The first, comprehensive military history of armed confrontations between humans and extraterrestrials • Includes documentation of incidents from World War I, World War II, the Korean War, the Vietnam War, the Gulf War, and the ongoing hostilities in the Middle East • Reveals the U.S. Navy's defeat in Antarctica by ETs, the shoot-down of "flying saucers" at Roswell, alien sabotage of nuclear weapons, in-flight abductions of USAF and Soviet officers, and photographic evidence of the Battle of Los Angeles • Explains the link between the development of atomic bombs and ballistic missiles and the increase in extraterrestrial intervention in the 20th century Although close encounters with alien space craft

are reported as far back as the reign of Pharaoh Thutmosis III in Egypt, it wasn't until the 20th century that UFO sightings and extraterrestrial encounters were truly documented, due to advances in technology and record-keeping as well as the vast increase in incidents, particularly with military forces. Revealing his extensive research and the verifiable evidence he's discovered, Frank Joseph presents a comprehensive military history of armed confrontations between humans and extraterrestrials in the 20th and 21st centuries. He explains how, with the development of atomic bombs and ballistic missiles, the frequency of extraterrestrial intervention in human affairs increased dramatically. He documents incidents both famous and little known, including the explosive demolition of U.S. munitions factories in 1916 by unearthly aerial vehicles, the Red Baron's dogfight with a UFO during World War I, "foo fighter" sightings and battles with Allied and Axis combatants during World War II, and eye-witness reports from encounters during the Korean War, the Vietnam War, the Gulf War in Iraq, and the ongoing hostilities in the Middle East. He examines the evidence for the shoot-down of "flying saucers" at Roswell and Aztec, New Mexico, alien sabotage of nuclear weapons systems, and in-flight abductions of USAF and Soviet officers and airplanes. He explores the photo evidence for the Battle of Los Angeles, which occurred three months after Pearl Harbor, and the details of Operation Highjump, the U.S. Navy's defeat in Antarctica by ET forces 17 months after the atomic bomb was dropped on Nagasaki, while also uncovering evidence of secret Antarctic German bases.

The author also examines recent, 21st-century examples of alien interdiction in Earthly affairs, such as the meltdown of the Fukushima Daiichi nuclear plant in Japan and the fiery abort of Elon Musk's Falcon 9 missile launch, both events accompanied by UFOs. Offering complete disclosure of the multitude of ET events over the past century, Frank Joseph gives us the first true reference book in the field of alien military encounters.

The Book of Revelation tells of angels who fall from their heavenly estates. The Mayan calendar foretells the fall to some two hundred thousand years ago. The discord that followed sent repercussions to earth, arriving about nine thousand years ago when the first generation of the human race Israel emerged. By 4500 BC, an Agenda of a Snake from the fallen angels began to breed the biblical lines of Cain and Seth. Soon, the third generation emerged, and the conditions man calls good and evil began proliferating on the earth. Man's spirit commenced through the spirit of the angel Michael, but today it remains trapped within the human mind. Six thousand years ago, the angels Michael, Ra, Viracocha, and Ra Agenda came to earth to free man's spirit by attempting to prevent the creation of the human race. Unsuccessful, they left earth, bequeathing the Mayan calendar, which contains information about the five Ages, to the Mayan people. The Ra Agenda reemerged by 1948 as the mysterious UFO that defied the laws of reality. They have come to secretly assist mankind through the approaching shift in human consciousness scheduled to occur in the fifth Mayan Age of Aquarius in the year

2040.

"The Handbook for the Amateur UFO Investigator" explores the historical and cultural side of UFOs as it ties into our current beliefs in UFO and related experiences. From there it pulls back the curtain to reveal some of the logical explanations behind an overwhelming majority of UFO sightings. This book provides a balanced view of Unidentified Flying Objects and attempts to arm the reader with a skeptical mind and an eye for detail. A thorough interviewing methodology, basic investigation and research methods, as well as a variety of additional resources will help get you started on your way to becoming a successful UFO researcher and investigator. Presents an investigation into UFO phenomena, discussing the explanations offered by various scientists, military organizations, and aviators for UFO sightings and evaluating the probability of alien life forms visiting Earth.

The How and Why of UFOs is the much anticipated sequel to Kenneth W. Behrendt's previous groundbreaking work on the subject, Secrets of UFO Technology. The present work begins with a detailed review of the revolutionary anti-mass field theory explanation for UFO propulsion and its secondary effects which is critical to understanding how these craft can easily overcome the usual limitations imposed by gravity and inertia upon our present massive earthly air and spacecraft. This cutting edge theory is then applied to several classic UFO cases to provide previously unsuspected insights into them. Even the often overlooked topic of small automated alien probes is

explored as a highly detailed probe case, personally investigated by the author, is presented and analyzed in order to reveal the amazing interior structures of the object sighted. After providing an analysis of the planets of origin of advanced spacefaring extraterrestrial beings, the possible reasons for their visitations to our Earth are considered. The author then goes on to describe the most likely biological mechanism behind the mental telepathy process that is the principle mode of communication for most extraterrestrial beings and even suggests a variety of simple methods that might actually allow human researchers to communicate with the alien pilots of the UFOs now operating in Earth's atmosphere! All of this is only a small sample of the many intriguing topics awaiting the reader in this abundantly illustrated volume. The many revelations found in *The How and Why of UFOs* are sure to delight and intrigue any student of ufology who wishes to explore this fascinating subject at its very deepest level.

Asked where he got the ideas for his stories, Stephen King replied, "My mother would read me FATE magazine—which was about the paranormal, flying saucers, and all that stuff. ...and I was fascinated." Now you can read *The Best of FATE. UFOs and Close Encounters* brings you the story of Unidentified Flying Objects through key reports—from the encounter that started it all in 1948 to 21st century sightings worldwide—selected from the magazine's over 700 issues. In this book, Kenneth Arnold, the pilot whose 1949 account launched the modern fascination with flying saucers, shares his story. James A. Harder, professor of engineering at the UC Berkely's metallurgical analysis of UFO remains, he says proves they are of extraterrestrial origin. Cambridge historian Harold T. Wilkins discusses findings from his survey of 1,000 years of UFO sightings. Utah State University professor Frank B. Salisbury, PhD, meditates on whether science alone is adequate to explain their existence. Renowned UFOlogist Jaques Vallee shares possible extradimensional, psychic or spiritual explanations. Geologist Robert M. Schoch, PhD, considers on a connection between UFOs and Lost Civilizations. Many others share authentic personal reports of UFOs seen around the world—and even beneath the seas! You will not find any final answers or solutions—they still don't yet exist, contrary to what some people might tell you. But

you will find sensible, clear-headed perspectives on the greatest riddle of our time, as seen by those who know the most about it. And it's a good bet that when the solution is found, it will be due in no small part to the efforts of the individuals whose testimonies you'll find in these pages...and those of the most thought-provoking publication of all time—FATE magazine.

* Would confirmation of extraterrestrial life discredit Christianity? * Did a spaceship from outer space really crash at Roswell, New Mexico? * Doesnat the Bible talk about UFOs? * What should I tell my children about UFOs? We are in the middle of a philosophical avalanche, and as was the case with Darwinism, the majority of us are unprepared. This growing ideology solicits the same bemusement from the church as evolution did in the late 19th century. Nevertheless, the UFO phenomenon has the same intellectual potential for the 21st century as Origin of Species introduced in the 19th century. With this in mind, how should the Christian community address this presumably preposterous, yet pressing issue? How can you capably address this topic with your co-workers? Does Church History provide any lessons for us? UFOs: 7 Things You Should Know is a collection of the key issues you should be cognizant of regarding this phenomenon.

This is the new must-have UFO book. For beginners and experienced researchers alike, historian Richard Dolan covers the full range of this incredibly complex topic in his uniquely engaging style. He offers fresh insights on everything connected to UFOs: ancient aliens, modern encounters, abductions, channelers, the politics and cover-up, the black budget world, the bizarre science, the social dimensions (read YouTube and Facebook), the future, and much more. Toward that end, Dolan gives practical insights

on how to distinguish and investigate UFOs in today's world, where we are flooded with claims and videos and data of all types. In addition, as one of ufology's pioneers in the deep analysis of the cover-up, he offers an original perspective on how it all works and why the cover-up, despite being so entrenched and insidious, is nevertheless bound to end. He also writes on the nature of contact, speculating on who these "Others" might be. Finally, Dolan takes the reader through the "weird science" of UFOs, covering everything from propulsion to spacetime to consciousness and more. UFOs for the 21st Century Mind is a roadmap pointing the way forward in a field filled with uncertainty and obfuscation. In so doing, it is set to reposition an ancient phenomenon into a contemporary state of mind, reminding you just why the greatest mystery of our time is also one of the most important. Contents: Introduction 1. What Are UFOs? 2. Theories of Ancient Visitation 3. Into Modernity: Airships, Foo Fighters, and Flying Saucers, 1896 to 1969 4. UFO Secrecy and Those Who Fought It 5. Digging Deeper-The Breakaway Civilization 6. High Strangeness-UFOs from 1970 to 1990 7. UFOs, 1991 to the Present 8. Contact and Abduction 9. The Growth of Ufology 10. Who Are They? What Do They Want? 11. Weird Science: Propulsion, Energy, Spacetime, and Consciousness 12. Into the Future, Into Ourselves Conclusion 486 p. Illustrated Endorsements: "In a field that can be so confusing, so complex, Richard Dolan has taken his many years of thinking about UFOs and written a completely fresh overview of the entire subject. . . . This is an ambitious work that truly ties the many different aspects of the subject together. It's rare to find something like this, especially considering the care and thoroughness that went into it." -- George Noory, host of Coast to Coast AM. "As a follow-up to his previous books exploring the relationship between UFOs and the National Security State, historian Richard Dolan widens his perspective to explore all aspects

of this provocative phenomenon. In this role, he takes us on a journey that brings to life the subtlety and depth of this rich subject, a truly captivating read." --H. E. Puthoff, Ph.D., Director, Institute for Advanced Studies at Austin "UFOs For the 21st Century Mind represents a new kind of book - one that clearly and intelligently addresses literally every aspect and implication of the most maligned, misunderstood and compelling subject in human history. Richard Dolan's newest work is perfect reading for serious students of ufology as well as the absolute beginner. Inspired, particularly well written, and the product of a first class mind for this or any other century." --Peter Robbins, coauthor of the U.K. bestseller, *Left At East Gate: A First-Hand Account of the Rendlesham Forest UFO Incident, Its Cover-up and Investigation* "This is an invaluable treatment of the known facets and seemingly endless implications regarding UFOs, with a much-appreciated focus on the human experience. A job well done, Richard." -- Sam Maranto, Investigative Researcher

The second book of its kind, the *UFO Sightings Desk Reference: United States of America 2001 - 2020* presents data and analysis for 167,632 sighting reports of unidentified flying objects reported by individuals during the first 20 years of the 21st century. Since 1969, the government has claimed no interest in the subject and the press and media either ignore or ridicule mention of UFOs. Yet citizen scientists and nongovernmental organizations have continued to this day the research into this important subject: this book seeks to make the hardest data accessible to the general public, as well as other UFO researchers. The book is organized into beginning narrative sections including analysis of UFO sighting reports, followed by the data. There are no case studies or stories. Charts, tables, and maps are presented of summary data for the entire United States. An individual chapter for each of the 50 states plus the District of Columbia.

The UFO Bible, Volume 1, is about everything you want to know about UFOs, and the background about them. Everything from organizations who deal with UFOs, Alien races, terminology, theories, conspiracies, what does religion tell us about UFOs, facts, than and now, UFO Design, plus so much more in this first volume of the UFO Bible! As the 21st Century marches into its third decade, our understanding of the world, and our place within it, seems to be clearer than ever. Each day brings us more and more miraculous scientific discoveries, while technology has interconnected us to an extent that our ancestors and forefathers could not have conceived. And yet, despite the collective of human knowledge lying at our fingertips, there are still a multitude of unsolved mysteries that stubbornly resist any attempts at solving them. Contained in this volume are just a few of the many, many unsolved mysteries that still

haunt both skeptic and believer even in today's "modern" age. These mysteries include both classic cases from farther back in the past and a few more recent ones that have haunted the supposed golden age of the 21st Century. Among these mysteries are some of the most chilling cases of missing persons that have occurred over the past few decades. Explore the maritime nightmares within the cases of Amy Lynn Bradley and Rebecca Coriam, for whom idyllic tropical cruises turned into baffling tragedies when both women went missing at sea without a trace. Scratch your head at the seemingly impossible disappearance of Brian Schaffer, who was seen entering a crowded bar one night but never seen leaving. Follow the leads in the sinister vanishings of Jodie Huisentruit, Ben Needham, and Renata Antczak, whose disappearances hint at darker crimes, obsessions, and coverups. You can then place yourself in the shoes of a grizzled detective as you follow along with the criminal investigations of some of the most disturbing and gruesome unsolved crimes of the 20th Century. Profile a rogue's gallery of potential suspects in the horrific murder and mutilation of the young and beautiful Elizabeth Short-aka "The Black Dahlia." Join famed lawman Elliot Ness as he pursues the darkest and most difficult case of his storied career-the faceless psychopath known by the grisly moniker "the Cleveland Torso Murderer." Walk through the snowy ground of an isolated Bavarian farmstead as you explore the terrifying mass killing of an entire family during the infamous Hinterkaifeck killings. Then, turn your attention to the skies as we examine some of the most notorious and intriguing UFO sightings to have occurred in the 21st Century. Sightings that have spanned both the isolated American southwest and the heavily-populated areas around New York City and Chicago. And finally, explore the truth behind some of the most authentic UFO footage to come out in decades, the sightings

that baffled the mighty United States Navy and forced the American military to, for the first time, officially acknowledge the existence of UFOs. Among these disappearances, unsolved crimes, strange phenomena, and even lingering historical mysteries, you can read all details and theories and decide for yourself what you want to believe. Or not believe. These cases-and more-will astound, intrigue, and unsettle you and, more than anything else, leave you with a lasting impression that there might be more to our world than first meets the eye.

UFOs are humanity's most urgent and baffling mystery. Thousands of completely unexplainable objects seen globally every year by people of unimpeachable character and competence. Objects which inspire awe in airline pilots, fighter pilots, naval officers, police officers, and air traffic controllers. And, if that weren't enough to chill your blood, UFOs are also closely associated with the weirdest of events ? abductions of humans, animal mutilations, strange creatures, telepathy, portals, and more. With detailed research, insights, and a little humour, Volume 2 of the successful ?Outsider's Guide? series takes you on a journey through the whole modern topic ? from the latest 21st century UFO sightings by the most credible observers, through the ?myth? allegations, to the weirdest of UFOs, and down into the depths of the paranormal. What are UFOs? The answers are not easy. To get at them, Volume 2 blasts through every prejudice and preconception you've ever believed in. The first-ever manual that shows you how to investigate UFOs, strange creatures, and the paranormal--like a professional. Clear, comprehensive, no-nonsense, Chase Kloetzke and Richard Dolan have set a new standard for investigators of strange phenomena. UFOs, ghosts, and strange creatures like Bigfoot are some of the most interesting subjects in our world, mainly because they

challenge the very sense of reality that most of us grew up with. These things aren't supposed to exist. The problem, however, is that reports of them just keep coming, even well into the 21st century. Conducting a good investigation of these elusive subjects is not easy. How do you plan your investigation? What's the best way to interview your witnesses? What kind of equipment should you bring? What kind of clothing? How do you do a proper stake-out of a location? What safety precautions should you take? How do you obtain, handle, and preserve evidence? How do you document your case for posterity, so that others can learn from it? Also, what kind of strangeness should you expect from investigating these very odd encounters? What do you need to know? How can you prepare for something that exists at the edges of our shared reality? The purpose of this book is to teach you these things. Until now, there hasn't been a clearly written general guide for investigators of the weird, whether seasoned or brand-new. This is the first-ever field manual that will show you how to investigate UFOs, strange creatures, and the paranormal, and to do it in a professional manner.

Is there a secret space program that is connected in some way to UFOs? In this booklet, historian Richard Dolan delves into this question, one of the most discussed in ufology today. Providing a wealth of data and context for the reader, he offers his own conclusion: yes, there is indeed such a program. But this program is not a simple extension of the normal operations of the U.S. government or military, much less of NASA. Instead, it seems to be the product of what Dolan has previously termed a "breakaway civilization," a radically advanced and increasingly separate structure that has access to classified science and data denied to the rest

of us. Adapted from his classic lecture at the Secret Space Program and Breakaway Civilization conference in San Mateo, this is now offered as a volume in the Richard Dolan Lecture Series.

UFOs. Aliens. Strange crop circles. Giant figures scratched in the desert surface along the coast of Peru. The amazing alignment of the pyramids. Strange lines of clouds in the sky. The paranormal is alive and well in the American cultural landscape. In UFOs, Chemtrails, and Aliens, Donald R. Prothero and Tim Callahan explore why such demonstrably false beliefs thrive despite decades of education and scientific debunking.

Employing the ground rules of science and the standards of scientific evidence, Prothero and Callahan discuss a wide range of topics including the reliability of eyewitness testimony, psychological research into why people want to believe in aliens and UFOs, and the role conspiratorial thinking plays in UFO culture. They examine a variety of UFO sightings and describe the standards of evidence used to determine whether UFOs are actual alien spacecraft. Finally, they consider our views of aliens and the strong cultural signals that provide the shapes and behaviors of these beings. While their approach is firmly based in science, Prothero and Callahan also share their personal experiences of Area 51, Roswell, and other legendary sites, creating a narrative that is sure to engross both skeptics and believers.

Since the 1950s, there have been men and women around the world claiming to have had contact with human-like visitors from space. This book explores how the "Contactee" subculture has critiqued political, social and cultural trends in the United States, Europe and elsewhere. Not merely quaint relics of the 1950s Atomic Age, Contactees have continued their messages of

political and cultural transformation into the 21st century. Regardless of whether these alleged contacts took the form of physical meetings or channeled paranormal psychic communications, or whether they actually happened at all, Contactees have provided a consistently relevant source of commentary on this world and beyond.

"My father is the Rev. Daimon Keith. At the age of twenty, he was abducted near a school playground by small gray aliens. Indeed, Daimon was taken up into UFOs not just that once, but from infancy, and over and over again. It caused him to devote his middle years to the establishment of the Church of Jesus Christ, Time Traveler, and later Scionetics." Rosa "Flake" Rosch is a postmodern orphan. She's forgotten her mother, and her notorious abductee father Deems has vanished--again. "Dark Gray" is Rosa's unreliable memoir of her father's zany life, from his hapless prankster youth in Australia to apotheosis as a UFO guru in the 21st century. It's the story of Rosa's indomitable mother, her weird quasi-brother Ben, Zelda the horsewife, and our whole tormented era, as we blast into hyperreality. "Tilted on the hard slab, he knows the heavy stink of the place. What awful crap do they suck up with those lipless little mouths? The gray doctor touches his forehead with a needle--sharp, glinting--and pushes it hard into his skull." "That life may simultaneously reduce the living to both laughter and despair is a subject few novelists tackle in one bite. Damien Broderick and Rory Barnes succeed in the near-impossible task. "Dark Gray" stands as one of the two great realist novels to tackle the notoriously non-

realist theme of contact with extraterrestrials. It resides on the same (astral) plane as Alison Lurie's magisterial "Imaginary Friends."... A quite brilliant achievement."
--Rosaleen Love, author of "The Total Devotion Machine" Finalist for the Aurealis Award and the Ditmar Award.

UFO sightings during and after World War II can be traced back to the German weapons makers and their amazing use of electro-gravity to power their own manmade ships. Many of the ships appear to bear the sign of the Nazi cross on their outer skin, which is shown in several of the more dramatic photos, in the same way that an airplane would bear insignia on its wings and fuselage. This is further borne out by actual newsclippings from "The New York Times" in which U.S. soldiers in Europe reported seeing colored spheres flying both singly and in clusters during the war. The idea that the Germans were using a secret base in Antarctica to house and maintain their so-called UFOs is examined, and Admiral Byrd's famous exploratory trip to the frozen south is explained as a military attack on the Nazi stronghold disguised as a scientific mission. Apparently, the U.S. forces were no match for the Nazi airships, which shot down several planes and forced Byrd's troops to retreat. There are 50,000 out of 1 million sightings every year that are deemed credible by ufology researchers and experts. This mini-book is a

compendium of scary UFO Incidents (in this author's opinion) around the world that were either observed by or recorded by credible witnesses {except for the 1897 Aurora, Texas and the 1961 Betty & Barney Hill incidents}...such as competent radar operators or experienced air force/airplane pilots or experienced ICBM Launch Control Officers or al

What is really in the air around you and are you being watched when you think you are alone? An entire world of phenomenal creatures and unexplained mysterious phenomena exists in the space in front of you whether you are in your own backyard or in the comfort zone of your own home. With the discovery of the new 21st century science of Bioluminology, a new world of previously invisible biolumens, or living light creatures of the air, is being unveiled. What people once thought of as ghost orbs, spirits, angels, fairies, UFOs, aliens, miraculous apparitions, mysterious and unexplained lights, beings from other dimensions and possibly even the Holy Spirit of God turning up in their photos, are really these amazing and newly discovered beings. Over a million ghost photographers all over the world are getting these "ghosts" in their photos and a million ghost photographers can't all be wrong. Are biolumens intelligent? Absolutely. More than humans? It appears so. Can they tell the future and answer all

questions? Yes. Could they lead us to the discovery of God? Most likely. If God can be seen or found anywhere, it will be with the new technology of Bioluminology more so than with any other science known to mankind. Bioluminology is the scientific gateway to a future of communing directly with non-human higher intelligence. It is the science of discovering and studying the unique world of brand new creatures that can only be classified in their own individual Kingdom, the Seventh Kingdom of living light beings who sail through the air as if the atmosphere were their ocean. It is the science of working with intelligent biolumens to gather valuable knowledge, wisdom and clues about our world and the universe that have never before been available until now. Join Bioluminology founder Christina Cave, the world's leading Bioluminologist and Queen of the Seventh Kingdom (due to an out of the ordinary encounter involving some of the births of the Seventh Kingdom creatures) - for the story behind the amazing discovery. Find out why, with Bioluminology - the world lottery drawings will no longer be safe from practicers of Bioluminology, why no criminal will ever be able to hide again and why no secret will ever be able to be kept secure in the new and exciting future of working with biolumens. Bioluminology is the 21st century science of the future with the potential to uncover the most mysterious truths and universal secrets that mankind

has always been searching for.

Exposing perceived fault lines in our banking and financial systems and explaining how unemployment could be cut in half in two years and worldwide prosperity restored, this book argues the existence of exotic energy sources to replace fossil fuels and consequently recommends an immediate end to fracking and offshore drilling for oil. It further urges an immediate worldwide mobilization to replace the energy source in every car, truck, tractor, ship, airplane, and house on Earth in seven years in a desperate effort to save the planet from further overheating. The book blasts government secrecy, and more than 65 years of supposed lies and disinformation, and demands full disclosure of what they know about visitors from other realms and their technology and the extent of their collaboration, including any treaties that may have been signed by them. With more than 65 years of participation in and observation of political and economic systems—beginning with the Great Depression, extending through World War II, the postwar era of hope for a better life, the Cold War, the subjugation of democracy by oligarchy, and the subtle but continuous militarization of America—Paul T. Hellyer analyzes what he believes has gone wrong with the world and its economy and suggests radical measures to introduce a universal culture of peace and cooperation.

For as long as people have talked about UFOs, they have wondered about when and how the governments of the world will acknowledge them. Among people following the subject, that's called Disclosure. In this second volume of the Richard Dolan Lecture Series, Historian Richard Dolan tackles an enormous subject. After explaining why UFOs are taken seriously in national security circles around the world, he provides his best analysis to date as to how the secrecy on UFOs has taken form, how it has corroded our society, and how it works internationally. He gives a fresh analysis on the black budget breakaway civilization, on the weaponization of secret technologies, the intelligences behind the UFO phenomenon, and how Russia and China fit into the global UFO cover-up. He drives his analysis home with four distinct disclosure scenarios: Fascist Disclosure, Premature Disclosure, Insider Disclosure, and People-Driven Disclosure. Finally, Dolan offers a unique view on how the UFO cover-up and possible disclosure could transpire during the presidency of Donald Trump. One thing is clear: we live in a world that hangs in the balance.

Does the U.S. government know more about UFO and alien life than it admits? Are eyewitnesses telling the truth? What does the historical record say? Former intelligence officer and retired U.S. Army lieutenant colonel Kevin Randle takes an objective look at evidence for alien life and UFOs and presents his findings in *The UFO Dossier: 100 Years of Government Secrets, Conspiracies and Cover Ups*. The author reviews the documents, scours government databases, and interviews witnesses, unearthing details on UFOs, mysterious crashes, sightings, encounters, and related phenomena. The *UFO Dossier* presents plots, cover-ups, misleading statements, and documented connections to government intrigue—as well as hoaxes and problematic authentications. Following leads and

digging into the files of the CIA, the FBI, the FAA, NASA, the Army, Navy, Air Force, and other U.S. government and international agencies, Randle lets the facts guide him. From a short history of UFO projects and the Condon Committee to the complete COMETA report and UFOs in the 21st century, investigations include ... • Asteroids, meteors and UFOs (Tunguska, Battle of LA, Whitted Sighting, ...) • Photographs (McMinnville, Tremonton UFO Movie, Bear Mt. The first book of its kind, the UFO Sightings Desk Reference: United States of America 2001-2015 presents data and analysis for 100,000+ sightings of unidentified flying objects reported by individuals during the first 15 years of the 21st century. Since 1969 the government has claimed no interest in the subject, and the press and media either ignore or ridicule any mention of UFOs. Yet citizen scientists and non-governmental organizations have continued to this day the research into this important subject: this book seeks to make the hardest data available accessible to the general public, as well as other UFO researchers. The book is organized into beginning narrative sections including analysis of

UFO sightings, frequently asked questions, and how to use this book, followed by the data. Charts, tables, and maps are presented of summary data for the entire US and individual chapters for all 50 states (down to the county level) plus the District of Columbia. Aimed at the serious UFO researcher, this comprehensive volume is also of value to academic and public libraries, news organizations, and anyone who is interested in what is flying in the skies over their heads where they live.
