THE HEALING THERAPY OF DIMETHYLSULFOXIDE (DMSO). Guide For Both Man And Animal. Dimethyl Sulfoxide (DMSO) is a liquid with characteristics clear and odourless nature, economically produced as a product of the paper business. Despite the fact that DMSO has been named as a medication, it is really a characteristic healing compound that is found in nature, easily in both food and several plants. In contrast to engineered compounds, which can smother symptomatic presentations rather than recuperate such symptoms or overpower the body, most of regular natural substances help stimulate and energize the body's inborn healing systems? It is widely known that substances, even commonly used drugs found around, such as ibuprofen or acetaminophen, can be abused or ingested too much. In the early 60's the medical body saddled with the responsibility of sanitizing the system (the Food & Drug Administration - FDA), suspended every laboratory research and clinical trials in relation to DMSO. This is because there were reports of some of its adverse effect in human, particularly with respect to the eyes.... This book serves as a hand-book guide for both medical and non-medical personnels. It will guide you on how you can mix your own DMSO concentrations (homemade DIY). However, like it is always said "...if symptoms persists after two days, please consult your doctor." Get a copy!!!

A detailed guide to restoring the eight foundational areas of health • Explains how each of legendary Taoist masters known as the Eight Immortals has a specific area of health as the focus of his or her teachings • Offers practices, techniques and guidelines for each of the Eight Immortal Healer teachings, including the important roles of oxygen and water in the body, nutrition, detoxification, exercise, energy work, emotional pollution, and spiritual hygiene The Eight Immortals are a group of legendary ancient Taoist masters, each associated with a specific area of health or a powerful healing technique. These eight disciplines can bestow vibrant health and well-being and provide the antidote to the stresses, ailments, degenerative diseases, and toxins of modern life. In this guide to the healing practices of the Eight Immortals, Master Mantak Chia and Johnathon Dao share the legends of each Immortal teacher and detail the many ways to apply their wisdom through nutrition, exercises, supplements, detoxification methods, spiritual practices, and energy work. They explain how the first Immortal, born during the 8th century AD, is associated with oxygen, considered in the Taoist healing perspective as the body's primary nutrient. They discuss how oxygen deficiency is the main culprit in cancer and virus and provide a number of oxygen therapies including the use of hydrogen peroxide and deep breathing to stimulate the metabolism and immune system. The second Immortal Healer centers on water, and the authors explain how chronic dehydration can lead to a host of ailments and offer advice for rehydrating. The other teachings of the Immortal Healers include Nutrition, with guidance on supplements, superfoods, toxic foods, and daily meals; Detoxification, with detailed guidelines for cleansing the body's organs and glands; Avoiding environmental poisons, with advice on vaccines, dental amalgam fillings, sunscreen, chemotherapy, fluoride, and pesticides; Exercise, with step-by-step instructions for Inner Alchemy practices, yoga, and breathing techniques; Maintenance of the energy body, through acupuncture, chi kung healing, magnet therapy, and photon sound beams; and Emotional pollution and spiritual hygiene, with a wealth of practices for balancing the emotional body and staying connected to Source, including forgiveness, meditation, and karmic yoga. By following these Eight Immortal Healers, you can take control of your health, remove the root causes of the chronic ailments that inhibit well-being and longevity, and choose to live life to the fullest in happiness and radiant health.

- Ignorance about cancer can be fatal, expensive, and wholly unnecessary. • There are books on gentle, effective cancer care, but none of them tell the truth about our uniquely individual needs. • This book is as close to the whole truth as possible and includes the works of the great geniuses who healed cancer patients with remarkable results. • It also includes doctors and hospitals where healing cancer patients is not a crime. • I cured my own breast cancer but didn't stop researching until I found what was necessary to help all the others find their way. • Cancer is still a mystery, because the cancer industry does not want you to know that it is not a mystery. • Cancer prevention should be common knowledge, but it won't be until it is not sponsored by the conventional pharmaceutical industry. • Cancer care is at least a hundred years behind where it should be. • There will come a time when we will wake up and demand that individual cancer care be proven by large-scale clinical trials.

This volume covers experimental and theoretical advances on the relationship between composition, structure and macroscopic mechanical properties of novel hydrogels containing dynamic bonds. The chapters of this volume focus on the control of the mechanical properties of several recently discovered gels with the design of monomer composition, chain architecture, type of crosslinking or internal structure. The gels discussed in the different chapters have in common the capability to dissipate energy upon deformation, a desired property for mechanical toughness, while retaining the ability to recover the properties of the virgin material over time or to self-heal when put back in contact after fracture. Some chapters focus on the synthesis and structural aspects while others focus on properties or modelling at the continuum or mesoscopic scale. The volume will be of interest to chemists and material scientists by providing guidelines and general structure-property considerations to synthesize and develop innovative gels tuned for applications. In addition it will provide physicists with a better understanding of the role of weak interactions between molecules and physical crosslinking on macroscopic dissipative properties and self-healing or self-recovering properties.

Learn how proven alternative and natural therapies can help eliminate all types of headaches including migraine, tension, sinus, eyestrain, allergy/sensitivity and more. DMSO is a natural substance that is obtained from wood. Medical and pharmaceutical studies have repeatedly shown that DMSO has the greatest range and number of healing effects ever recorded for a single substance. Its comprehensive healing properties are unique, all working in synergistic harmony. Over the last sixty years, more than forty thousand research articles on this substance have been published but the general public remains unaware of these discoveries, partly as a result of efforts from certain quarters to suppress the dissemination of that information. Having been treasured as a secret for many years by just a small number of specialists and alternative practitioners, DMSO is currently enjoying a remarkable comeback in the field of alternative medicine. This book now makes this information available in an accessible and engaging manner, revealing all about this wonderful universal medicine, its uses and its applications. Hartmut Fischer, an alternative health practitioner with a background in scientific and pharmaceutical research, has been researching this substance for many years and uses it privately and professionally in his practice. This book is intended as a practical, application-oriented reference book for patients who treat themselves, as well as for doctors, alternative health practitioners and other therapists.

This comprehensive book describes the design, synthesis, mechanisms, characterization, fundamental properties, functions and development of self-healing smart materials and their composites with their allied applications. It covers cementitious concrete composites, bleeding composites, elastomers, tires, membranes, and composites in energy storage, coatings, shape-memory, aerospace and robotic applications. The 21 chapters are written by researchers from a variety of disciplines and backgrounds. Are you sick all the time? Do you have recurring infections, fibromyalgia, acid reflux, chronic fatigue syndrome, migraine headaches, asthma, allergies, or ongoing digestive problems, such as IBS? Have you been diagnosed with rheumatoid arthritis, MS, ALS, or cancer? Maybe you have difficulty concentrating, memory loss, depression, or insomnia. Are you always going to the doctor, for various and ongoing ailments? Maybe you need to look at your environment as the possible culprit. Maybe you are moldy, like me. Read how exposure to indoor toxic mold and mycotoxins has affected my health and my life, and how mold could also be affecting you. Find out the signs and symptoms of mold illness, and effective clinical ways to test for it. Check out a new, highly effective, and safe technology in mold remediation. Read interviews from three mold experts. Don't be one of the 500,000 in the US who die from mold-induced illness each year. Stay safe. Stay mold-free. Are you moldy?
