use of alternative or complementary medicine in dealing with illness, the utility of placebo therapies, and the role of hope in the healing process. Twain's evaluation of the medical practices of his era provides a fresh, humanistic, and personalized view of the dramatic changes that occurred in medicine through the nineteenth century and into the first decade of the twentieth. Twain scholars, general readers, and medical professionals will all find this unique look at his work appealing.

'We must get to the bottom of this dark and queer business, no matter what the cost!' Something ghastly is afoot in Victorian Yorkshire. Something that kills. Bodies are washing up in the canal, their skin a waxy, glowing red... But just what is this crimson horror? Madam Vastra, Jenny and Strax are despatched to investigate the mystery. Strangely reluctant to assist their enquiries is Mrs Winifred Gillyflower, matriarch of 'Sweetville', a seemingly utopian workers' community. Why do all roads lead to the team's old friends Clara and the Doctor? Who is Mrs Gillyflower's mysterious silent partner Mr Sweet? And will the motley gang be in time to defeat the mysterious power that threatens all the world with its poison?

A guide to the technological fantasies, including advanced tools, weapons, computers, spaceships, robots, and lifelike human clones, introduced on the long-running British science fiction television series.

Collects Doctor Strange (2018) #6-11. Doctor Strange returns to Earth to find Doctor Strange?! Something bizarre happened since Stephen took off into the cosmos — and it doesn't bode well for him. It's time to gear up, get serious and build his new arsenal — because Strange has become his own worst enemy. Literally! And as if this twisted mystery weren't enough, a villain from Strange's past threatens the Sanctum Sanctorum in a

way Stephen has never experienced before! A shadowy figure has been working in the background for months, chipping away at Stephen and other magicians — and now the other shoe finally drops. Does Strange stand a chance against a mysterious foe who controls all magic — an opponent who can turn off his spells with a snap of their fingers? Join a lineup of all-star artists for a monumentally strange tale!

"I've struck it!" Mark Twain wrote in a 1904 letter to a friend. "And I will give it away—to you. You will never know how much enjoyment you have lost until you get to dictating your autobiography." Thus, after dozens of false starts and hundreds of pages, Twain embarked on his "Final (and Right) Plan" for telling the story of his life. His innovative notion—to "talk only about the thing which interests you for the moment"—meant that his thoughts could range freely. The strict instruction that many of these texts remain unpublished for 100 years meant that when they came out, he would be "dead, and unaware, and indifferent," and that he was therefore free to speak his "whole frank mind." The year 2010 marks the 100th anniversary of Twain's death. In celebration of this important milestone and in honor of the cherished tradition of publishing Mark Twain's works, UC Press is proud to offer for the first time Mark Twain's uncensored autobiography in its entirety and exactly as he left it. This major literary event brings to readers, admirers, and scholars the first of three volumes and presents Mark Twain's authentic and unsuppressed voice, brimming with humor, ideas, and opinions, and speaking clearly from the grave as he intended. Editors: Harriet E. Smith,

The Doctor and Donna travel back in time to India, 1947 - the latest in the bestselling series of Doctor Who novels

This book gathers together a large body of critical sources on major figures in literature. Each volume presents contemporary responses to a writer's work, enabling students and researchers to read for themselves, for example, comments on early performances of Shakespeare's plays, or reactions to the first publication of Jane Austen's novels.
