuch' is the first in a four-volume series covering the text of the Old Testament. Following in the tradition of the four award-winning IVP dictionaries focused on the New Testament and its background, this encyclopedic work is characterized by close attention to the text of the Old Testament and the ongoing conversation of contemporary scholarship. In exploring the major themes and issues of the Pentateuch, it informs and challenges its readers with authoritative overviews, detailed examinations and new insights from the world of the ancient Near East. The 'Dictionary of the Old Testament: Pentateuch' is designed to be your first stop in the study and research of the Pentateuch, on which the rest of the Bible is built.

The Old Testament books of wisdom and poetry carry themselves differently from those of the Pentateuch, the histories or the prophets. The divine voice does not peal from Sinai, there are no narratives carried along by prophetic interpretation nor are oracles declaimed by a prophet. Here Scripture often speaks in the words of human response to God and God's world. The hymns, laments and thanksgivings of Israel, the dirge of Lamentations, the questionings of Qohelet, the love poetry of the Song of Songs, the bold drama of Job and the proverbial wisdom of Israel all offer their textures to this great body of biblical literature. Then too there are the finely crafted stories of Ruth and Esther that narrate the silent providence of God in the course of Israelite and Jewish lives. This third Old Testament volume in IVP's celebrated "Black Dictionary" series offers nearly 150 articles covering all the important aspects of Job, Proverbs, Ecclesiastes, Psalms, Song of Songs, Lamentations, Ruth and Esther. Over 90 contributors, many of them experts in this literature, have contributed to the 'Dictionary of the Old Testament: Wisdom, Poetry and Writings'. This volume maintains the quality of scholarship that students, scholars and pastors have come to expect from this series. Coverage of each biblical book includes an introduction to the book itself as well as separate articles on their ancient Near Eastern background and their history of interpretation. Additional articles amply explore the literary dimensions of Hebrew poetry and prose, including acrostic, ellipsis, inclusio, intertextuality, parallelism and rhyme. And there are well-rounded treatments of Israelite wisdom and wisdom literature, including wisdom poems, sources and theology. In addition, a wide range of interpretive approaches is canvassed in articles on hermeneutics, feminist interpretation, form criticism, historical criticism, rhetorical criticism and social-scientific approaches. The 'Dictionary of the Old Testament: Wisdom, Poetry and Writings' is sure to command shelf space within arm's reach of any student, teacher or preacher working in this portion of biblical literature.

A Christianity Today 1999 Book of the Year! Every reader of the Bible has encountered the powerful, comforting and sometimes puzzling imagery of Scripture. These concrete pictures with their hidden force have struck sharp and lasting impressions on our minds. Their imprint has etched itself on the language and grammar of Christian faith and Western culture. Why then do traditional Bible dictionaries and reference works offer so little help to explorers of the Bible's galaxy of verbal pictures? They excel in describing the climate, borders and location of Galilee or Sinai. But they are often blind to the artistic expressions and deaf to the musical meanings that echo from within the world of the biblical text. The Dictionary of Biblical Imagery is the first contemporary reference work dedicated to exploring the images, symbols, motifs, metaphors and literary patterns found in the Bible. More than that, it examines the Bible's universal archetypes or master images--including the plot motifs and character types that recur throughout life, literature and the Bible. This unique dictionary explores the dazzling variety in which the Word of God comes dressed in clothes of everyday life. It traces the trail of images from Eden to the New Jerusalem. It captures the plotted patterns of biblical narrative. It surveys the imaged texture of each book of the Bible. In short, The Dictionary of Biblical Imagery is an inviting, enlightening and indispensable companion to the reading, study, contemplation and enjoyment of the Bible.

The writings of the prophets make up over a quarter of the Old Testament. But perhaps no other portion of the Old Testament is more misunderstood by readers today. For some, prophecy conjures up knotted enigmas, opaque oracles and terrifying visions of the future. For others it raises expectations of a plotted-out future to be reconstructed from disparate texts. And yet the prophets have imprinted the language of faith and imagination with some of its most sublime visions of the future - nations streaming to Zion, a lion lying with a lamb, and endlessly fruiting trees on the banks of a flowing river. We might view the prophets as stage directors for Israel's unfolding drama of redemption. Drawing inspiration from past acts in that drama and invoking fresh words from its divine author, these prophets speak a language of sinewed poetry, their words and images arresting the ear and detonating in the mind. For when Yahweh roars from Zion and thunders from Jerusalem, the pastures of the shepherds dry up, the crest of Carmel withers, and the prophetic word buffets those selling the needy for a pair of sandals. The Dictionary of the Old Testament: Prophets is the only reference book of its kind. Not only does it focus exclusively on the prophetic books; it also plumbs their imagery of mountains and wilderness, flora and fauna, temple and Zion. It maps and guides us through topics such as covenant and law, exile and deliverance, forgiveness and repentance, and the Day of the Lord. Here the nature of prophecy is searched out in its social, historical, literary and psychological dimensions as well as its synchronic spread of textual links and associations. And the formation of the prophetic books into their canonical collection, including the

Book of the Twelve, is explored and weighed for its significance. Then too, contemporary approaches such as canonical criticism, conversation analysis, editorial/redaction criticism, feminist interpretation, literary approaches and rhetorical criticism are summed up and assayed. Even the afterlife of these great texts is explored in articles on the history of interpretation as well as on their impact in the New Testament.

This groundbreaking reference tool introduces key names, theories, and concepts for interpreting Scripture.

This is Volume 8 of a major, multivolume reference work in which the key Hebrew and Aramaic words of the Old Testament are discussed in depth with emphasis on meaning. This series is as fundamental for Old Testament studies as its companion set, the Kittel-Friedrich Theological Dictionary of the New Testament has been for study of the New Testament.

The history of Israel forms the skeletal structure of the Old Testament. Understanding this history and the biblical books that trace it is essential to comprehending the Bible. The Dictionary of the Old Testament: Historical Books is the only reference book focused exclusively on these biblical books and the history of Israel.

Dictionary of the Old Testament: Pentateuch A Compendium Of Contemporary Biblical Scholarship Inter-Varsity Press

The 'Dictionary of the Old Testament: Historical Books' is the second volume in IVP's Old Testament dictionary series. This volume picks up where the 'Dictionary of the Old Testament: Pentateuch' left off - with Joshua and Israel poised to enter the land - and carries us through the postexilic period. Following in the tradition of the four award-winning IVP dictionaries focused on the New Testament, this encyclopedic work is characterized by in-depth articles focused on key topics, many of them written by noted experts. The history of Israel forms the skeletal structure of the Old Testament. Understanding this history and the biblical books that trace it is essential to comprehending the Bible. The 'Dictionary of the Old Testament: Historical Books' is the only reference book focused exclusively on these biblical books and the history of Israel.

The Complete Word Study Dictionary: Old Testament is the final volume in AMG's Complete Word Study Series. These Bible study tools are designed to make the original languages of the Bible accessible to every student of the Word of God. This lexicon is a companion volume to The Complete Word Study Old Testament, which identifies the words of the Hebrew text of the Old Testament by the placement of Strong's numbers and grammatical codes over the English text. Together these two volumes represent the Old Testament portion of this series.

Based on the First, Second, and Third Editions of the Koehler-Baumgartner Lexicon in Veteris Testamenti Libros, this abridgment provides everything the student needs to translate an Old Testament passage.

AMG's Comprehensive Dictionary of Old Testament Words defines all the common words and the proper names of people and places found in the Old Testament. It takes into consideration the English terms used by various excellent translations of the Bible. It was written to serve as a primary multi-functional reference tool for students of the Old Testament, those who teach the Word of God and all those who read it, with or without Hebrew knowledge."

Edited by Bill T. Arnold and Hugh G. M. Williamson, the Dictionary of the Old Testament: Historical Books is the second volume in IVP's Old Testament dictionary series. This volume picks up where the Dictionary of the Old Testament: Pentateuch left off--with Joshua and Israel poised to enter the land--and carries us through the postexilic period. Following in the tradition of the four award-winning IVP dictionaries focused on the New Testament, this encyclopedic work is characterized by in-depth articles focused on key topics, many of them written by noted experts. The history of Israel forms the skeletal structure of the Old Testament. Understanding this history and the biblical books that trace it is essential to comprehending the Bible. The Dictionary of the Old Testament: Historical Books is the only reference book focused exclusively on these biblical books and the history of Israel. The dictionary presents articles on numerous historical topics as well as major articles focused on the books of Joshua, Judges, Samuel, Kings, Chronicles, Ezra and Nehemiah. Other articles focus on the Deuteronomistic History as well as the Chronicler's History, the narrative art of Israel's historians, innerbiblical exegesis, text and textual criticism, and the emergence of these books as canonical. One feature is a series of eight consecutive articles on the periods of Israel's history from the settlement to postexilic period, which form a condensed history of Israel within the DOTHB. Syro-Palestinian archaeology is surveyed in one article, while significant archaeological sites receive focused treatment, usually under the names of biblical cities and towns such as Jerusalem and Samaria, Shiloh and Shechem, Dan and Beersheba. Other articles delve into the histories and cultures of the great neighboring empires--Egypt, Assyria, Babylonia and Persia--as well as lesser peoples, such as the Ammonites, Edomites, Moabites, Philistines and Phoenicians. In addition there are articles on architecture, Solomon's temple, agriculture and animal husbandry, roads and highways, trade and travel, and water and water systems. The languages of Hebrew and Aramaic, as well as linguistics, each receive careful treatment, as well as the role of scribes and their schools, and writing and literacy in ancient Israel and its environs. The DOTHB also canvases the full range of relevant extrabiblical written evidence, with five articles focused on the various non-Israelite written sources as well as articles on Hebrew inscriptions and ancient Near Eastern iconography. Articles on interpretive methods, on hermeneutics and on preaching the Historical Books will assist students and communicators in understanding how this biblical literature has been studied and interpreted, and its proper use in preaching. In the same vein, theological topics such as God, prayer, faith, forgiveness and righteousness receive separate treatment. The history of Israel has long been contested territory, but never more so than today. Much like the quest of the historical Jesus, a quest of the historical Israel is underway. At the heart of the quest to understand the history of Israel and the Old Testament's Historical Books is the struggle to come to terms with the conventions of ancient historiography. How did these writers conceive of their task and to whom were they writing? Clearly the Old Testament historians did not go about their task as we would today. The divine word was incarnated in ancient culture. Rather than being a dictionary of quick answers and easy resolutions readily provided, the DOTHB seeks to set out the evidence and arguments, allowing a range of informed opinion to enrich the conversation. In this way it is hoped that the DOTHB will not only inform its readers, but draw them into the debate and equip them to examine the evidence for themselves.

This useful resource, which concludes the illustrious Theological Dictionary of the Old Testament, provides TDOT users with an index to all sixteen previous volumes. The first part of this volume indexes keywords in Hebrew, Aramaic, and English, while the second part indexes all textual references—both biblical and extrabiblical.
