A pickle tries to escape being eaten by fleeing through the city streets, pursued by a variety of other food items.

With a Foreword by Dr. Fishwick's student--Tom Wolfe. This book redefines popular culture in the light of the revolutionary changes brought about by the information revolution and the digital divide. It explores the phenomenal growth and extension of popular culture in the last decade and ties in the vast changes brought about by technology and the Internet. In an era when American television and the Internet reach virtually every corner of the globe, Popular Culture in a New Age shows how the poorly understood and often underestimated area known as popular culture affects all of our lives. Beginning with an evaluation of the millennium celebrations and the enormous error of Y2K madness, Popular Culture in a New Age then moves on to the "New Gold Rush" brought about by technology and takes a hard look at its risks. The book examines a wide variety of pop culture phenomena such as carnivals, celebrities, and the road from nineteenth century humbuggery (P. T. Barnum's term) to today's hype. In Popular Culture in a New Age you'll learn about: the three faces of popular culture: folk, fake, and pop--how they relate and how they differ today's popular icons the empire of Disney World Marshall McLuhan, our era's most profound and shocking electronic thinker African-American popular culture and style Popular Culture in a New Age gives characterization to the postmodern world in a chapter on "postmodern pop," followed by the shift from civil religion to civil disobedience and the "myth of success." This insightful book will help you understand the way we eat, think, vote, and respond to our fast-changing world in the era of hype, spin doctors, chat rooms, and jargon.

The original CliffsNotes study guides offer expert commentary on major themes, plots, characters, literary devices, and historical background. CliffsNotes on Catch-22 takes you into this unforgettable novel that is full of satire, exaggeration, grotesque and comic caricatures, and telling allusions. Heller's main characters are two Jewish boys from Brooklyn at the end of World War II – one from an orthodox family, one from a secular background. The growing friendship between the boys reflects the tensions within American society. With this study guide, you'll be able to follow the unique structure of the novel and supplement your reading with insights into the life and background of author Joseph Heller. Other features that help you study include Life and background of the author Character analyses of major players A character map that graphically illustrates the relationships among the characters Critical essays Review questions Classic literature or modern modern-day treasure — you'll understand it all with expert information and insight from CliffsNotes study guides.

A three-level series of grammar reference and practice books for teenage and young adult learners. Active Grammar Level 1 covers all the

grammar taught at A1-A2 (CEF) level. The book presents grammar points in meaningful context through engaging and informative texts, followed by clear explanations and useful tips that highlight common mistakes usually made by low-level learners. Exam-style exercises provide plenty of challenging practice and encourage students to apply their own ideas creatively to grammar learning. A large number of contrastive revision exercises in the book and on the CD-ROM allow students to assess and monitor their progress at regular intervals. This version without answers and CD-ROM is suitable for classroom use and self-study.

From the Preface by Nicholas Lash: The risk is that a collection such as this will lack the unity necessary to make it useful, and readable, as a book. But I selected these particular pieces because, for all the variety of their themes and levels of treatment, they seemed to me to illustrate two enduring preoccupations: an attempt to grapple with problems arising from the historical character of Christian faith and theology, and a conviction that, far from surrendering its critical integrity and (relative) autonomy, Christian theological reflection only attains its own proper rigour and significance if it is continually borne in mind that such reflection is dependent upon, secondary to, Christian faith and practice. I have therefore concentrated on these two issues in the Introduction. If the emphasis in these essays is on questions of method, this is partly because the confusion and uncertainty which many Christians experience today is perhaps less obviously the expression of a crisis of faith than a crisis of culture: we are not sure how to go about the business of connecting our Christianity with other aspects of our life and experience; we are not sure what would count, and on what grounds, as appropriate ways of giving linguistic and conceptual expression to our faith. And these are therefore essays, essais, attempts, contributions to a discussion. In a situation such as ours, there is an inherent implausibility in the idea that any one man - be he theologian, philosopher, economist, or politician - can come up with answers, with solutions to our common problems.

A theoretical, historical, and critical inquiry, this book looks at the assumptions anthologies are predicated on, how they are put together, the treatment of the poems in them, and the effects their presentations have on their readers.

Presents a wealth of factual information on the seashore environment and the characteristics, habits, and habitats of marine and tidewater creatures

Poetry is the most complex and intricate of human language used across all languages and cultures. Its relation to the worlds of human experience has perplexed writers and readers for centuries, as has the question of evaluation and judgment: what makes a poem "work" and endure. The Poem as Icon focuses on the art of poetry to explore its nature and function: not interpretation but experience; not what poetry means but what it does. Using both historic and contemporary approaches of embodied cognition from various disciplines, Margaret Freeman argues that a poem's success lies in its ability to become an icon of the felt "being" of reality. Freeman explains how the features of semblance, metaphor, schema, and affect work to make a poem an icon, with detailed examples from various poets. By analyzing the ways poetry provides insights into the workings of human cognition, Freeman claims that taste, beauty, and pleasure in the arts are simply products of the aesthetic faculty, and not the aesthetic faculty itself. The aesthetic faculty, she argues, should be understood as the science of human perception, and therefore constitutive of the cognitive processes of attention, imagination, memory, discrimination, expertise, and judgment. An intriguing portrait of Roger Scruton and his philosophy.

In Tom Stoppard's Plays: Patterns of Plenitude and Parsimony Nigel Purse offers a unique appraisal, on a thematic basis, of all Stoppard's plays by identifying key patterns and uncovering at the heart of Stoppard's theatrical plenitude the principle of parsimony.

Assembling accessible and informative essays on contemporary debates and future issues in politics, this rewarding volume focuses on

political developments in UK, European and international issues, and modern theoretical debates and problems. Each essay establishes the historical context before providing a speculative analysis of possible future developments. The collection presents a range of challenging and provocative accounts that deal with some of the most delicate, complex and fundamental issues that affect people living in Western Europe in the twenty-first century.

Modeled after the popular TV game show; features categories like state History, Geography, Exploration, People, Statehood, State Attractions, and lots more. Each category lists educational and entertaining answers--the student gives the correct question.

Includes approximately 30 categories and 150 answers and questions. Kids love the Jeopardy-style format! This reproducible book features categories of your state to build quick-thinking skills. The categories includes missions, animals, landmarks, flag facts, ancestors, politics, settlers, statehood, trivia, first, potpourri and more.
