During his younger days working as a bush mechanic and pearl diver in remote WA, Greg Quick spent countless nights lying in a swag and staring at the stars. That daily distraction grew into a passion that has seen him become one of Australia's best known and most engaging astronomers. In recent years Greg - aka 'Space Gandalf' - has taken on cult status among audiences via his appearances alongside Professor Brian Cox in the hit TV series Stargazing Live. Greg's practical explanations of the complexities of space have also earned him respect from astronomers around the world. *Is The Moon Upside Down?* is an absorbing guided tour of the cosmos as seen through Greg's eyes. Unlike many of his peers who studied at university he offers a unique and refreshing perspective on astronomy that was instead forged on cliff tops outside Alice Springs, in the endless expanse of the Great Sandy Desert, on the floor of the Indian Ocean and in his own front yard in Broome. No matter what mysteries you've pondered about Earth's astral dance with the Sun, planets, Moon and the stars, it's guaranteed Greg has thought about them too, and the answers can be found in the pages of this book.

Upside-Down Zen invites readers to explore the vivid spirit of Zen Buddhism in fresh ways. Recalling, in another vein, the warm, lyrical style of Lin Jensen's *Bad Dog!*, author Susan Murphy offers a multifaceted take on the spiritual, grounded in the everyday. She uses her skills as storyteller, filmmaker, and poet to uncover the connections between Zen and Western cinema, as well as between Zen and traditions as diverse as Australian aboriginal beliefs and Jewish folktales. In the process, she finds spirituality where it has always belonged ? wherever life is happening. Murphy helps readers make sense of Zen koans, the often oversimplified and misunderstood teaching stories of the tradition, and highlights their wisdom for any reader on the spiritual path. A strong new voice in Western Buddhism, Murphy speaks for the many ?unrecorded" women of Zen while bringing a lively, literate approach to a sometimes daunting genre.

Jesus' life should turn our world upside-down. His first observers, according to Luke, were routinely seized with amazement, both at the bending of physics--making the blind see and lame walk--and at the ridiculous things he did and taught. A careful look at the Jesus of the Gospels sketches a man completely out of touch with conventional thinking; a man radically devoted to living a shocking life for the sake of the broken and forgotten. In popular depictions of Jesus today he seems to be more concerned with upholding a conventional way of life than with overturning our understanding of ourselves. Jesus' life story should lead more to humble servanthood than to syncopated light shows in church or the triumph of a political candidate or a well-ordered and respectable lifestyle. *The Upside Down Way* is a series of devotionals drawn from the text of Luke. Each devotional is an invitation to a fresh look at the outrageous words and actions of Jesus. Author and pastor Matthew Ingalls combines rigorous historical study with a voice that is unflinchingly bold, reflective, honest, and challenging, in order to elevate Luke's ridiculous Jesus to his rightful position as the fountain of Christian faith.

This is a book written out of an observation of the great need for God's full truth to be proclaimed as never before. The word of God (the Bible), His truth, is not matching the lifestyles of many proclaiming Christians today as we see the end draw near to that promised land. The Lord God has opened my mind up to so many pertinent issues of today: Not in judgment, but in need of checking our short accounts before the Lord God Almighty. God has a schedule, and though Satan does not know the hour or the day, just as we do not; he knows the seasons and is in full attack mode to deceive and destroy. As this world seems to be spinning out of control with everything it seems running at warp speed. God has never been out of control and never will be. We need like never before to fix our eyes on Him and His word of truth if we are to survive in the chaos of today. Record number of young adults are today leaving the church, and it's easy to see why when you look at all the hypocrisy that they are seeing in reference to God's truth. In how we are living our lives as if this world is our hope. And to all the compromise of today. It's important that we don't take observation as judgment, but that we examine our lives unto the full word of God. Not to just live in a form of legalism and rules, but living in the grace of God and living that grace out, not taking advantage of that grace. It should never be about judgment but encouragement to running the race as to win the

prize. This is my motivation! "Complacency in living in half-truth is not truth at all."

An authority on Asia and globalization identifies the challenges China's growing power poses and how it must be confronted. When China joined the World Trade Organization in 2001, most experts expected the WTO rules and procedures to liberalize China and make it "a responsible stakeholder in the liberal world order." But the experts made the wrong bet. China today is liberalizing neither economically nor politically but, if anything, becoming more authoritarian and mercantilist. In this book, notably free of partisan posturing and inflammatory rhetoric, renowned globalization and Asia expert Clyde Prestowitz describes the key challenges posed by China and the strategies America and the Free World must adopt to meet them. He argues that these must be more sophisticated and more comprehensive than a narrowly targeted trade war. Rather, he urges strategies that the United States and its allies can use unilaterally without contravening international or domestic law.

No longer can Acts be seen as a simple apologia that articulates Christianity's harmlessness vis-à-vis Rome. Rather, in its attempt to form communities that witness to God's apocalypse, author Kavin Rowe argues that Luke's second volume is a highly charged and theologically sophisticated political document. Luke aims at nothing less than the construction of a new culture - a total pattern of life - that inherently runs counter to the constitutive aspects of Graeco-Roman society.

Through letters and journal entries rich in detail, this text follows the trials of the 19th-century Palmer family who dominated the southern banks of South Carolina's Santee River. The volume offers insights into plantation life; education; religion; and slave/master relations. These poems by Carol Potter, about being a woman, a mother, a lesbian, are remarkably pure and full of energy. Written with love, they seem to imply that, yes, there is pain, but what a miracle there is for its setting. These poems are a rare meeting of craft and spontaneity, as if the poet were standing by the flume of a spillway and shaping the flow with her hands. --Doug Anderson

Reading *Upside Down* offers a paradigm shift from achievement gaps to opportunity gaps in literacy instruction. Drawing on the author's rich experiences working one-on-one with challenged readers, this book presents case studies illustrating the complexities of student learning experiences and the unique circumstances that shaped their acquisition of literacy. Wolter explores eight key factors that contribute to reading challenges in developing readers, including school readiness, the use of prescribed phonics-based programs, physical hurdles, unfamiliarity with English, and special education labeling. With a focus on the differences that educators can make for individual students, the text suggests ways to identify and address early opportunity gaps that can impact students throughout their entire educational career. Christmas is coming and Ann has found the perfect surprise for her Dad. It's a Christmas tree that was grown upside down. Little Ann knows just what needs to be done to decorate this unique tree. She's so excited she can't sit still. Join her as she helps Mom and Dad create the perfect tree for the family.

Many scholars have noted the role of China's demand for silver in the emergence of the modern world. This book discusses the interaction of this demand and the early-nineteenth-century Latin American independence movements, changes in the world economy, the resulting disruptions in the Qing dynasty, and the transformation from the High Qing to modern China. Man-houng Lin shows how the disruption in the world's silver supply caused by the turmoil in Latin America and subsequent changes in global markets led to the massive outflow of silver from China and the crisis of the Qing empire. During the first stage of this dynastic crisis, traditional ideas favoring plural centers of power became more popular than they ever had been. As the crisis developed, however, statist ideas came to the fore. Even though the Qing survived with the resumption of the influx of Latin American silver, its status relative to Japan in the East Asian order slipped. The statist inclination, although moderated to a degree

in the modern period, is still ascendant in China today. These changes--Qing China's near-collapse, the beginning of its eclipse by Japan in the East Asian order, and shifting notions of the proper relationship between state and market and between state and society--led to "China upside down."

Four weeks of daily readings with seven daily devotions which include prayer, Scripture and reflection. These devotions invite you to live as a follower of Jesus Christ. The author, Jacob Armstrong, is the founding pastor of Providence Church in Mt. Juliet, Tennessee. Pastor Armstrong is passionate about what he called "Worship Without Wall," taking God's love beyond the calls of a building to places of need in the community and the world.

In a world where evil is glorified, Christians are vilified, and athletes earn more than the total budget of some small countries, there comes a time when you think life is out of control-and your world is upside down. Peace I leave with you; my peace I give you. I do not give to you as the world gives. Do not let your hearts be troubled and do not be afraid (John 14:27).

If the people killed or starved to death by the Soviets were laid out end to end they would stretch half way to the moon. This compelling novel of life in the Soviet Union tells an upfront and personal story of a family who lived through the birth, life and death of perhaps the worst monster state ever to exist on earth. We shudder through the social upheavals of the 1920s, the terror of the 30s and the horror of WWII. We catch the mood of enthusiasm at first for Khrushchev and the bitter disappointment that came soon after as his economic policies failed. We discover that the smiling Khrushchev turned out to be one of the worst persecutors of the Church in history. Then we take an emotional roller-coaster ride through the years of Brezhnev, Andropov and the other old men. At last we meet Mikhail Gorbachev whose new thinking rapidly becomes old thinking. At last the Soviet Union dies -- or does it? The Kuladze family story is also a remarkable and tender love story in a world where life and death could hinge on intonation, nuance or thinking unapproved thoughts. It is a world in which Christening a baby must be done in total secrecy, yet millions do it anyway. The reader will never be the same after reading this absorbing and thoughtful book.

This book describes how the imposed Spanish colonial system altered the organization and belief systems of the native inhabitants of northern Peru during the first fifty years or so after the Spanish conquest. By centering on an area that was incorporated into the Inca empire relatively late (1460's-70's), the book offsets the Cuzco focus of much of the existing literature in Inca history and culture.

Sitney analyzes in detail the work of eleven American avant-garde filmmakers as heirs to the aesthetics of exhilaration and innovative vision articulated by Ralph Waldo Emerson and explored by John Cage, Charles Olson and Gertrude Stein. The films discussed span the sixty years since the Second World War. With three chapters each devoted to Stan Brakhage and Robert Beavers, two each to Hollis Frampton and Jonas Mekas, and single chapters on Marie Menken, Ian Hugo, Andrew Noren, Warren Sonbert, Su Friedrich, Ernie Gehr, and Abigail Child, *Eyes Upside Down* is the fruit of Sitney's lifelong study of visionary aspirations in the American avant-garde cinema. *The World Turned Upside Down?* interrogates the widespread claim that contemporary globalization has ended the centrality of the state in world affairs and is effectively irreversible. It offers discriminating definitions of globalization, internationalization and international interdependence and demonstrates the analytical and empirical difficulties generated by these concepts. Developments at the end of the twentieth century are compared with those of earlier eras, particularly the end of the nineteenth and start of the twentieth centuries. The book also surveys the historical role of the state and its enduring importance for human well-being. A central focus of the book is the challenge posed by contemporary developments to the role and capacity of the modern state and the consequences should such challenges prove to be overwhelming.

\* Authors with wide-ranging experience with children in war zones across the globe \*  
*Looks at the psychology of children's experiences in conflict in the context of their families and communities* *A World Turned Upside Down* looks at the experiences of children in war from a psychological and social ecological perspective, offering thoughtful observations and dispelling myths about what results when children grow up in conflict situations. In contrast to individualized approaches, the volume offers a deeper conceptualization that shows the socially mediated impacts of war. Children exposed to the same traumatic experiences may have different reactions and needs for psychosocial support. Further, psychosocial assistance to war-affected children often occurs not through the provision of therapy by outsiders but via support from insiders. Each contributor has worked extensively with children in war zones in Europe, Africa, Latin America, and Asia. They refrain from common perceptions of children as victims of war-induced trauma to provide a holistic understanding of children's experiences. Each helps pinpoint ways to reduce further violence, foster well-being and nurture the kinds of social connections that can liberate children from the pathologies of war so that they can mature into healthy and well-adjusted adults. Other contributors: Alastair Ager, Cairo Arafat, Catherine Chen, Amy E. Hepburn, Kathleen Kostelny, Siobhán McEvoy-Levy, Susan McKay, Dahab Musleh and Carl Triplehorn

Oh no, another book on love? But this is different. This is for people who are looking for a gritty account of life, love and the dilemmas of human existence. This is for twenty first century thinkers and lovers, from searching Christians to open minded agnostics and willing atheists who want a genuine account of love that respects human experience and mines the depths of a greater wisdom. Steven Ogden taps into Christianity, but there is no old man in the sky pulling the strings and no bible bashing or hocus pocus. And instead of Jesus meek and mild, he recommends the subversive Jesus: this Jesus provoked outrage and censure, all in the name of love, because people were more important to him than religious dogma, principles and institutions.
